

Mentor Grant Program

Round 2 Grant Recipients 2023-2024

COLORADO
Department of Education

About the Program

The COVID-19 pandemic has impacted education across our country. Like the learning disruption for students, beginning teachers have also been impacted by inconsistencies in learning environments and meaningful feedback. Some preservice educators were unable to have adequate clinical residency experiences because of quarantine rules or impacts. New to the profession (probationary) teachers may have been completing their student teaching experience in the spring of 2020 when it was cut short by the initial COVID closings. Then those same preservice teachers were hired for the first time in the 2020-21 school year and did not have access to standard support for new educators.

To ensure the pipeline of educators stays stable and continues to grow, strong mentorship and coaching support must be put in place. This grant uses \$2.9 million in ESSER III funds to serve as an opportunity for districts to build, enhance and strengthen mentoring programs to ensure beginning teachers have all the support necessary to build instructional capacity and effectiveness in the classroom.
