* A school district may not claim meals and snacks under the CACFP and NSLP/SBP for the same children over the same hours of the day. If a district offers an early childhood program (preschool or child care) and would like to serve those children snacks or meals through a federal child nutrition program, the district must choose to enroll the site through CACFP or through NSLP/SBP. The children cannot participate in both programs at the same time. For example, if a child is enrolled in an early childhood program and participates in NSLP/SBP, that child cannot also be enrolled in CACFP to receive an AM snack. Some scenarios of allowable vs. not allowable include:

Allowable:

A preschool program operates and has instructional time from 8:00 a.m. to 11:00 a.m. for one group of students and from 11:30 a.m. to 3:00 p.m. for another group of students and participates in the CACFP. The preschool program may offer breakfast and snack to the group of students that are there from 8:00 a.m. to 11:00 a.m. and lunch and snack to the group of students there from 11:30 am to 3:00pm.

OR
