

School Year 2017-18 IEP Review

Exceptional Student Services

In Colorado, Administrative Units (AUs) conduct self-reviews of IEPs annually. Beginning with SY2017-18, the review process will include a revised sampling process in order to ensure that students in preschool are adequately represented in the review process. This document specifies how many IEPs from each age group (i.e., preschool age, school age, and transition age) your AU will review during the current school year, and how ESSU figured such numbers.

For your AU: High Plains BOCES

Your IEP enrollment count as of December 1, 2016 was: **3531***

- ESSU asks AUs to review 3% of the Dec 1 enrollment with maximum cap of 50 and minimum cap of 10.
- ESSU asks AUs to allocate 20% of the total IEP review for transition-age review with minimum cap of 5.
- ESSU asks AUs to allocate 1% of the total IEP review for preschool-age review with no minimum or maximum cap.

To summarize, your AU will review the following number of IEPs in each age group during SY2017-18:

Table 1: Number of IEPs your AU will review

Preschool Age 3-4	School age Age 5-15	Transition Age Age 16 and above	Total number of IEPs reviewed by your AU
5	35	10	1803

Students who were enrolled as of December 1, 2016 may no longer be enrolled at your AU at the time of IEP review. In order to provide flexibility to AUs in selecting files to review, we sampled extra number of IEPs for each age group:

Table 2: Number of sampled IEPs your AU can choose from

Preschool Age 3-4	School age Age 5-15	Transition Age Age 16 and above	Total number of IEPs your AU's sample
10	70	20	100

Your AU may choose any of the sampled IEPs for each age group in Table 2 to conduct the number of reviews specified in Table 1.
