Student Data Consent Form

The Colorado Department of Education is offering all 10th grade students attending public schools in Colorado the opportunity to participate in the PSAT™ 10 exam. The PSAT 10 is aligned to the Colorado Academic Standards and measures the skills and knowledge that are essential for college and career readiness. As part of the College Board's SAT® Suite of Assessments, the PSAT 10 allows you to prepare for the SAT, which you will take next year.

The College Board, the provider of the PSAT 10, gives students and families complete discretion regarding any voluntary information they provide. Either before or on test day, you will complete the Student Data Questionnaire (SDQ) on your answer sheet. The SDQ consists of some basic information about you (name, school, grade level, state student ID, sex, and date of birth) that is required to identify your test and provide a score report, along with optional questions regarding yourself and your interests. Information gathered from the optional questions will be used for a variety of purposes, including analysis to ensure that the exams are fair for all groups, group reporting, to connect you with potential colleges or scholarship opportunities, and for research.

A complete list of the information requested in the SDQ and the ways that it is used can be found on the other side of this flyer. When completing the SDQ, you will also be able to opt into Student Search Service®, which connects you with colleges and scholarship programs. If you opt in, participating colleges may provide information on financial aid and scholarships as well as information about majors, student services, and campus life. You may cancel your participation in this service at any time. To be clear, completion of the optional questions on the Student Data Questionnaire, and participation in Student Search Service are optional and voluntary for all students. Additional information may be found in the College Board Privacy Policy at **collegeboard.org/privacy-policy**.

See the other side for the information that will be collected on your answer sheet. Review the optional questions to determine if you wish to respond. If you choose to complete the optional questions, you are still not obligated to answer all questions. After reviewing, please indicate below if you will be completing the optional questions on the answer sheet, then complete your name and sign and date this form. Once completed, return to your school teacher or counselor.
