The opportunity to vote is a fundamental right of American citizenship and an important responsibility for students to learn about and understand. Students with a disability, in particular, need to be aware of their rights to equal access and assistance to become registered and cast their vote. The Colorado Academic Standards (CAS) are the expectations of what students need to know and be able to do at the end of each grade. The fourth standard of social studies is Civics. Civics teaches the complexity of the origins, structure, and functions of governments; the rights, roles and responsibilities of ethical citizenship; the importance of law; and the skills necessary to participate in all levels of government. The prepared graduate competencies are the preschool through twelfth-grade concepts and skills that all students who complete the Colorado education system must master to ensure their success in a postsecondary and workforce setting.

- Prepared Graduates in Civics: 1. Analyze and practice rights, roles, and responsibilities of citizens

### Help America Vote Act 2002

The Help America Vote Act of 2002 (HAVA) provides clarification of election procedures and promotes the right to vote. The Secretary of Health and Human Services authorizes state and local governments to make polling places, including the path of travel, entrances, exits, and voting areas of each polling facility, accessible to individuals with disabilities, including the blind and visually impaired, in a manner that provides the same opportunity for access and participation (including privacy and independence) as for other voters; and providing individuals with disabilities and others with information about the accessibility of polling places. HAVA requires each polling location have at least one voting system accessible to individuals with disabilities, including nonvisual accessibility for the blind and visually impaired.

### Colorado Election Law

Colorado has its own voting rights law that provides its citizens with protections with the following key components:

#### Who Can Vote in Colorado?
- US Citizen
- 18 years old by Election Day
- Live in Colorado for at least 22 days before Election Day

#### Who Can Register to Vote in Colorado?
- Same as above. Additionally, 16-17 year olds can “pre-register” to vote. For students who are preparing to transition from high school, registering to vote can be an important step in the transition process.

Legislation passed in Colorado in 2013 makes it easier for youth to register to vote by allowing pre-registration: Pursuant to C.R.S. 1-2-101 (2)(a)(I) – Every person who is otherwise qualified to register and is sixteen years of age or older but will not have reached eighteen years of age by the date of the next election may PREREGISTER and update his or her preregistration information through the Colorado Secretary of State’s office at [http://sos.state.co.us](http://sos.state.co.us) or at the Department of Motor Vehicles when taking driving tests. Upon reaching eighteen years of age, the person is automatically registered.
