

Colorado Student - Centered Science Assessment 2024-2025 Learning Series CHECK & CONNECTS

Transform your existing instructional materials to include an ideal assessment system focusing on **day-to-day 'Check and Connect' short assessments**. These short formative assessments offer a meaningful way to build a caring culture around assessment, provide actionable information for you AND your learners related to their 3D science learning, and support learners in developing their skills to transfer learning to new phenomena.

- Design and use short, impactful assessments that provide **immediate insights into student progress**.
- Embrace **student voice and choice** in your assessment strategies.
- Cultivate a classroom culture of **ongoing feedback and reflection**.
- Be part of a **collaborative community** dedicated to enhancing educational practices through innovative assessment systems.

Virtual Fall Series
Sessions are 4:00PM-5:30PM
All Sessions will be Recorded
