CO Summary File Field Definitions

Listed below is the file layout for the CMAS science, social studies, mathematics, and English language arts (including Colorado Spanish language arts) and CoAlt science and social studies Summary Data Files and instructions for accessing the files. The district and school files are in .csv format. The first row of the file contains the headers; subsequent rows contain the data.

The **Summary Data File** (page 6) provides aggregate student performance data for the district or school. The data is aggregated at the whole district or school level as well as a number of demographic group disaggregations. Each level of aggregation is reported on a separate row. The list of reported groups is in the **Disaggregated Groups and Descriptions** table (page 3).

- Only students with scores are included in the aggregated score field calculations.
- Students without scores are not included in the denominator for average scores or the percent of students in a performance level.

The district files include the aggregate data for the state (with public reporting suppression rules applied) and the district's schools in addition to the district level data.

In the Summary Data File, Columns A (Level) to AM (Total Number 1st Year in US English Learner), contain the same data as the Performance Level Summary Report. The rest of the file has the aggregate data reported on the Student Performance Report, Content Standards Roster, and Item Analysis Summary (CMAS science and social studies only). The second section of the file is not disaggregated by demographic group. Only the standards appropriate for a particular content area contain information (e.g., Standard 4 PGC and GLE fields will be blank for science).

Note: Some fields may be filler in the separate CMAS and CoAlt files for science and social studies.

Exporting the Student Data File

1. Sign into PearsonAccess^{next}.
2. Select the administration from the administration dropdown in PearsonAccess^{next}.
3. Select **Published Reports** under the **Reports** dropdown menu.
4. Click on the name of the file name to download.

Importing the file into Excel

1. Open Excel.
2. Select the **Data** tab.
3. In the **Get External Data** group, select **From Text**.
4. Locate the downloaded Student Data File.
5. Double-click the file name or select the file and click **Import**.
6. The Text Import Wizard will open.

Step 1: Set original data type to **Delimited**. Select **Next**.

Step 2: Set delimiter to **Comma** only. Select **Next**.

Step 3: To retain leading zeros on fields (e.g., grade), first select all fields in the data preview, then select **Text** as the column data format to import data as text. Select **Finish**.

Disaggregated Groups and Descriptions

Group	Description	Notes
