SPECIAL CIRCUMSTANCE CODES

Special circumstance codes are applied to records to provide a reason why an eligible student does not participate in an assessment. In order to apply a special circumstance code, a testlet must first be generated for the student. The following steps must be completed before a testlet is generated by the Educator Portal System.

1. The student must be enrolled in Dynamic Learning Map’s (DLM) Educator Portal (EP)
2. The student is assigned to a roster for a specific teacher
3. The teacher completes the Personal Needs and Preferences (PNP) and First Contact Survey in Educator Portal
4. The system generates the first testlet

The Test Administrator must complete ALL DLM trainings in the DLM training site (Moodle) to access the roster. For more information on how to complete the above steps, please see the DLM Data Management Manual at http://dynamiclearningmaps.org/colorado.

REASONS FOR NOT TESTING

ENTER A SPECIAL CIRCUMSTANCE CODE

In the event that a student cannot participate in a testlet that generates a performance level used for federal and state accountability, a special circumstance code can be entered in the Educator Portal to explain why the student was not tested. A crosswalk with codes used in Colorado can be found on page 5 of this document.

Note: Codes must be entered before the testing window ends.

The special circumstances fields are located in EP on the same screen where the Testlet Information Page (TIP) is accessed, and are descriptive words, e.g. medical Waiver or Parental Refusal. Only educators with the role of District Test Coordinator, Building Test Coordinator, and State Assessment Administrator have the permissions to choose the code. We recommend that the special circumstance code not be entered until late in the state’s testing window, but before the window closes. The code needs to be entered once per content area associated with the first testlet to be delivered.

Note: The code is selected and saved; however, the code can be changed by any authorized user.
To enter the special circumstance for a student, follow these steps.

1. Click **Manage Tests**.

2. Click **Test Management**.

3. Select the following options in these fields:
   - **Assessment Program**: Dynamic Learning Maps
   - **Testing Program**: Summative
   - **District**: Your district
   - **School**: your school
4. Click **Search**.

5. Click the **Test Session Name** you want to update. Please note that this will need to be repeated for each subject.

6. Select the applicable **Special Circumstance**.

---

Note: If the wrong code is selected and saved, the code can be changed by any authorized user.
7. Click **Save**.

**Hint:** Once the **Save** button is clicked, the Special Circumstances column updates to indicate the special circumstance code has saved.

**Hint:** Code entry in Educator Portal is independent of the testlet delivery system. A new testlet is delivered each time a testlet is submitted.

---

**Note:** If a special circumstances code was selected but is not needed, the user should follow steps 1-8 and choose the default “select” as the special circumstances code for the student.
**Special Circumstances Codes**

The dropdown menu in Educator Portal uses languages from the DLM Special Circumstances Codes. The Colorado Department of Education (CDE) has created a crosswalk from those codes to invalidation reasons used by CDE reporting and accountability.
