

Performing Arts Performance Assessment

The **Performing Arts Performance Assessment** will consist of three parts:

- I. Prepared Piece
- II. Improvisational Piece
- III. Interview

Performance assessment, as defined by the Colorado Department of Education (CDE), is “an assessment based on **observation** and **judgment**. It has two parts: the **task** and the **criteria** for judging quality. Students complete a task, which is evaluated by judging the level of quality using a rubric.”

A performance assessment is evaluated by experts, often referred to as **adjudicators**. A juried or adjudicated performance involves bringing together experts in the field to evaluate a student’s presentation and/or portfolio. Adjudicators use research-based **rubrics** to evaluate the performance assessment. The Performance Assessment Rubrics have been developed by the Colorado Department of Education (CDE) to support identification in the arts. Data from the rubrics are used by the district/school to build a student’s body of evidence for possible talent pool designation or gifted identification. Rubrics are not confidential and are made available to the student to understand the criteria used for scoring a performance. The improvisational and interview components of the assessment process are **confidential** and are not shared with the student until the assessment day. The assessment document completed by an adjudicator is considered a confidential protocol like a cognitive or state assessment. It is not shared with the student, parent, teacher or community member nor placed in the student’s cumulative record. Data results collected as part of the assessment process **are** shared with the student and parent and recorded in the student’s profile described in a body of evidence.

The performance assessment rubric contains the following rating scale:
