

aimswebPlus Spanish Measures, Cut Scores

aimswebPlus NEW & NOW!

aimswebPlus Measures for PK—Grade 12: We provide the entire range of grade levels, PK through 12. Easily build longitudinal history for students' performance.

2023 Summer School: 65 aimswebPlus accounts successfully launched the aimswebPlus Summer School Benchmarks! Look forward to 2024 Summer School.

aimswebPlus Customer Forum, 2023 September: Plan ahead to join the popular aimswebPlus virtual Customer Forum on Sept. 13, 2023 (Second Wednesday each month, Noon, Central Time).

Cut Scores to Determine Significant Reading Deficiency, Spanish Measures 2023–2024

To identify students with a Significant Reading Deficiency (SRD), educators using the aimswebPlus Spanish measures should use the cut scores shown in the following table. For each grade and season, students scoring **below** the cut score are identified as having a Significant Reading Deficiency.

When two measures are listed in a given testing season (Kindergarten Winter and Spring, Grade 1 Fall), students scoring below the cut score on **at least one** of the measures should be identified as having a Significant Reading Deficiency. Students with these scores are at the highest risk of remaining below the 15th percentile of reading skill by spring benchmark.

Based on these scores alone, students scoring **at or above** the cut score or both cut scores should **not** be identified as having an SRD.

aimswebPlus Spanish Literacy Measures Cut Scores			
	Fall	Winter	Spring
PK* & Kindergarten *Use Kindergarten Measures	NA	SLNF: 6 SLSF: 8	SLNF: 20 SLSF: 16
Grade 1	SLNF: 14 SLSF: 11	SORF: 9	SORF: 21
Grade 2	SORF: 17	SORF: 33	SORF: 48
Grade 3	SORF: 34	SORF: 50	SORF: 54

SLNF: Spanish Letter Naming Fluency
 SLSF: Spanish Letter Sound Fluency
 SORF: Spanish Oral Reading Fluency

When evaluating the individual needs of students with and without an SRD, educators should also consider observations of reading performance from additional aimswebPlus measures or from classroom activities.
