

Student Wellness Grant

Health Education Services Office

OVERVIEW

The Colorado General Assembly passed House Bill 1224 in spring 2008, authorizing funding for local Student Wellness Programs and acknowledging that for students to reach their full potential, school communities need to address comprehensive issues of student wellness, including but not limited to addressing the physical, mental, emotional, and social needs of students.

This is a three-year grant with approximately \$488,000 available for distribution annually. Grantees are in year two of this grant cycle.

PURPOSE

The purpose of the grant is the implementation of [Whole School, Whole Child, Whole Community](#) approaches to improve the health and wellness of students to reduce barriers to learning and health.

Grantees work at the school and district level to coordinate and align programs, policies, and environmental changes to systematically identify and address barriers related to learning and health. The program should include coordination with comprehensive health education programs.

DEFINITION OF STUDENT WELLNESS PROGRAMS

A local Student Wellness Program is adopted by a local education provider and is coordinated across components and designed to provide services to students in one or more of the following component areas:

- Health Education
- Physical Education and Physical Activity
- Nutrition Environment and Services
- Health Services
- Counseling, Psychological and Social Services
- Social and Emotional Climate
- Physical Environment
- Family Engagement
- Community Involvement
