What is the Student October Count Data Submission?

Counts From Student October Data Collection Determine Total Program Funding

- School districts in Colorado are funded by a variety of sources
- The biggest source of funding comes from the School Finance Act
- The amount a district receives according to the School Finance Act is called **Total Program**
- Counts from the Student October Count Data Collection are used to calculate Total Program Funding

Student October Count Data Submission

- It is very important for districts and schools to establish processes for reporting all Student October Count data fields accurately.
- Under- or over-reporting of the counts may result in:
 - Significant audit findings for the district
 - (i.e., the district owing money back to CDE or not receiving all eligible funds prior to audit)
 - Impacts to funding for districts across the state of Colorado
 - Impacts continuing from the current year to future years

At-Risk Count Data in the 2024 October Count Data Submission

The At-Risk count funding criteria for 2024/2025 will be the same as they have been since 2021/2022.

- The At-Risk Count for 2024 includes students reported in Student October who meet all of the following criteria:
 1. Eligible for per pupil funding
 2. Grades K-12
 3. Free or reduced-price lunch eligible
- Valid lunch eligibility codes for the data submission:
 - 00 = Not eligible/ Paid
 - **01 = Free lunch eligible**
 - **02 = Reduced-priced lunch eligible**

The legislature has directed districts to report additional data starting in 2023 and continuing in 2024, which will be discussed later in this training.

However, **At-Risk Count funding for 2024/2025 will only be based on qualifying students who are eligible for free or reduced-price lunch.**

Free and Reduced-Price Lunch Status

- At-Risk status is closely linked to National School Lunch Program (NSLP) free and reduced-price lunch criteria
- Income guidelines mirror NSLP guidelines published by the USDA
 - Schools and districts are NOT permitted to create their own income guidelines for Student October reporting!
- Documentation types and requirements are also based on guidelines from the USDA and CDE's Nutrition Unit
- There are a few documentation differences, including:
 - There may be differences in allowable dates/date ranges between documents used for Nutrition eligibility purposes vs. documents used for At-Risk eligibility purposes
 - Schools may need to collect At-Risk documentation for students who do not need individual Nutrition documentation

What If All Students are Eating for Free?

- Many schools & districts in the state are participating in [Healthy School Meals for All](#) (HSMA) and/or [CEP/Provision 2](#). These programs allow districts and schools participating in the National School Lunch Program to provide free meals to all students.
- Some students at these schools who eat for free under these programs may **not** be **eligible** for free (or reduced-price) meals.
 - Only students with qualifying eligibility documentation on file may be reported as free or reduced-price lunch eligible in the Student October Count data submission.
 - Some Point of Sale/School Nutrition System records may not accurately reflect the individual student data needed for Student October reporting. Therefore, some schools and districts may need to track student-level At-Risk data separately.

At-Risk Eligibility Documentation

All sites/schools and districts must still maintain appropriate At-Risk eligibility documentation for each student!

This includes:

- Districts that participate in Healthy School Meals for All
- Districts/sites that participate in CEP or Provision 2
- Schools/sites that do not participate in the National School Lunch Program

- Eligibility documentation must be retained and available until audited by the Department or until five years from the certification due date, whichever comes first.
- Depending on the timing of the audit and the CEP/Provision 2 base year, CEP/Provision 2 schools and districts may need to retain At-Risk eligibility documents for up to 10 years to include the entire CDE-approved provision timeline.

Types of Eligibility Documentation

Direct Certification

- Student determined to be free or reduced-price lunch eligible based on assistance program information or migrant status identified in the Colorado Nutrition Portal.

Categorical Eligibility

- Student determined to be free lunch eligible based on the individual student's foster, migrant, homeless, or runaway status.

Application, FEDS Form, or Combo Form

- Student determined to be free, reduced-price, or paid lunch eligible based on household size and income, assistance program information, or foster status

Types of Eligibility Documentation

Evidence of Free Lunch Eligibility Only

- SNAP/TANF/Migrant/Medicaid-Free Direct Certification Lists
- Extended Eligibility Documentation for those DC lists (excluding migrant)
- Categorical Eligibility Determinations (migrant, homeless, runaway and/or foster child lists)

Evidence of Reduced-Price Lunch Eligibility Only

- Medicaid-reduced status on Direct Certification Lists
- Extended Eligibility Documentation for Medicaid-Reduced

Evidence of Free or Reduced-Price or Paid Lunch Eligibility

- Applications for Free and Reduced-Price School Meals
- Family Economic Data Survey (FEDS) forms
- Combination forms

[Documentation Quick Reference Guide](#)

Direct Certification SNAP/TANF/FDPIR/(Migrant)

- Any student who appears on a sponsor's Direct Certification list from July 1 through the pupil enrollment count date must be reported as free or reduced-price lunch eligible
 - Medicaid-REDUCED is the only DC status leading to reduced-price lunch eligibility
- Best practices:
 - Conduct Direct Certification uploads as often as possible from July 1 through the pupil enrollment count date
 - Consider conducting a complete upload on the pupil enrollment count date, including students at non-participating sites
 - District must reimburse the nutrition fund as appropriate for time spent on this process for non-participating sites
- To qualify based on receiving SNAP/TANF/FDPIR through any state other than Colorado, the household must provide a letter or other documentation from that state's benefit agency

Direct Certification SNAP/TANF/FDPIR/(Migrant)

- The [School Nutrition Unit's Recorded Trainings](#) page includes a “Direct Certification Implementation” webinar with step-by-step directions for using the State Nutrition Portal
- Note: Due to a technical issue, some eligible SNAP and TANF students were not included in the files that were sent to School Nutrition in July 2024. CDE's Nutrition Unit has worked with our partner agencies to get that corrected and the full list is now available (as of 8/2/24).
 - For questions or more information, contact Nell Dochez at dochez_n@cde.state.co.us

- Free lunch eligibility is extended to all students in a household based on one member's eligibility for SNAP, TANF, and/or FDPIR
- Medicaid students may be designated as either free or reduced-price eligible, and may extend that eligibility to all students in their household
-  Categorical migrant, homeless, runaway, Head Start, and foster eligibility **cannot** be extended to other household members
 - Even if migrant status is identified via the State Nutrition Portal during the direct certification process, migrant status cannot be extended.

Extending Eligibility from Different DC Match Types

The DC export file downloaded from the [State Nutrition Portal](#) identifies several possible match types:

Match Type	Action
SNAP	Free meals – can extend eligibility
TANF	Free meals – can extend eligibility
BOTH	Free meals based on SNAP status – can extend eligibility
MEDICAID FREE	Free meals – can extend eligibility
MIGRANT	Free meals – NO extension
MEDICAID REDUCED	Reduced meals – can extend reduced eligibility
SNAP/MIGRANT	Free meals based on SNAP status – can extend eligibility
MEDICAID-FREE/MIGRANT	Free meals based on Medicaid status – can extend eligibility
BOTH/MIGRANT	Free meals based on SNAP status – can extend eligibility
TANF/MIGRANT	Free meals based on TANF status – can extend eligibility
MEDICAID- REDUCED /MIGRANT	Free meals based on Migrant – can extend reduced eligibility based on Medicaid

- The updated Direct Certification system within the Colorado Nutrition Portal includes functionality to extend eligibility based on household address; if the district uses this system, no additional documentation is needed for these extensions
- If the district uses a separate process, documentation must include:
 - Date of extension
 - Original Directly Certified student's name
 - DC list date (and/or a copy of the list)
 - Basis of extension (add siblings form/same address/application/FEDS)
- Examples of how the required Extended Eligibility information may be documented include, but are not limited to:
 - Comments or notes entered into the district's point of sale system
 - Handwritten comments or notes on the printed direct certification list
 - On a separate document that is maintained by the district's nutrition services department that contains all applicable information
 - A completed "Extended Eligibility to Additional Household members" letter

Categorical Eligibility Determinations

Students identified in any of these categories should be reported as **free** lunch eligible in Student October:

- Foster
- Migrant
- Homeless or Runway (McKinney-Vento)
- Head Start

Designation on a completed Application/FEDS form/combo form can be accepted at face value	Designation must be confirmed via the corresponding liaison list*
<ul style="list-style-type: none">• Foster Children	<ul style="list-style-type: none">• Migrant Students• (McKinney-Vento) Homeless or Runaway• Head Start

* Liaison lists must include student names and show the liaison identified/confirmed each student's status on or before count day

- Regional Migrant Liaisons
 - The Office of Migrant Education at the Colorado Department of Education, is federally funded under [Title I, Part C](#) of the Elementary and Secondary Education Act (ESEA). The Colorado Migrant Education Program coordinates and delivers services through five regional offices.
 - Find your district's [Regional Migrant Liaison](#)
- McKinney-Vento Homeless Education Liaisons
 - Every school district has a designated McKinney-Vento Homeless Education Liaison responsible for identifying MKV students and providing resources to help these students.
 - Find your district's designated [MKV Liaison](#)
- Child Welfare Liaisons (CWEL)
 - Under C.R.S. 22-32-138, each school district and the state charter school institute, shall designate a person to act as the Child Welfare Education Liaison (CWEL) for the district. This person serves as the single point of contact to help facilitate school stability and seamless transfers for students in foster care.
 - Find your district's designated [CWEL](#)

Applications, FEDS, and Combination Forms

- Three very similar forms may be used to collect household information
 - Household Application for Free and Reduced-Price School Meals (Application)
 - Family Economic Data Survey (FEDS)
 - Combination Form (Application for Free/Reduced-Price School Meals & Family Economic Data Survey)
- These forms are primarily used to evidence income-based eligibility (based on USDA income guidelines), but may also identify eligibility through assistance programs (SNAP/TANF) or foster status
- Paper form templates, instructions, and letters for all three forms are available on Nutrition's [Determine Program Eligibility webpage](#)
- Online Applications/FEDS forms
 - Electronic forms must collect ALL information shown on the paper templates
 - Must show the date of submission & proof of signature
 - For online FEDS forms, review the additional "[Online Signature Guidance](#)"

When To Distribute Applications, FEDS Forms, or Combo Forms

- Schools that do NOT participate in the National School Lunch Program (NSLP):
 - Must use the **FEDS form**
- Sites/schools participating in the NSLP:
 - Sponsors opting into HSMA with **no CEP** or **some CEP** schools will use the **Combo form**
 - Sponsors opting into HSMA with **all CEP** schools can use the **Combo form or FEDS form**
 - Sponsors **not opting into HSMA** will use the household income **Application**
- If a family turns in a form that includes students who attend both participating and non-participating sites, that form can be used to determine lunch eligibility in Student October for all listed students.
- Note: Costs for processing forms for students attending CEP schools or non-participating sites may not be paid from the nonprofit school food service account, or must be reimbursed from other district funds.
 - More information is available in the Nutrition Unit's [HSMA FAQ](#), under Free and Reduced Lunch Application Requirements question #4.

All schools and districts **must** use these income guidelines for At-Risk eligibility determinations in the state of Colorado, regardless of National School Lunch Program participation.

Allowable Document Dates & Document Hierarchy

Allowable Document Dates for Provision 2 Sponsors

- A small handful of sponsors across the state are operating under **Provision 2** for 2024/2025.
- If your district is one of them, and 2024/2025 is not a base year for you, disregard the following date information and consult the 2024 At-Risk Count Audit Resource Guide for details.
- **All other** schools and districts (& CSI) will have uniform document date requirements for 2024 Student October At-Risk documentation, as discussed in the following slides.

Allowable Document Dates for CEP Sites in 2024/2025

- [CEP & Provision 2](#) schools and districts have a multi-year cycle, up to 5 years long, which may allow them to use the “best” document on record for a student from any time during the cycle.
- All CEP cycles across Colorado are resetting and will have a new base year of 2024/2025. Therefore, this year, all schools and districts across the state are either in a “normal year” or in a CEP “base year”.
- In the base year of a cycle, such as 2024/2025, allowable At-Risk document dates for students at CEP sites are the same as non-CEP schools.
- CEP sites have no special document flexibilities for 2024 Student October At-Risk reporting purposes.

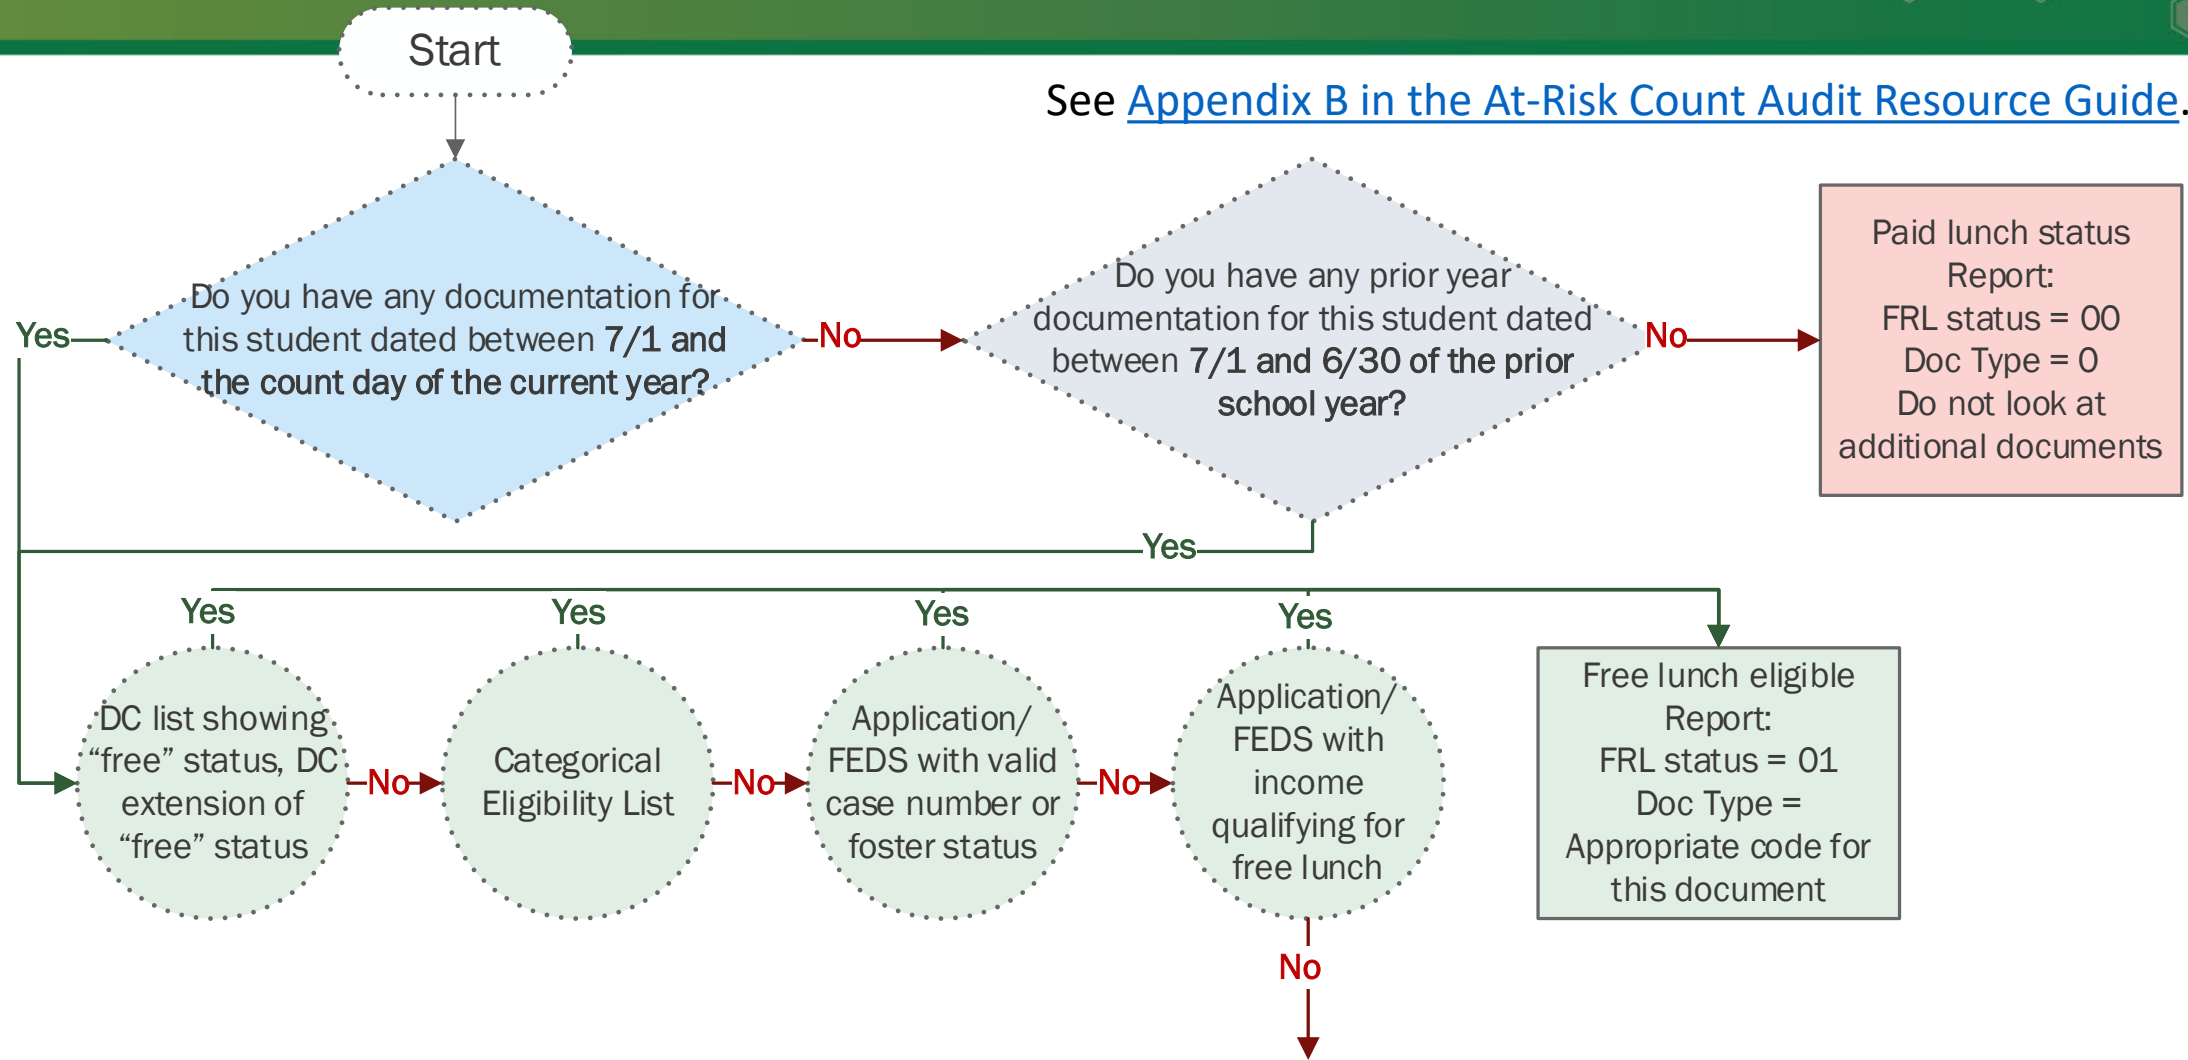

Allowable Document Dates for 2024/2025 At-Risk Eligibility

- A “current year” document is dated between 7/1/24 and the pupil enrollment count date (10/1/24, unless your district/school has an alternative count date).
- If a student has **no** current year eligibility document on file, the district may use a “carryover” document, which must be dated between 7/1/23 and 6/30/24.
 - For 2024 Student October, if a current year document is on file for a student, that document must be used.
 - Schools or districts **MAY NOT** use a “better” carryover document for 2024/2025 if a current year document is on file for that student.
- No other documents may be used this year. For 2024 Student October, **every** Free/Reduced Lunch Price Eligible **code of 01 or 02** (i.e. every student coded as eligible for free or reduced-price meals) must be supported by a document in this date range!

Data Required for 2024 Student October In Preparation for 2025/2026 Changes

Changes to At-Risk Funding Calculations Beginning in 2025/2026

- Per statute, the At-Risk funding calculation will change beginning in **2025/2026**.
- The new calculation will take two factors into consideration:
 1. Percentage of students certified as eligible for **free** lunch based on either:
 - Direct Certification (i.e. receipt of SNAP, TANF, FDPIR benefits or Medicaid-Free, as identified through the State Nutrition portal) **OR**
 - Categorical eligibility (foster, homeless, migrant, etc.)
 2. A neighborhood socioeconomic status index that is linked to each student's census block group.
- Beginning with 2025/2026, assume that the required At-Risk audit documentation will change.
- For more information regarding the new At-Risk Measure, visit the [At-Risk Measure Working Group website](#).

2024 Preparations for New Requirements FY 2025/2026: Document Identification

In preparation for implementation of the new measure, districts are required to report additional data in 2024 Student October. This data will not affect At-Risk funding for 2024/2025.

- Free/Reduced Lunch Price Eligible data field
 - This is the historical data field indicating if the student is eligible for free, reduced-price, or paid school meals
- **Free Lunch Eligibility Identification** data field (AKA “Doc Type Code”)
 - This data field was introduced for the 2023/2024 year, and reports the type of document used to identify the student’s lunch eligibility status
 - Only **free** lunch students reported with a Doc Type Code of “1” or “2” will be included in the new calculation

For more information on the Lunch Eligibility and Free Lunch Eligibility Identification status fields, refer to the [Student Demographic interchange file layout](#).

Free Lunch Eligibility Identification Field AKA “Doc Type Code”

- The “**Free** Lunch Eligibility Identification” field (AKA “Doc Type Code”) was added to the 2023 Student October Snapshot.
 - Any student reported with a Free/Reduced Lunch Price Eligibility value of **01 (free lunch eligible)** must have a value of 1, 2, or 3 in the Doc Type Code field.
 - Reduced-price and paid lunch eligible students must have a value of 0 in the Doc Type Code field.
- Available document type values are:

0	Not identified as Free Lunch Eligible
1	Direct Certification (Medicaid, SNAP, TANF, FDPIR) – including extension to other household members
2	Other Source Categorical (Migrant, Homeless, Runway, Foster, Head Start documented participation) – LEA liaison lists, student-specific eligibility
3	Application (Application for Free and Reduced-Price Meals, Family Economic Data Survey Form, or Combination form)

See [Appendix B in the At-Risk Count Audit Resource Guide](#) for guidance choosing the correct doc type code.

2024 Preparations for New Requirements in FY 2025/2026:

Census Block Data

Starting with the 2024-2025 school year, districts must also begin to report student census block data through the new At-Risk Interchange.

- This data will be used to assign socioeconomic status indexes, which will be part of the At-Risk funding calculation beginning in 2025/2026.
- Data Pipeline trainings and other information specific to the At-Risk Interchange File and the Geocode Tool are available on the [Data Pipeline At-Risk Interchange website](#).
 - **Overview of the Geocode Tool** (Complete, recording & presentation available)
 - **Overview of the Geocode Tool** August 13, 2024 (10AM)
 - **Overview of the Data Pipeline At-Risk Interchange File** August 20, 2024 (1PM)
- **If this interchange data is not uploaded, you will not be able to submit your Student October Snapshot!**

Action item: If your district has not yet assigned the appropriate user roles for this interchange in IDM, your LAM must do so as soon as possible!

Considerations for the Future

Student Eligibility Tracking over the CEP Cycle

- In a base year, like 2024/2025, At-Risk documentation and eligibility requirements are the same at CEP and non-CEP sites.
- As the CEP cycle progresses, the district gains additional flexibilities that can be used to maximize At-Risk funding eligibility in Student October.
 - Using any document dated between 7/1 of the base year and count day of the current year
 - (Note: this excludes “carryover” documents from the year before the CEP cycle!)
 - Using whichever document provides the “best” eligibility status
- Using CEP documentation flexibilities for Student October data requires additional record-keeping.
 - Tracking all available documents on file for a student in the allowable date range
 - Determining which document offers the best status, and the corresponding eligibility code and Doc Type Code
 - Tracking whether each student has remained enrolled in only CEP schools within the district, as reported in Student October each year
- Forward planning now may save effort and maximize potential funding in later years.

Key Considerations in Distinguishing Nutrition Data vs. At-Risk Data

Historically, the four questions below aligned very closely. However, because different authorities with various priorities are responsible for these questions, the answers have diverged over time.

1. Who is eating for free?
2. Who is eligible for free or reduced-price lunch per USDA claiming rules?
3. Who is reported as free or reduced-price lunch eligible in Student October?
4. Who is included in the At-Risk Funding Count based on Student October Count data?

As the new At-Risk Measure is implemented, and CEP cycles move forward, consider how your district will divide responsibility for understanding & answering these questions.

See [Appendix A in the At-Risk Count Audit Resource Guide](#) for further discussion.

Data Validation

Annual Checks for District Staff

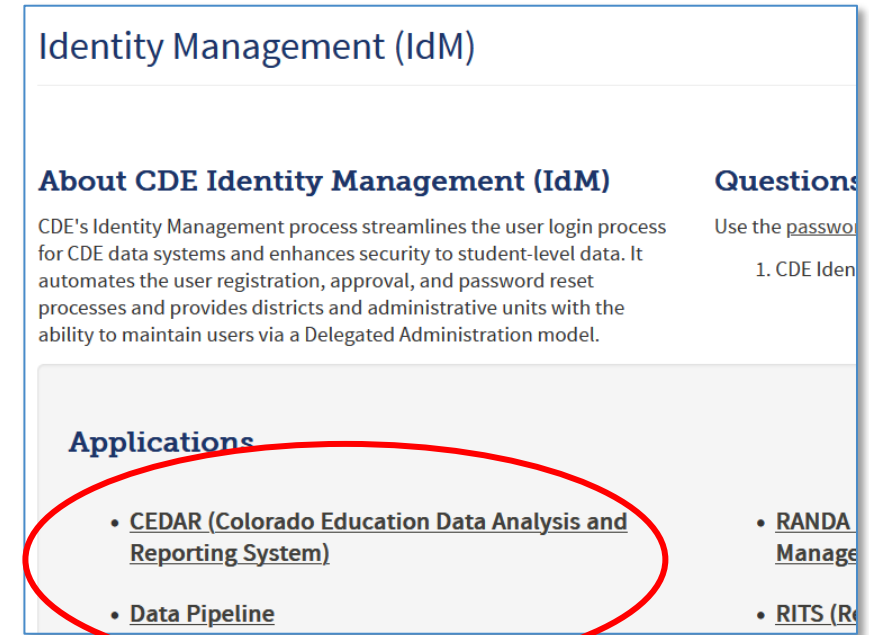

- Download & use the current year's [At-Risk Audit Resource Guide](#)
- Know the pupil enrollment count date
- Assign at least two district staff to be knowledgeable about processing applications/FEDS forms/combo forms
- Assign at least one district staff member to be knowledgeable about Census Block data – this is likely not a Nutrition staff member!
- Identify the officially designated liaisons who identify/confirm McKinney-Vento, Migrant, and Foster statuses for your district
- Update all software for the current/new school year
 - Use the “[Local System Requirements Checklist](#)” for free and reduced-price lunch software systems

- Know which schools are:
 - Participating in the National Lunch Program (NSLP)
 - Participating in CEP or Provision 2
 - Participating in HSMA
 - NOT participating in the NSLP
 - (e.g., online schools, some charter schools, some AECs, etc.)
- Ensure Direct Certification is conducted as many times as possible from July 1 through the pupil enrollment count date (for all students)
 - Have a process to include students in non-NSLP schools
 - Plan to complete a list on count day if possible
- Ensure McKinney-Vento, Migrant, and Foster information is being gathered, validated, and entered into nutrition and SIS records
- Ensure nutrition records are synching properly with your district's Student Information System (SIS)
- Ensure systems are importing/exporting data correctly and notification processes are in place when imports/exports fail

- At the district and school levels, verify the following:
 - Students who appear on a Direct Certification list from July 1 through count date are reported as free lunch eligible, except Medicaid-Reduced
 - Medicaid-Reduced students must be reported as reduced-price lunch eligible
 - Students who are identified categorically eligible for free lunch (e.g., foster, migrant, homeless, runaway, etc.) from July 1 through the count date are reported as free lunch eligible

- Cognos is a system accessed through [IdM](#) or the [Data Pipeline](#) where the user can check various data points from submitted district data
- The Cognos reports can help validate the accuracy of the data that has been submitted
- Districts are encouraged to:
 - Compare year-over-year free and reduced-price lunch eligible percentages (at the district and school levels) and determine if changes are reasonable
 - Identify schools reporting 0 free lunch eligible students, or 0 reduced-price lunch students

Data Validation: CEDAR/COGNOS Reports, cont'd

- At a minimum, the following CEDAR/COGNOS reports should be reviewed prior to finalizing the Student October Snapshot:
 - District Summary of Pupil Counts
 - District Summary of Pupil FTE by County Fragment (if applicable)
 - School Summary of Pupil Counts
 - Summary of Pupil Counts for Specific Schools
 - **NEW:** Additionally Matched Direct Cert Students
- Descriptions of each of these reports can be found in the [CEDAR/COGNOS Report Guide](#)

New CEDAR/COGNOS Report: Additionally Matched Direct Cert Students

- Historically, the School Auditing Office manually checked each district's direct certification lists to monitor whether the students were reported as free (or reduced-price) lunch eligible
- If they were not reported correctly, the district data respondent received an email and a list of students to update
- Going forward, this information is now available to districts directly via the Additionally Matched Direct Cert Students report starting on or about October 10
- Districts & CSI will be expected to check this report and correct their data as needed
 - When updating any students based on this data, keep a copy of the report for audit documentation purposes
