Scratch Paper Verification
Spring 2024 CMAS: Math, ELA, and Science

Maintaining the security of all test materials is crucial to obtaining valid results from the CMAS: Math, ELA (including CSLA), and Science assessments. District Assessment Coordinators (DACs) must complete this form to certify that security measures, as documented in the *CMAS and CoAlt Procedures Manual*, were maintained for the collection and return of all used scratch paper after the spring 2024 CMAS administration.

I hereby acknowledge that all used scratch paper was collected and returned to the district by all schools. This form serves as confirmation that all used scratch paper was either securely destroyed by the district or shipped to the vendor after testing.

In the table below, indicate the name and code of each school in the district, the status of each school's used scratch paper, then print your name, sign, and date the form.
