Item 00:

|	
Present the primary prompt to the student. Read the following prompt exactly as it appears below. Primary Prompt: **What would an astronaut use to travel into outer space?** Point to and read each answer option aloud: **Rocket ship, Jet plane, Flying car** **Choose your answer.** The student receives a score of 4 for a correct response. If the student does not respond, repeat the primary prompt and answer options *only once*, exactly as they appear. If the student responds correctly after the second presentation of the primary prompt, the student receives a score of 4. If the student responds incorrectly or does not respond after repeating the primary prompt, move to Level 3.	**4**
Turn the page and present the additional prompt to the student. Present the primary prompt and answer options again, exactly as they appear above. The student receives a score of 3 for a correct response. If the student does not respond or responds incorrectly, move to Level 2.	**3**
Point to the correct answer and read aloud: **A rocket ship is what an astronaut would use to travel into outer space.** Present the primary prompt and answer options again, exactly as they appear above. The student receives a score of 2 for a correct response. If the student does not respond or responds incorrectly, move to Level 1.	**2**
If the student responds incorrectly at Level 2, the student receives a score of 1.	**1**
If the student does not respond at Level 2, the student receives a score of No Response (NR).	**NR**

Correct answer: Rocket ship
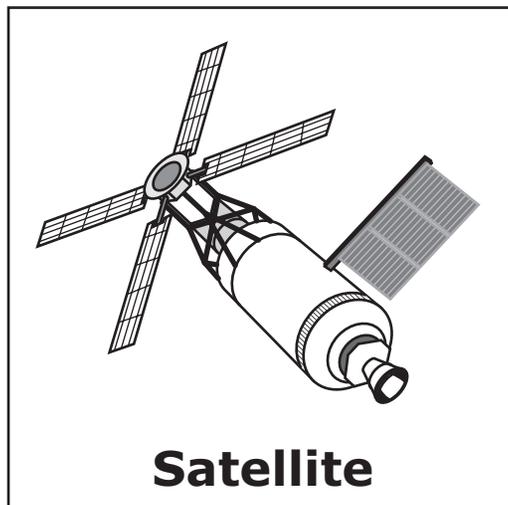

Rocket ship

Jet plane

Flying car

Present the additional prompt to the student. Point to the answer on the student-facing page and read the additional prompt exactly as it appears below.

Additional Prompt:
This is an example. Scientists use a satellite to explore space.

Turn back and present the primary prompt and answer options again, exactly as they appear on the previous page.

Satellite
