

Approved Early Access Administrative Units

Office of Gifted Education

Early Access

Early access means early entrance to kindergarten or first grade for highly advanced gifted children under age six. Children for early access are exceptionally precocious and ready for school earlier than their same-age peers. Academic achievement, reasoning ability, performance and motivation are keen compared to other gifted children.

“Highly advanced gifted child” means a gifted child whose body of evidence demonstrates a profile of exceptional ability or potential compared to same-age gifted children. To meet the needs of highly advanced development, early access to educational services may be considered as a special provision.

The administrative unit at the school district, Board of Cooperative Educational Services (BOCES), or the state Charter School Institute **must** file a written early access addendum to the AU’s Comprehensive Program Plan in order to receive per-pupil funding for an early access student. Per-pupil funding shall only be provided to an AU if an Early Access Addendum has been **approved** by the Colorado Department of Education, the student meets all criterion for early access admittance, and an **Advanced Learning Plan** is developed by September 30.

Contact the AU Gifted Education Director/Coordinator for more information about the processes and procedures for an Early Access application.
