2023 Transition Leadership Institute

Speaker: Jim Sandstrum, Research Senior Instructor

Session Title: Assistive Technology as Easy as 123: Quick and Easy Access for Your Students with Disabilities

Mr. Sandstrum M.A., Director of Industry Services for the Center for Inclusive Design and Engineering has 30 years of experience working with technology for people with disabilities, human factors, and accessible interface design for information and communication technologies. He began his career as a clinician specializing in the application of assistive technologies for individuals with cognitive, sensory, and physical disabilities with an emphasis on inclusion in educational and employment settings. He has served as principal/co-investigator for federal, state, and local grants and contracts focused on research and development of novel assistive technologies, professional development, and technical assistance to industry partners.
