### Colorado 21st Century Skills
- **Critical Thinking and Reasoning:** Thinking Deeply, Thinking Differently
- **Information Literacy:** Untangling the Web
- **Collaboration:** Working Together, Learning Together
- **Self-Direction:** Own Your Learning
- **Invention:** Creating Solutions

The Colorado Academic Standards for Visual Arts are not intended to be taught in a linear (checklist of coverage) fashion, but rather should be implemented as a cyclical creative process. Each unit within this sample blueprint intentionally includes standards from all four visual arts standards to illustrate this process-based philosophy.

### Critical Language...

Encompasses the Academic and Technical vocabulary, semantics, and discourse which are particular to and necessary for accessing a given discipline.

**EXAMPLE:** A student in Language Arts can demonstrate the ability to apply and comprehend critical language through the following statement: “Mark Twain exposes the hypocrisy of slavery through the use of satire.”

**A student can demonstrate the ability to apply and comprehend critical language through the following statement(s):**

- **Academic Vocabulary:** Critique, develop craft, engage, persist, envision, express, observe, reflect, stretch, explore, community, justify, investigate, debate, analyze, document, research, interpret, context, influence

- **Technical Vocabulary:** 8 Studio Habits of Mind, expressive features and characteristics of art, composition, craftsmanship, technical ability, cliché, photojournalism, design, symbol, images, avant-garde

- **An artist can create multiple pieces of art to intentionally communicate an idea that can be read and interpreted by a viewer or an audience.**
Classroom Context:
- K-8 public charter school that pulls students from Brighton and the surrounding area
- Students have a wide selection of electives that they may take each quarter
- Each student has two elective slots that they must fill each quarter
- Each elective slot lasts one hour
- In art, they have the option to select from three levels of:
  - Two dimensional art
  - Three dimensional art
  - Storytelling through art
    - Video production
    - Animation/board game design
    - Graphic novels
- Class sizes range from 18-30 students, but typically average around 25

Lesson Planning Rationales:
- Create an environment that helps students develop intrinsic motivation
- Provide students with narrative feedback
- Have students shift from a fixed mindset to a growth mindset
- Have students create art that has personal value and meaning
- Provide a safe work environment
- Allow students to develop their own artistic style
- Provide differentiated instruction

Lesson Implementation:

Students will participate in 13 whole group learning experiences (LE) that focus on skill building, Socratic Seminars, and class/project guidelines. Students will also participate in several self-guided workdays where the teacher supervises and guides the students through the artistic process.

Reflection:

Areas of success:

- Student engagement has increased/ classroom disruptions have decreased.
  - One student had no interest in art last year and had to be pulled from class. This year he rushes to class to use 123D Design and the 3D Printer. He works from the start of class to the end every day. He is currently creating works of art for the staff members at school.
- The majority of students are coming into class with ideas for their individualized work.
  - Tin ships powered by rubber bands and sails.
  - Tea sets including cups, plates, and a teapot.
  - Photoshop and photo manipulation
  - Backlit paper sculpture inspired by Hari and Deepti
- Students became masters of specific areas and were able to teach other students.
- Majority of students are able to problem find/solve.
- Ownership of art has increased. Students are excited to share their work with friends and family.
- I am able to connect with my students at a deeper level. I know what interests and drives their art making.
- Risk taking has increased. Students have learned and willingly retried to learn from their mistakes.
- Students have a better understanding of the artistic process and the 8 Studio Habits of Mind.
- Project uploading and reflection forms through Seesaw and Google Classroom works well.

Areas that did not work as intended:

- Several students struggled with sticking to a specific chosen theme. I allowed them to step outside of their theme, as needed.
- Clarification on what makes a collection was needed.
- The process of collecting and storing of art for the art show needs revamped. Students were eager to take their work home.
- Written narrative feedback takes longer than expected.
- Inconsistent building Wi-Fi hindered online submission of art and reflection. I need to create a process for offline submission.
- Some students still struggled with idea generation.
- New/transferred students missed boot camps and valuable information. Demos needed to be recorded and easily accessible for viewing.
- One student struggled with ambiguity and idea generation. I needed a system in place to help these students.
- Chromebooks struggle to handle apps appropriate for an art room.
- Meeting school grading requirements (two grades per week) into this system has proven difficult. I’m currently using student reflection and portfolio progress check-in as the two assignments.
- Socratic Seminar participation is low.

Possible revisions for next quarter:

- Offer a teacher directed project for those that struggle with idea generation or need concrete direction.
- Record and have easy access to boot camps.
Curriculum Development Overview
Unit Planning for Middle School Visual Arts

- Have offline mode for submitting reflections/finished work.
- Encourage Students to work on multiple projects at one time.

Student Reflection:

Students were asked- What has been your biggest success so far this quarter?
- The biggest success so far this quarter was surpassing my estimated art amount, and the Arthur Fist drawing was hard, but it was great when I finished.
- My biggest success has been learning how to shade properly.
- Getting my painting goals completed.
- I have learned how to use the pottery wheel and I have expanded my knowledge of color in my work.

Students were asked- What do you need to work on to be successful for the remainder of the quarter?
- I need to work on staying focused.
- Taking pictures of our art work and putting it in my folder.
- Have all my materials and be prepared for any of my following projects and to stick to my projects and finish them.
- Stay focused and stick to my theme.
- I need to complete a couple of my projects that I have started.

Students were asked- What can you do to improve your participation?
- I feel like when I don't have ideas, I start to not use my time as well, but usually when I do have ideas I work on it until it is done.
- I could do more "meaningful" work.
- Not messing around so much, not like I already don't work. I love sketching and drawing and I focus on my work, but sometimes I do mess around.
- Maybe when we have a group discussion I could participate in that.
Portfolio Details:

Objective: Students in all Drawing, Sculpture, and Studio classes will be able to demonstrate personal responsibility in the planning, implementation, and evaluation of works of art through the creation of a portfolio.

Portfolio Requirements:

- All work must be mounted and display ready
- All process reflections displayed:
  - Photos
  - Writing
  - Reflection sheets
  - Sketchbook/Journals
- Minimum one page artist statement that summarizes student’s:
  - Thought process though the creation of their portfolio
  - Intended purpose, meaning, or inspiration of their work
- Must present/display in class or after school at the end of each quarter
- Number of selected pieces must match total amount of pieces from student’s portfolio contract
Grading Requirements:

Student’s portfolio will be assessed using the following rubric

<td>The work appears to be direct copies of published or photographic sources or the work of other artists; even if they are of average rendering skill, there is little discernible student “voice” or individual transformation.</td>
<td>Individual works show little evidence of accomplishment, and overall the work is at a weak level.</td>
</tr>
<tr>
