Unit Title: Nutrition Castaways

INSTRUCTIONAL UNIT AUTHORS

Mesa County Valley School District

Sandy Thies
Ayme Zortman
Nick Moseley
Lisa David

This unit was authored by a team of Colorado educators. The template provided one example of unit design that enabled teacher-authors to organize possible learning experiences, resources, differentiation, and assessments. The unit is intended to support teachers, schools, and districts as they make their own local decisions around the best instructional plans and practices for all students.

DATE POSTED: JANUARY 2017
## Colorado 21st Century Skills

### Critical Thinking and Reasoning:
- Thinking Deeply, Thinking Differently

### Information Literacy:
- Untangling the Web

### Collaboration:
- Working Together, Learning Together

### Self-Direction:
- Own Your Learning

### Invention:
- Creating Solutions

## Integrated Curriculum Design:
This interdisciplinary approach matches basic concepts in science and social studies – interdependence, region, environment, adaptation - forming overlaps in instruction of certain topics in an authentic integrated model.

## Content Area

</tr>
</tbody>
</table>

**Inquiry Questions**

- How do food choices affect the brain? (CH09-GR.4-S.2-GLE.2-EO.a;IQ.4) (CH09-GR.4-S.2-GLE.3-EO.a,b)
- Why do we sometimes eat even when we’re not hungry? (CH09-GR.4-S.2-GLE.2-EO.b;IQ.2)
- How would you go about improving your physical fitness? (PE09-GR.4-S.2-GLE.3-EO.a,b; IQ.4; RA.1; N.2)
- What's the difference between the overload principle and "no pain, no gain?" (PE09-GR.4-S.2-GLE.1-EO.a,d; IQ.1; RA.5; N.1,3)
- Do different types of physical activities produce different results? (PE09-GR.4-S.2-GLE.1-EO.b,d; IQ.2; RA.4,5)
Body signals tell people when they are hungry or full and helps one to eat appropriate portion sizes to maintain a healthy weight and overall sense of wellness. (CH09-GR.4-S.2-GLE.1-EO.c) (CH09-GR.4-S.2-GLE.2-EO.b; RA.2)

What are examples of body signals? (CH09-GR.4-S.2-GLE.1-EO.c)

How can you tell if a portion size is appropriate? (CH09-GR.4-S.2-GLE.1-EO.c; IQ.4)

Why do most people feel better after they eat? (CH09-GR.4-S.2-GLE.2-EO.b; IQ.1)

Why are certain foods eaten in larger amounts even though those foods may not provide proper nutrients?

Documentation and comparison of personal performance results provides streamlined analysis of personal growth to promote lifelong fitness. (PE09-GR.4-S.2-GLE.3-EO.a,b; IQ.4; RA.1; N.2)

What is the F.I.T.T principle? (PE09-GR.4-S.2-GLE.3-EO.a,b; IQ.4; RA.1; N.2)

How does physical fitness impact successful participation of a variety of activities?

Why would you want to change the results of your physical assessment?

Critical Content:
My students will Know...

- Goal setting skills (CH09-GR.4-S.2-GLE.1-EO.a)
- A variety of healthy foods (CH09-GR.4-S.2-GLE.1-EO.b)
- Appropriate portion sizes (CH09-GR.4-S.2-GLE.1-EO.c)
- Body signals (CH09-GR.4-S.2-GLE.1-EO.c) (CH09-GR.4-S.2-GLE.2-EO.b)
- Physical activity effects (CH09-GR.4-S.2-GLE.2-EO.a; IQ.3)
- Activities for various components of fitness (PE09-GR.4-S.2-GLE.1-EO.c)
- Personal performance fitness goals (PE09-GR.4-S.2-GLE.3-EO.b)
- Health related components of fitness (PE09-GR.4-S.2-GLE.1-EO.b) (PE09-GR.4-S.2-GLE.3-.a) (PE09-GR.4-S.2-GLE.2-EO.b)
- The F.I.T.T. principle. (PE09-GR.4-S.2-GLE.1-EO.a)

Key Skills:
My students will be able to (Do)...

- Set goals for healthy eating (CH09-GR.4-S.2-GLE.1-EO.a)
- Explain the importance of healthy foods (CH09-GR.4-S.2-GLE.1-EO.b)
- Identify appropriate sizes of food (CH09-GR.4-S.2-GLE.1-EO.c)
- Recognize body signals for the need to eat (CH09-GR.4-S.2-GLE.2-EO.b)
- Demonstrate an activity for each component of fitness. (PE09-GR.4-S.2-GLE.1-EO.c)
- Record heart rate and water intake. (PE09-GR.4-S.2-GLE.1-EO.b) (PE09-GR.4-S.2-GLE.2-EO.a)
- How to compare personal performance fitness goals. (PE09-GR.4-S.2-GLE.3-EO.b)
- Identify the health related component of fitness and their importance to overall health. (PE09-GR.4-S.2-GLE.1-EO.b) (PE09-GR.4-S.2-GLE.3-.a) (PE09-GR.4-S.2-GLE.2-EO.b)
- Explain the F.I.T.T. principle. (PE09-GR.4-S.2-GLE.1-EO.a)
**Critical Language:** includes the Academic and Technical vocabulary, semantics, and discourse which are particular to and necessary for accessing a given discipline.

**EXAMPLE:** A student in Language Arts can demonstrate the ability to apply and comprehend critical language through the following statement: “Mark Twain exposes the hypocrisy of slavery through the use of satire.”

| A student in __________ can demonstrate the ability to apply and comprehend critical language through the following statement(s): | I will be able to identify a variety of food choices and develop healthy eating habits that will positively improve my physical activity and overall health.  

*Improvement of personal fitness is developed through an understanding of health related fitness concepts that will promote lifelong wellness.* |

**Academic Vocabulary:** Choices, Goals, Habits, Variety, Responsibility, Signals, Health, Wellness, Value, Content, Measurement, Comparison, Physical Activity, Fitness, Demonstrate

| GREEN | Active involvement in developmentally appropriate knowledge production results in work that fuses arts and non-arts disciplines. |
| BLUE | Equal and significant attention is given to arts and non-arts techniques, skills, or concepts. Authentic experiences and media are used. |
| PINK | Work combines some techniques, skills, and concepts from arts and non-arts disciplines, but proficiency is uneven. |
| YELLOW | Peripheral affective goals are met through the work. Learning is demonstrated in one discipline or the other, but not both. |

**Unit Description:**

This unit implements a variety of learning experiences that provides students with opportunities to develop their understanding of nutrition, calories, healthy lifestyle choices and the F.I.T.T. (Frequency, Intensity, Time and Type of exercise) Principle. The concepts of choices, lifestyle habits, body signals, health, wellness, and the identification of nutritional value are the main focus of this integrated comprehensive health and physical education unit. An active game called “Nutrition Island” requires students to utilize their nutritional knowledge and provides the culminating assessment for this unit.

**Unit Generalizations**

Healthy eating habits and food choices with nutritional content, value and appropriate calories. may impact a person’s quality of movement, physical activity and overall health and wellness.

**Supporting Generalizations:**

- Body signals tell people when they are hungry or full and helps one to eat appropriate portion sizes to maintain a healthy weight and overall sense of wellness.
• Documentation and analysis of factors that influence fitness will establish an understanding of how the body functions and help one to develop goals for healthy eating.
• Documentation and comparison of personal performance results provides streamlined analysis of personal growth to promote lifelong fitness.

Considerations:
Healthy eating habits, food choices and understanding the nutritional content of foods, may impact a person’s quality of movement, physical activity and overall health and wellness. The focusing lens of this 4th grade unit is “How nutrition and exercise impact health and wellness,” which then encompasses the major concepts (e.g. health, wellness, fitness and nutrition) and allows students the opportunity to engage in activities that reinforce positive healthy behaviors.

Performance Assessment: The capstone/summative assessment for this unit.

Integration Continuum Color: GREEN BLUE PINK YELLOW
Green: Active involvement in developmentally appropriate knowledge production results in work that fuses both disciplines.

Claims:
(Key generalization(s) to be mastered and demonstrated through the capstone assessment.)
Healthy eating habits and food choices with nutritional content, value and appropriate calories may impact a person’s quality of movement, physical activity and overall health and wellness.

Stimulus Material:
(Engaging scenario that includes role, audience, goal/outcome and explicitly connects the key generalization)
You and 2-3 of your fellow peers have become stranded as “Nutrition Castaways” on an island with no food. Your mission is to swim (e.g. on their stomachs, students will use their arms and legs to move on a scooter) to Nutrition Island and collect various food items that will create healthy meals (e.g. breakfast, lunch, dinner). Sharks will use the same scooter skill while tagging castaways who are swimming to Nutrition Island. All students will run one lap around the gym as an exercise component.

Product/Evidence:
(Expected product from students)
Students will work in peer groups to create a healthy meal (e.g. breakfast, lunch, dinner). Students will demonstrate appropriate portion size, calories, food groups, daily serving allowances to create their meal. Each group will peer assess their classmates using a rubric created by the teacher for evaluation purposes.
https://www.mc.edu/faculty/index.php/download_file/7796/7/ (Rubric developer)
https://drive.google.com/open?id=1I1ahsktoQyANAYsul3qQ16oJLOTfHMI-So3THxsDM5DM (Nutrition Island lesson plan)

Differentiation:
(Multiple modes for student expression)
Students incapable in the physical portion of the activity may still be included in a group by allowing them to help build their healthy meals.

Texts for independent reading or for class read aloud to support the content

## Skills:
- health
- wellness
- exercise
- fitness

## Prior Knowledge and Experiences
These ongoing learning experiences build upon a presumed (student) working knowledge of the concepts such as choices, health, wellness, value, comparison, and measurement. However, it is understood that not all 4th graders have the same prior life experiences when it comes to these concepts.

## Learning Experience #1
The teacher may review daily serving requirements and the food categories on the nutrition labels so students can analyze components of healthy verses unhealthy food.

### Integration Continuum Color: GREEN BLUE PINK YELLOW
Pink: Work combines some techniques, skills, and concepts from both disciplines, but proficiency is uneven.

### Generalization Connection(s):
Healthy eating habits and food choices with nutritional content, value and appropriate calories may impact a person’s quality of movement, physical activity and overall health and wellness.

### Teacher Resources:
- https://drive.google.com/open?id=1baJj833MOPAHLiwu5_VNKi-Gh_nDSJZJPFa7agCeSyE (Food Label worksheet)
- https://drive.google.com/open?id=1GV-F6uw1zQgpWhY8izX-ni4q8XYIleLEZkdWV1zs6oE (e.g. Food Label picture to hang on wall)
- http://www.choosemyplate.gov/multilanguage-spanish (e.g. Food pictures, nutrition information)

### Student Resources:
- http://www.learnnc.org/lp/editions/nutrition/6425 (Blank samples of food labels)
- http://www.choosemyplate.gov/multilanguage-spanish (e.g. Food pictures, nutrition information)

### Assessment:
Students will work in partners to complete their Food Label Scavenger Hunt Cards.

### Differentiation:
**Access** (Resources and/or Process)
### (Multiple means for students to access content and multiple modes for student to express understanding.)

<table>
<thead>
<tr>
<th>The teacher may:</th>
<th>Students may:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Provide adaptive learning materials (e.g. spanish materials)</td>
<td>• Work individually</td>
</tr>
</tbody>
</table>

### Extensions for depth and complexity:

<table>
<thead>
<tr>
<th>N/A</th>
<th>Students may:</th>
</tr>
</thead>
</table>
|     | • Student groups may share their findings with another group  
|     | • Students may compare food labels and determine which foods are healthy choices |

### Critical Content:

| Goal setting skills  
| A variety of healthy foods  
| Appropriate portion sizes |

### Key Skills:

| Set goals for healthy eating  
| Explain the importance of healthy foods  
| Identify appropriate sizes of food  
| Recognize body signals for the need to eat |

### Critical Language:

Choices, Health, Wellness, Value, Content, Comparison, Measurement, Identification, Description, Documentation, Recognition, Analysis

---

**Learning Experience # 2**

The teacher may review the different food categories and discuss the components of “My Plate” so students can determine what types of food they should be eating to stay healthy.

**Integration Continuum Color:** GREEN BLUE PINK YELLOW

**Green:** Active involvement in developmentally appropriate knowledge production results in work that fuses both disciplines.

**Generalization Connection(s):**

Healthy eating habits and food choices with nutritional content, value and appropriate calories may impact a person’s quality of movement, physical activity and overall health and wellness.

**Teacher Resources:**

https://drive.google.com/file/d/0B70t5SCFheAQBmsOM1NtSNmSFE/view (Jessica Shawley’s Nutrition Lessons)  
http://www.choosemyplate.gov/10-tips-nutrition-education-series (My Plate 10 Tips for Nutrition)  
https://drive.google.com/drive/u/0/folders/0B7PY-mRe9FjtdFBwc0ZNzdBcmc (My Plate: Make Your Plate Great)  
https://drive.google.com/drive/u/0/folders/0B7PY-mRe9FjtdVjN0MEV0iVvZjQ (Spinners for Lesson)

**Student Resources:**

http://www.choosemyplate.gov/10-tips-nutrition-education-series (My Plate 10 Tips for Nutrition)  
https://drive.google.com/drive/u/0/folders/0B7PY-mRe9FjtdFBwc0ZNzdBcmc (My Plate: Make Your Plate Great)  
https://drive.google.com/file/d/0B70t5SCFheAQBmsOM1NtSNmSFE/view (Jessica Shawley’s Nutrition Lessons)  
https://drive.google.com/drive/u/0/folders/0B7PY-mRe9FjtdVjN0MEV0iVvZjQ (Spinners for Lesson)
Assessment: Students will work in teams to complete physical activities to build a balanced plate and reflect on nutrition. Teams will each choose one cashier that will be in charge of bucks and going to the bank. All players will earn bucks by going to a spinner and choosing an exercise, then completing 10 reps of the exercise. Keep repeating the process until the team has 10 bucks. When the team has 10 bucks, the Cashier cashes in the 10 bucks for one piece of food. Take the food back to their teams “plate” and repeat the process until they have made a healthy meal. Student’s teams will discuss if they created a healthy meal? Why or why not?

Differentiation: (Multiple means for students to access content and multiple modes for student to express understanding.)

Access (Resources and/or Process)
The teacher may:
- Provide adapted learning resources.

Expression (Products and/or Performance)
Students may:
- Play individually.

Extensions for depth and complexity:

The teacher may:
- Provide a specific exercise focus for each station (strength, agility, muscular endurance, and cardiovascular)
- Provide an overall theme to ALL the cones for a specific type of workout.
- Vary the repetitions and intensity reinforcing the FITT principle simultaneously. (e.g. set pedometer activity time, set MVPA goals, and take heart rate to analyze pulse at select times)

Students may:
- Build their own station activities for other students to try out
- Students may write in the name of the exercise and/or the repetitions completed
- Students may write in the muscle(s) used for the exercise
- Students may write in the name of a food that fits the food group

Critical Content:
- Goal setting skills
- A variety of healthy foods

Key Skills:
- Set goals for healthy eating.
- Explain the importance of healthy foods

Critical Language:
- Choices, Goals, Habits, Variety, Responsibility, Health, Wellness, Value, Content, Demonstration, Comparison, Explanation, Measurement, Identification, Description, Recognition

Learning Experience # 3

The teacher may pose the question “Do you know what it means when I say, calories in versus calories out?” so students can synthesize the relationships between caloric intake and calorie expenditure through exercise.

Integration Continuum Color: GREEN BLUE PINK YELLOW
Green: Active involvement in developmentally appropriate knowledge production results in work that fuses both disciplines.

Generalization Connection(s):
Documentation and analysis of factors that influence fitness will establish an understanding of how the body functions and help one to develop goals for healthy eating.
**Teacher Resources:**

- [http://www.pbslearningmedia.org/resource/b0209b03-420b-4948-b2a6-d6a58196b60c/b0209b03-420b-4948-b2a6-d6a58196b60c](http://www.pbslearningmedia.org/resource/b0209b03-420b-4948-b2a6-d6a58196b60c/b0209b03-420b-4948-b2a6-d6a58196b60c) (Video on calories and healthy vs. unhealthy foods)
- [https://www.youtube.com/watch?v=uvahFySXhLs](https://www.youtube.com/watch?v=uvahFySXhLs) Kid video about calories (e.g. Carbohydrates, Proteins, Fats)

**Student Resources:**

- [https://www.getfit.tn.gov/kids/calculator.aspx](https://www.getfit.tn.gov/kids/calculator.aspx) (Kid calories burned calculator)

**Assessment:**

M&M activity- students will wear a pedometer and measure their steps for the activity. At the end of the lesson student will convert steps to calories burned and will receive M&M’s that equal their calories burned. The lesson is done in free rotating stations. The stations will be a variety of activities so students can compare and make choices according to which activities will increase their step count. (e.g. step station, yoga station, jump rope station)

-[https://docs.google.com/document/d/1BNsjVimqd_djC8FilqqcvopQHmnZQ9CCNuCLrKgrnGk/edit?usp=sharing](https://docs.google.com/document/d/1BNsjVimqd_djC8FilqqcvopQHmnZQ9CCNuCLrKgrnGk/edit?usp=sharing) (M&M lesson plan)

**Differentiation:**

(Multiple means for students to access content and multiple modes for student to express understanding.)

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>The teacher may:</td>
<td>Students may:</td>
</tr>
<tr>
<td>• Need to place the students pedometer on a different body part in order for them to get their steps</td>
<td>• Share a connection they have relating to calories in, calories out</td>
</tr>
</tbody>
</table>

**Extensions for depth and complexity:**

N/A

- Students may:
  - Build their own station activities for other student to try out.

**Critical Content:**

- Goal setting skills
- Physical activity effects
- Activities for various components of fitness
- Personal performance fitness goals
- Health related components of fitness
- The F.I.T.T. principle

**Key Skills:**

- Set goals for healthy eating
- Identify appropriate sizes of food
- Recognize body signals for the need to eat
- Demonstrate an activity for each component of fitness
- Record heart rate and water intake
- How to compare personal performance fitness goals
• Identify the health related component of fitness and their importance to overall health.
• Explain the F.I.T.T. principle

**Critical Language:**
Choices, Responsibility, Health, Wellness, Content, Measurement, Identification, Description, Documentation, Assessing, Recognition, Analysis

---

**Learning Experience # 4**

The teacher may show a video that analyzes a nutritional food label so students can draw conclusions about the important components of a nutrition food label.

**Integration Continuum Color:**
GREEN  BLUE  PINK  YELLOW

**Green:** Active involvement in developmentally appropriate knowledge production results in work that fuses both disciplines.

**Generalization Connection(s):**
Body signals tell people when they are hungry or full and helps one to eat appropriate portion sizes to maintain a healthy weight and overall sense of wellness.

**Teacher Resources:**

**Student Resources:**

**Assessment:**
Students will be placed into relay teams to complete the activity called Label Able. This activity requires students to use relay style to collect food nutrition labels and use the information on the card to answer questions on their team worksheet.

https://docs.google.com/document/d/1ZkdNZ-7Py0l6XoADihuhvFQusTOIKNAKFobHfHn9DHo/edit?usp=sharing (Label Able Lesson Plan)
https://drive.google.com/file/d/0B0AbAVDGW12tNUQ2d3BWampZNDQ/view?usp=sharing (Label Able Nutrition Cards)

**Differentiation:**
(Multiple means for students to access content and multiple modes for student to express understanding.)

**Access (Resources and/or Process):**
The teacher may:
• Provide adaptive learning materials (e.g. Braille worksheets and nutrition labels)

**Expression (Products and/or Performance):**
Students may:
• Work individually

**Extensions for depth and complexity:**
The teacher may:
• will provide a variety of food labels for students to build a meal (e.g. breakfast, lunch, dinner)
• Using the food labels collected students will add the calories and get a total calorie count for the meal.
• Students will determine if they have a healthy meal based on the nutritional value of each food.

Students may:
• Create their own questions for other groups
• Complete a second worksheet
**Learning Experience # 5**

The teacher may show examples of various activities (e.g. jump rope, sit and reach, sit ups, push-ups,) so students can analyze the different components of fitness in order to make connections to the F.I.T.T Principle. (e.g. muscular strength, muscular endurance, cardiovascular endurance, flexibility)

**Integration Continuum Color:** GREEN  BLUE  PINK  YELLOW  
Green: Active involvement in developmentally appropriate knowledge production results in work that fuses both disciplines.

**Generalization Connection(s):**  
Documentation and comparison of personal performance results provides streamlined analysis of personal growth to promote lifelong fitness.

**Teacher Resources:**

**Assessment:**  
Students will be put in groups at various stations. At each station students will do various activities (e.g. sit and reach, jump rope, sit ups, step ups, and push-ups) that use the components of fitness. Students will record scores from each station and fill out the worksheet that utilizes the F.I.T.T Principle so students can continue their workout routine at home. At the end of the class students will take a Plickers assessment to show they understand the four components of fitness.
