If this program is intervention or supplemental which component(s) of reading are addressed: <input checked="" type="checkbox"/> Phonemic Awareness <input checked="" type="checkbox"/> Phonics <input type="checkbox"/> Fluency <input checked="" type="checkbox"/> Vocabulary <input checked="" type="checkbox"/> Comprehension
Grade Level: K-6
Summary of the program: – <i>i-Ready Instruction</i> works with i-Ready Diagnostic, which is approved as a READ Act interim, diagnostic and summative assessment. Because of its differentiated instruction, <i>i-Ready Instruction</i> is especially effective with students who are struggling to reach grade level. <i>i-Ready Instruction</i> provides targeted instruction based on Common Core reading domains. Based on students’ results on i-Ready Diagnostic—a READ Act approved assessment—students are assigned an individualized instructional path within <i>i-Ready Instruction</i> , and teachers are provided a wealth of materials to supplement online instruction. <i>i-Ready Instruction’s</i> foundational lessons feature cross-curricular content in reading and follow a consistent structure: <ol style="list-style-type: none">1. Instruction: Students learn a skill through explicit instruction—systematic, precise, and engaging.2. Guided Practice: As students are learning a skill, they practice what they have learned and receive support and corrective feedback to reinforce understanding.3. Embedded Progress Monitoring: Students are assessed at the end of each lesson, reducing or eliminating the need for teacher-initiated weekly progress monitoring. Additionally, we built i-Ready Instruction by employing best practices for instruction, including: <ul style="list-style-type: none">• Highly interactive lessons to keep students focused and engaged in their own learning• Themed lessons, designed to draw students into a story and give them a purpose for learning a particular concept• Modern, diverse, appealing, and easy to relate to characters• Lessons that contain games that become the basis of learning a new concept . Teachers have the ability to modify, monitor and view a student’s path of instruction if needed.
