This report was prepared by The Colorado Department of Higher Education (DHE) and the Colorado Department of Education (CDE) and was submitted to the Education Committees of the Senate and House of Representatives pursuant to 22-35-112 C.R.S. For more information contact:

Brenda Bautsch, Research and Policy Analyst at the Colorado Department of Higher Education, at 303-866-2030 or by email at [brenda.bautsch@dhe.state.co.us](mailto:brenda.bautsch@dhe.state.co.us)

Michelle Camacho Liu, Office of Postsecondary Readiness at the Colorado Department of Education, at 303-866-6596 or by email at [liu\\_m@cde.state.co.us](mailto:liu_m@cde.state.co.us).

## Introduction

---

Creating more and better pathways from high school to higher education is essential if we are to reach our state goals of increasing college completion rates and decreasing high school dropout rates. Dual enrollment is one strategy states across the country are using to cultivate seamless P-20 pathways. Dual enrollment programs provide high school students the opportunity to enroll in college-level courses and earn credit at no cost to them for tuition. These programs help students develop the knowledge, skills and abilities necessary to be postsecondary and workforce ready. Research indicates that dual enrollment students are more likely to enroll in college than their peers and are less likely to need remedial education once in college.<sup>1</sup>

### *Data and Definitions*

Pursuant to statute (C.R.S. §22-35-112), the Colorado Department of Higher Education (DHE) and the Colorado Department of Education (CDE) have prepared this report.<sup>2</sup> The data in this report provide a descriptive summary of students in Colorado's public education system who participated in dual enrollment programs in the 2012-2013 academic year.

This report summarizes:

1. Data on the number of local education providers and institutions of higher education that have entered into cooperative agreements;
2. Number of public school students participating in Concurrent Enrollment, ASCENT and other dual enrollment programs;
3. Demographic information about students that participated in Concurrent Enrollment;
4. Data on the total number and percentage of students that passed Concurrent Enrollment courses during the 2012-2013 school year;
5. Outcomes analyses exploring the benefits of dual enrollment in regard to postsecondary enrollment, first-year college success and need for remedial education.

“Dual enrollment” is used in this report to refer to the broad array of programs available to high school students that allow them to take college-level courses for credit. In this report, the capitalized version of “Concurrent Enrollment” refers only to the statewide programs created by House Bill 09-1319 and detailed in the Concurrent Enrollment Programs Act (C.R.S. §22-35-101 et seq.).

---

<sup>1</sup> Colorado Department of Higher Education internal research. See page 22 for more details.

<sup>2</sup> See *Attachment A* for an overview of the reporting requirements.

The Concurrent Enrollment Programs Act defines Concurrent Enrollment as the “simultaneous enrollment of a qualified student in a local education provider and in one or more postsecondary courses, which may include an academic or career and technical education course, at an institution of higher education” (C.R.S. §22-35-103).

The data reported here are collected through the DHE Student Unit Record Data System (SURDS), unless otherwise noted. Other than in the first section, “Summary of Dual Enrollment Programs,” this report does not include data on Postsecondary Enrollment Options (PSEO), Fasttrack, or other dual programs not described in House Bill 09-1319 as these dual enrollment programs were phased out in July of 2012 or are institution specific.

## Highlights

---

- Approximately 26,900 students participated in dual enrollment programs of any type in the 2012-2013 academic year. This represents about 22 percent of all 11<sup>th</sup> and 12<sup>th</sup> graders in public high schools in Colorado.
- Overall, participation in dual enrollment programs increased by about 12 percent between 2011-2012 and 2012-2013.
- The Concurrent Enrollment program continues to see sustained increases in participation. During the 2012-13 school year, 3,945 more students participated in the program than in the prior year.
- Among Colorado's public high schools, Cherokee Trail High School, from Cherry Creek School District, had the highest number of students participating in Concurrent Enrollment for the third year in a row.
- Denver Public Schools had the most students participating in Concurrent Enrollment out of all Colorado school districts.
- Slightly more females participated in Concurrent Enrollment compared to males.
- The number of Hispanics students—Colorado's largest minority group—participating in Concurrent Enrollment increased by 37.3 percent from 2011-12 to 2012-13.
- Since the beginning of Concurrent Enrollment in 2009, the program has seen significant diversification, and the composition of the Concurrent Enrollment program now closely resembles the overall composition of public high schools.
- In 2012-13, Colorado high school students attempted a total of 143,939 Concurrent Enrollment credit hours.
- The average number of credit hours attempted by all participating Concurrent Enrollment students was 7.9, with an average of 7.2 hours passed.
- A large majority of students—84 percent—passed all of their Concurrent Enrollment courses in 2012-13. This is an improvement from the previous year's complete pass rate of 78 percent.
- Participation in remedial Concurrent Enrollment courses is approximately 6 percent of the Concurrent Enrollment total.
- 775 students in Concurrent Enrollment or ASCENT programs earned some type of postsecondary credential in 2012-13. This is a 60 percent increase over last year's credential completion total.
- Students who participated in dual enrollment programs in high school had higher first-year credit hour accumulation, grade point averages, and retention rates in college.
- Participation in dual enrollment is associated with a 23 percent increase in the likelihood of enrolling in college and a 10 percent decrease in the need for remediation, holding gender, income, race/ethnicity, and ACT scores constant.

## Summary of Dual Enrollment Programs

Table 1, Table 2 and Figure 1 provide a summary of the different dual enrollment programs in the state during the 2011-12 and 2012-13 academic years. The phasing out of Fasttrack and PSEO in 2012 is reflected in the decreased numbers in 2011-12. There were no students participating in those programs in the 2012-13 school year due to the fact that these programs were discontinued as of July 2012.

During the academic year 2012-13, 26,935 high school students participated in Concurrent Enrollment, ASCENT or other dual enrollment programs, representing about 22 percent of all 11<sup>th</sup> and 12<sup>th</sup> graders. This number was an increase of almost 3,000 students from 2011-12, an 11.9 percent increase in one year.

*One in five 11<sup>th</sup> and 12<sup>th</sup> graders in public high schools participates in dual enrollment*

The highest area of participation growth in 2012-13 was in the ASCENT program, which saw an increase of nearly 40 percent. The largest number of students is in the Concurrent Enrollment program—as defined in House Bill 09-1319—with 66 percent of dual enrollment students participating in the program (see Figure 1). The "Other High School Dual Enrollment Programs" category includes individually, institutionally designed dual enrollment programs.

**Table 1: High School Dual Enrollment Summary<sup>3</sup>**

Program Type	Unduplicated Student Count Academic Year 2010-2011	Unduplicated Student Count Academic Year 2011-2012	Unduplicated Student Count Academic Year 2012-2013	Change from 2011-12 to 2012-13
Concurrent Enrollment	9,349	13,928	17,873	+28.3%
ASCENT Program	99	208	291	+39.9%
PSEO	5,185	1,935	0*	*
Fasttrack	192	10	0*	*
Other High School Dual Enrollment Programs	5,961	7,998	8,771	+9.7%
<b>Total</b>	<b>20,786</b>	<b>24,079</b>	<b>26,935</b>	<b>+11.9%</b>

Note: Concurrent Enrollment program numbers include students at early college high schools. ASCENT program data are from CDE's October Count data. \*PSEO and Fasttrack are now phased out.

Table 2 displays enrollment in dual programs by institution of higher education. The two-year institutions that served the most students in the 2012-13 academic year were the Community College of Aurora, with 3,040 students, followed by Arapahoe Community College, with 2,990 students. Of the four-year institutions offering dual enrollment programs, the University of

<sup>3</sup> Data throughout the report are from the Department of Higher Education's Student Unit Record Data (SURDS), unless otherwise noted.

Colorado Denver served 4,418 students primarily through their institutionally-developed dual enrollment program, followed by Colorado Mesa University, which served 1,155 students mainly through the state’s Concurrent Enrollment and ASCENT programs.

**Figure 1. 2012-2013 High School Dual Enrollment Summary, by Program**

**Table 2: 2012-2013 Dual Enrollment Participation, by Higher Education Institution**

Public Institution of Higher Education	Concurrent Enrollment (HB09-1319)	ASCENT	Other HS Dual Enrollment Program	Total All Programs
<b>Two-Year Institutions</b>				
Aims Community College	677	13	59	749
Arapahoe Community College	2,747	5	238	2,990
Colorado Mountain College	677	-	581	1,258
Colorado Northwestern Community College	408	1	1	410
Community College of Aurora	2,956	75	9	3,040
Community College of Denver	1,512	24	48	1,584
Front Range Community College	2,093	30	111	2,234
Lamar Community College	393	14	15	422
Morgan Community College	747	3	-	750
Northeastern Junior College	420	-	-	420
Otero Junior College	514	-	2	516
Pikes Peak Community College	1,183	15	659	1,857
Pueblo Community College	1,144	5	8	1,157
Red Rocks Community College	1,091	12	106	1,209
Trinidad State Junior College	390	1	13	404
<b>Two-Year Total</b>	<b>16,952</b>	<b>198</b>	<b>1,850</b>	<b>19,000</b>

<b>Public Institution</b>	<b>Concurrent Enrollment (HB09-1319)</b>	<b>ASCENT</b>	<b>Other High School Concurrent Program</b>	<b>Total All Programs</b>
<b>Four-Year Institutions</b>				
Adams State University	33	-	60	93
Colorado Mesa University	956	19	180	1,155
Colorado School of Mines	-	-	15	15
Colorado State University	8	-	1	9

Fort Lewis College	47	-	4	51
Metro State University of Denver	6	3	7	16
University of Colorado Boulder	30	-	36	66
University of Colorado Colorado Springs	32	-	817	849
University of Colorado Denver	5	-	4,413	4,418
University of Northern Colorado	12	-	446	458
Western State Colorado University	117	-	1	118
<b>Four-Year Total</b>	<b>1,279</b>	<b>22</b>	<b>6,600</b>	<b>7,901</b>
<b>Grand Total</b>	<b>18,231</b>	<b>220</b>	<b>8,450</b>	<b>26,901</b>

Note: All data in Table 2, including ASCENT data, are from DHE's SURDS. Also, as Colorado Mesa University does include a two-year college as a part of its system, some of the concurrent enrollment students counted here may be enrolled in the two-year program, not the four-year program.

The balance of this report will summarize Concurrent Enrollment and ASCENT programs as described in House Bill 09-1319. That is, PSEO, Fasttrack, and "other" dual enrollment programs will not be hereafter reported.

### *Partnership Summary*

A local education provider (LEP) that seeks to allow students to participate in Concurrent Enrollment must enter into a cooperative agreement with an institution of higher education per C.R.S. §22-25-104. The Concurrent Enrollment Programs Act defines a local education provider as a school district, a board of cooperative services (BOCES), a district charter school, or an institute charter school.

In 2012-13, 20 institutions of higher education and 161 LEPs entered into a total of 219 cooperative agreements using the Concurrent Enrollment model per C.R.S. §22-25-104. The data for these numbers are collected by institutions sending their cooperative agreements directly to the Colorado Department of Higher Education. This is a new process and not all institutions were able to turn their cooperative agreements in to DHE, thus these numbers do not match the enrollment numbers displayed later in the report. DHE is currently working with institutions to make sure this information is accurately reported in the future.

### *Participation Growth*

The Concurrent Enrollment program continues to see sustained increases in participation. During the 2012-13 school year, 4,246 more students participated in the Concurrent Enrollment program than in the previous year. As reported last year, the increase from 2010-11 to 2011-12 was 4,656 students, which indicates that year-to-year increases in participation are remaining consistently high.

Table 3 displays the unduplicated student count for Concurrent Enrollment participation by institutions of higher education for the last two years. Due to changes in dual enrollment options, Pikes Peak Community College showed a particularly large increase in Concurrent Enrollment this year as their reporting and program opportunities adjusted. Pikes Peak Community College, which did not report any Concurrent Enrollment students in the prior year, had the largest increase of students enrolled, with 1,183 students participating. Front Range Community College had the next largest increase in participation (702 students). Colorado Mesa University had the largest participation increase of four-year institutions, with 272 more students participating in 2012-13 than in the previous school year.<sup>4</sup> A total of 26 public institutions of higher education served Concurrent Enrollment students in 2012-13. See Appendix A for an unduplicated count of students by institution and high school.

---

<sup>4</sup> As Colorado Mesa University does include a two-year college as a part of its system, some of the concurrent enrollment students counted here may be enrolled in the two-year program, not the four-year program.

**Table 3: Concurrent Enrollment Programs 2012-2013, Prior-Year Comparison**

<b>Public Institutions of Higher Education</b>	<b>Number of Students, 2011-12 Academic Year</b>	<b>Number of Students, 2012-13 Academic Year</b>	<b>Change in number of students</b>

University of Northern Colorado	0	12	+12
Western State Colorado University	0	117	+117
<b>Total</b>	<b>14,016</b>	<b>18,231</b>	<b>+4,215</b>

Note: Counts throughout the report may differ based upon multiple enrollments and descriptive reporting.

*Participation by Districts and High Schools*

Tables 4a and 4b highlight the top 10 schools and school districts with the highest number of students participating in Concurrent Enrollment. All ten of the top participating schools by headcount are located in four districts: Aurora Public Schools, Cherry Creek Schools, Denver Public Schools, and Douglas County School District. Cherokee Trail High School tops the high school list for the third year in a row. New this year to the top 10 list for high school participation are Cherry Creek High School and Rock Canyon High School. Denver Public Schools moved above Douglas County School District and Cherry Creek Schools to take the top spot on the list of the top 10 school districts participating in Concurrent Enrollment by headcount. Eagle County Schools was the only new school district on the top 10 list for the 2012-13 school year.

**Table 4a: Top 10 Schools Participating in Concurrent Enrollment, by Student Headcount 2012-2013**

District	School	Unduplicated Headcount
Cherry Creek Schools	Cherokee Trail High School	612
Cherry Creek Schools	Overland High School	420
Aurora Public Schools	Hinkley High School	404
Douglas County School District	Mountain Vista High School	350
Denver Public Schools	CEC Middle College Of Denver	342
Aurora Public Schools	Rangeview High School	313
Denver Public Schools	Southwest Early College Charter School	290
Douglas County School District	Rock Canyon High School	268
Cherry Creek Schools	Cherry Creek High School	266
Douglas County School District	Highlands Ranch High School	260

**Table 4b: Top 10 Participating Districts in Concurrent Enrollment, by Student Headcount 2012-2013**

District	Number of Schools Within the District with CE Programs	Unduplicated Headcount
Denver Public Schools	25	1,851
Cherry Creek Schools	7	1,708
Douglas County School District	10	1,567
Jeffco Public Schools	29	1,304
Aurora Public Schools	10	1,189
Mesa County Valley School District 51	7	493
Poudre School District	10	412
Eagle County Schools	2	349
Pueblo City Schools	7	323

When looking at Concurrent Enrollment participation by student headcount, the state’s larger districts will invariably have the highest participation numbers. Another way to look at district participation is to calculate the percentage of high school students (9<sup>th</sup>-12<sup>th</sup> grade) who take at least one Concurrent Enrollment course. Table 4c lists the top 10 school districts with the highest percentage of high school students participating in Concurrent Enrollment. Crowley County School District, a small rural district, tops the list with 88 percent of its students taking Concurrent Enrollment courses. All districts in Table 4c are classified by CDE as small rural districts.<sup>5</sup>

A total of 3 BOCES and 165 school districts participated in Concurrent Enrollment in 2012-13, which represents about 92 percent of districts in Colorado. See Figure 2 for a visual display of participating districts and Appendix B for a complete list of Concurrent Enrollment headcount and participation rates by school district. Additionally, 365 high schools had at least one student participating in Concurrent Enrollment, representing about 75 percent of all Colorado high schools.

**Table 4c: Top 10 Participating Districts in Concurrent Enrollment, by Percentage of High School Students in Concurrent Enrollment, 2012-2013**

District	Number of Students in Concurrent Enrollment (Unduplicated Headcount)	Percent of 9th-12th Graders in Concurrent Enrollment
Crowley County School District	118	88%
Cheraw School District	38	66%
Campo School District RE-6	7	54%
Swink School District	52	50%
Meeker School District	96	48%
Peetz Plateau School District RE-5	30	46%
Mc Clave School District RE-2	38	46%
Lone Star School District	16	46%
Walsh School District RE-1	20	42%

Note: Percentage of 9<sup>th</sup>-12<sup>th</sup> grade students is based on CDE’s October Count data for 2012-13.

<sup>5</sup> CDE’s definition of rural schools: “A Colorado school district is determined to be rural giving consideration to the size of the district, the distance from the nearest large urban/urbanized area, and having a student enrollment of approximately 6,500 students or less. Small rural districts are those districts meeting these same criteria and having a student population of less than 1,000 students.” [www.cde.state.co.us](http://www.cde.state.co.us)

**Figure 2. Map of School Districts Participating in Concurrent Enrollment, 2012-13**  
 Shaded districts have at least one student in Concurrent Enrollment.

**Colorado School District Map**  
 Concurrent Enrollment Participating Districts 2012-13

Produced by the Colorado Department of Education Web Support Services Unit - May, 2007

Source: SURDS Data 2014 Concurrent Enrollment Report

*Accelerating Students through Concurrent ENrollment (ASCENT)*

The ASCENT program was in its third year during the 2012-13 academic year. Twenty-two LEPs, an additional six from the 2011-12 year, participated in this program with a total enrollment of 291 students. Table 6 provides a list of the districts and the unduplicated headcount of students who participated in the ASCENT program using data that was obtained through the Colorado Department of Education's October Count.

**Table 5: Enrollment Headcount for the ASCENT Program, by District  
2012-2013**

District	ASCENT Participants
Aurora Public Schools	137
Buena Vista School District	2
Colorado Springs School District 11	5
Delta County School District	12
Denver Public Schools	31
Eagle County Schools	5
Edison School District 54JT	12
Weld County School District 6 (Greeley-Evans)	8
Jeffco Public Schools	9
Lamar School District RE-2	7
Mapleton Public Schools	1
Mc Clave School District	1
Mesa County Valley School District 51	7
Montezuma-Cortez School District RE-1	1
Norwood Public Schools	1
Park County School District RE-2	1
Platte Canyon School District #1	3
Poudre School District	14
Strasburg School District 31J	5
Thompson School District	8
Trinidad School District #1	1
Widefield School District 3	5
<b>Total</b>	<b>291</b>

Note: Data for Table 6 were obtained through CDE's October Count.

CDE October Count data was used in this section of the report in order to align with the amount of funding received by districts/LEPs for ASCENT participation. As students can participate part-time, the unduplicated headcount may be larger than the total FTE funded by the legislature.

## Demographics

Table 7 provides information on Concurrent Enrollment participation by race/ethnicity, for the 2011-12 and 2012-13 academic years. The number of Hispanics students—Colorado’s largest minority group—participating in Concurrent Enrollment increased by 37.3 percent from 2011-12 to 2012-13. Overall, since the beginning of Concurrent Enrollment in 2009, the program has seen significant diversification, and the composition of the Concurrent Enrollment program now closely resembles the composition of public high schools in Colorado. Table 8 displays Concurrent Enrollment participation by gender. Over the last two school years more females have participated in Concurrent Enrollment than males.

**Table 6: Concurrent Enrollment Participation, by Race/Ethnicity, 2012-2013**

Race/Ethnicity	2011-2012 Academic Year Number/Percent		2012-2013 Academic Year Number/Percent		Percent Change in Number of Students
	Number	Percent	Number	Percent	
Asian	416	3%	471	2.6%	13.2%
Black	525	3.8%	641	3.6%	22.1%
Hawaiian or Pacific Islander	30	0.2%	42	0.2%	40.0%
Hispanic	2,744	19.6%	3,767	20.9%	37.3%
Native American/Alaska Native	105	0.7%	98	0.5%	-6.7%
Unknown/Did not wish to Answer	2,084	14.9%	1,969	10.9%	-5.5%
White	7,504	53.6%	10,072	55.9%	34.2%
More than one race/ethnicity	290	2.1%	549	3.0%	89.3%
Nonresident Alien	293	2.1%	425	2.4%	45.1%

Note: Includes Concurrent Enrollment and does not include ASCENT. Counts may differ based upon multiple enrollments and descriptive reporting. A nonresident alien is a person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely.

**Table 7: Concurrent Enrollment Participation, by Gender, 2012-2013.**

Gender	2011-2012 Academic Year Number/Percent		2012-2013 Academic Year Number/Percent		Percent Change in Number of Students
	Number	Percent	Number	Percent	
Female	7,338	52.7%	9,697	54.1%	+32.1%
Male	6,522	46.8%	8,133	45.4%	+24.7%
No Gender Data	70	0.5%	90	0.5%	+28.6%

Note: Includes Concurrent Enrollment and does not include ASCENT. Counts may differ based upon multiple enrollments and descriptive reporting. Headcount enrollments, by ethnicity and gender, or each participating higher education institution are available in Appendices C and D.

## Academic Success

Table 9 details the number of credit hours attempted and the number of credit hours passed for Concurrent Enrollment students by institution of higher education. In 2012-13, high school students attempted a total of 143,939 Concurrent Enrollment credit hours. The average number of credit hours attempted by Concurrent Enrollment students was 7.9, with an average of 7.2 hours passed.

As displayed in Figure 3, a large majority of students—84 percent—passed all of their Concurrent Enrollment courses in 2012-13. This is an improvement from the previous year’s complete pass rate of 78 percent. Only 9 percent of students did not pass any of their Concurrent Enrollment courses.

## Remedial Courses

Table 10 details student participation in basic skills, or remedial, Concurrent Enrollment courses. Per C.R.S. §22-25-104, a student may concurrently enroll in basic skills courses only if the student is enrolled in the 12<sup>th</sup> grade or has been retained by an LEP for additional instruction after the student’s 12<sup>th</sup> grade year.

Of the total Concurrent Enrollment students, 1,073 students, or 6.2 percent, enrolled in remedial courses. Between 2011-12 and 2012-13, enrollment in remedial Concurrent Enrollment courses saw a 47.8 percent increase. The largest enrollments were at the Community College of Aurora and the Community College of Denver. Utilizing dual enrollment for remedial courses is a recognized strategy to help students successfully complete developmental education prior to college enrollment. This helps ensure students are able to immediately enter college-level, credit-bearing courses and be on their way to earning a postsecondary credential.

*Career and Technical Education Courses*

Per C.R.S. §22-35-103, Concurrent Enrollment students have the opportunity to take postsecondary career and technical education (CTE) courses and earn credit that can be applied toward a technical certificate or degree. In 2012-13, over 7,100 students participated in CTE Concurrent Enrollment courses. Table 10, below, displays the number of students by institution of higher education. Providing opportunities for CTE courses as part of dual enrollment offerings is a recognized strategy to help improve outcomes for traditionally underserved students. The CTE pathways in Colorado provide additional options for students to earn postsecondary credentials, and offering CTE through Concurrent Enrollment allows students to get a head start on those pathways.

**Table 10: Career and Technical Education (CTE) Concurrent Enrollment Participation  
2012-2013**

## Postsecondary Credentials

Table 11 shows how many Concurrent Enrollment and ASCENT students are seeking a postsecondary credential while in high school. Overall, 8,764 students registered for their courses in a specific credential program. Most students are seeking an Associate of Arts or Associate of Science degree.

**Table 11: Concurrent Enrollment and ASCENT Postsecondary Credential-Seeking Students 2012-2013**

Credential Type	Concurrent Enrollment Students	ASCENT Students	Total Students
Certificate (less than 1 year)	379	6	385
Certificate (at least 1 year, less than 2)	242	16	258
Associates Applied Science	1,048	43	1,091
Associates of General Studies	1,436	14	1,450
Associate Degree (AA or AS)	5,473	107	5,580
<b>Total credential-seeking</b>	<b>8,578</b>	<b>186</b>	<b>8,764</b>
Not credential-seeking	9,669	27	9,696

Note: ASCENT numbers are from DHE's SURDS.

Table 12 displays the number and type of credentials actually earned by high school students participating in the Concurrent Enrollment or ASCENT programs during the 2012-13 academic year. 775 students in Concurrent Enrollment or ASCENT programs earned some type of postsecondary credential in 2012-13. This is a 60 percent increase over last year's total credential completion number (483). Most of the credentials are certificates as associate degrees require students to be enrolled for longer periods of time.

**Table 12: Concurrent Enrollment and ASCENT Postsecondary Credential Completion 2012-2013**

Credential Type	Concurrent Enrollment Students	ASCENT Students	Total Students
Certificate (less than 1 year)	552	10	562
Certificate (at least 1 year, less than 2)	80	5	85
Associates Applied Science	6	3	9
Associates of General Studies	20	1	21
Associate Degree (AA or AS)	81	17	98
<b>Total</b>	<b>739</b>	<b>36</b>	<b>775</b>

Note: ASCENT numbers are from DHE's SURDS.

## Outcomes of Dual Enrollment Programs

---

The purpose of this section is to investigate the effect participation in dual enrollment programs has on student matriculation to, and performance in, college. In order to test the relationship between dual enrollment and matriculation, credit hour accumulation, GPA and retention, basic inferential tests of differences were used. Participation in dual enrollment includes participation in any program offered in the state (including Concurrent Enrollment, ASCENT, PSEO, Fasttrack, and any other dual enrollment programs).

This year's report repeats last year's analyses with newer data that includes the 2010, 2011, and 2012 high school graduating cohorts. The findings here reflect the previous year's findings, which show better outcomes on all indicators for dual enrollment students as compared to students who did not take dual enrollment courses.

In addition, this year's report includes findings from robust multivariate analyses that better isolates and estimates the effect of dual enrollment participation on college-going rates and remedial rates. The executive summary of the report is included here. The full report can be found on the Colorado Department of Higher Education's website.

### *Matriculation*

Of the high school students participating in a dual enrollment program, on average more than 82 percent enrolled in college in the fall immediately following graduation. Among students who were not enrolled in a dual enrollment program, on average only 52 percent enrolled in college the following fall ( $p < .001$ ). These data suggest that students participating in a dual enrollment program are more likely to matriculate to college than high school students not dually enrolled.

### *Credit Hour Accumulation*

College students who participated in a dual enrollment program had higher earned cumulative credit hours, on average 36 credit hours, by the end of their first year of college compared to approximately 26 credit hours earned for students who were not dually enrolled in high school ( $p < .001$ ). Although this finding may not be surprising since students begin earning college credits in high school, the accumulation of higher credit hours has been linked to retention and successful degree attainment.<sup>6</sup>

### *First-Year Grade Point Average*

Matriculated college students who had participated in a dual enrollment program in high school have, on average, higher first-year GPAs (2.84) compared to students who were not dually enrolled (2.65). This difference is statistically significant ( $p < .001$ ). Higher GPAs have also been shown to be a positive predictor of postsecondary success and degree attainment.

---

<sup>6</sup> Adelman, C. (2006). *The toolbox revisited: Paths to degree completion from high school through college*. Washington, DC: U.S. Department of Education.

### *First-Year Retention*

Examining the 2010 and 2011 high school graduates who have enrolled in college, those students who participated in a dual enrollment program have a higher first-year retention rate at 82.5 percent, on average, compared to a retention rate of 79.6 percent for students who did not take dual enrollment courses in high school ( $p < .001$ ). First-year persistence has been shown to be a positive predictor of degree attainment.

### **The Effects of Dual Enrollment on the College-Going and Remedial Education Rates of Colorado's High School Students: Executive Summary**

Dual enrollment programs have grown rapidly in Colorado since legislation was enacted in 2009 that expanded access and clarified funding streams (House Bill 09-1319). Those in favor of dual enrollment argue that it increases academic preparation for college and provides momentum toward degree attainment by giving students the opportunity to enter college with credits already accumulated.<sup>7</sup> The Department of Higher Education conducted a study using Colorado's student data to see if there are positive associations between dual enrollment participation and college success. The study looked specifically at how participation in dual enrollment affects the college-going rates of Colorado's high school students, and how it affects their remedial education rates.

DHE has established a partnership with the Colorado Department of Education that permits the linkage of postsecondary data with K-12 data using the State Assigned Student Identifier (SASID). This study relied on the SASID-linked databases to create a panel dataset that follows cohorts of students as they move through the K-12 system and into higher education. The high school graduating cohorts of 2010, 2011 and 2012 were used in this study.

This study found positive, statistically significant and substantively large effects of dual enrollment participation on college enrollment for Colorado high school graduates. On average, participation in dual enrollment is associated with a 22.9 percent increase in the likelihood of enrolling in college immediately after high school graduation, holding gender, income, race/ethnicity, ACT scores and school effects constant. While controlling for academic and socioeconomic factors allows us to better isolate the effects of dual enrollment, selection bias remains a threat to the study, and the effect size is most likely overestimated. Selection bias is a problem that results from not being able to control for individual motivation. Some dual enrollment students were likely to be intrinsically motivated to both take dual enrollment courses and to enroll in college, and thus their decision to enroll in college cannot be

*Participation in dual enrollment is associated with a 22.9% increase in the likelihood of enrolling in college and a 10% decrease in the need for remediation, holding gender, income, race/ethnicity, and ACT scores constant.*

<sup>7</sup> An, B.P. (2013). The Impact of Dual Enrollment on College Degree Attainment: Do Low-SES Students Benefit? *Educational Evaluation and Policy Analysis* 35(1): 57-75.

directly tied to the effect of taking dual enrollment courses. However, with a substantial increase of 22.9 percent in the probability of enrolling, there is a good chance that some portion of that effect is due to dual enrollment participation.

The second part of this study focused on the effect of dual enrollment on remedial education rates for college freshmen. The results suggest that taking dual enrollment courses reduces the chance of needing remedial education in the first year of college by an average of 10 percent, controlling for gender, income, race/ethnicity, ACT scores and school effects.

These promising findings indicate that dual enrollment programs play an important role in advancing Colorado's goal to create a seamless P-20 education system that provides the foundational knowledge, skills and ability for all students to succeed.

## Next Steps

---

As CDE and CDHE strive to support districts and higher education institutions in expanding and enhancing Concurrent Enrollment and ASCENT programs, we will focus on the following activities.

### *Improve data alignment.*

Currently, the data collection process for Concurrent Enrollment requires each district or school to create a roster of Concurrent Enrollment students with each individual postsecondary institution. This process has resulted in inconsistent numbers of students being reported to CDE and DHE. It is recommended that a centralized system be created that both K-12 and higher education staff could access to verify enrollment in concurrent courses.

### *Highlight best practices for providing student support services.*

Concurrent Enrollment programs are intended to improve college access and success. As more first-generation and at-risk students participate in higher education, high schools and colleges will need to provide the appropriate student support services to help these students be successful. Concurrent Enrollment programs foster K-12 and higher education partnerships, which can be a starting point to work collaboratively in providing academic and social supports to students. To encourage such activity, CDE and DHE, with guidance from the Concurrent Enrollment Advisory Board, will highlight best and promising practices for providing student support services.

### *Help districts enter into cooperative agreements.*

Pursuant to statute § 22-35-107 (6)(c), CDE and DHE are working to provide guidance so that all school districts have adequate resources to enter into at least one cooperative agreement. Through the identification of scalable best and promising practices for the implementation and expansion of Concurrent Enrollment, CDE and CDHE can provide training and technical assistance to districts entering into cooperative agreements and can help support the ongoing operation of Concurrent Enrollment programs.

*Build awareness of the benefits of dual enrollment.*

CDE and DHE will continue to evaluate how dual enrollment programs affect postsecondary outcomes. Future research will look at different types of dual enrollment programs, including career and technical education programs. As this information becomes available, the state agencies will make sure to publicly disseminate the findings.

*Publicly recognize high-achieving schools and colleges.*

One of the statutory goals of Concurrent Enrollment is to “serve a wider range of students, particularly those who represent communities with historically low college participation rates” (C.R.S. §22-35-102(1)[d]). CDE and DHE will identify and publicly recognize school districts, high schools, and postsecondary institutions that are doing an exemplary job of providing concurrent enrollment opportunities to traditionally underserved populations.

## Attachment A: Reporting Requirements and Data Availability

Reporting Requirement	Source	Data Availability from 2012-2013 Academic Year (AY)
The number and names of local education providers and institutions of higher education that have entered into cooperative agreements	Institutions of Higher Education through Department of Higher Education	Data currently not available.
The number of qualified students who participated in a dual enrollment program in the previous school year, including subtotals for each local education provider and each institution of higher education	Department of Higher Education	Used SURDS data for 2012-13 AY.
Demographic information about qualified students who participated in a dual enrollment program in the previous school year	Department of Higher Education	Used SURDS data for 2012-13 AY.
The total number of credit hours completed at each institution of higher education by qualified students who participated in a dual enrollment program in the previous school year	Department of Higher Education	Used SURDS data for 2012-13 AY.
The total number of basic skills courses completed at each institution of higher education in the previous school year by qualified students participating in a dual enrollment program	Department of Higher Education	Used SURDS data for 2012-13 AY.
The total tuition costs paid by local education providers to institutions of higher education in the previous school year on behalf of qualified students who participated in dual enrollment programs in the previous school year, including subtotals for each local education provider and each institution of higher education	Local Education Provider Request or Institution of Higher Education Request.	Data currently not available based on higher education tuition breakdowns and structures.
The total number of qualified students designated by the department as ASCENT program participants in the previous school year	Colorado Department of Education / Department of Higher Education	Used CDE & SURDS data for 2012- 13 AY.
The postsecondary degree and certificate programs in which ASCENT program participants were concurrently enrolled in the previous school year, including subtotals indicating how many ASCENT program participants concurrently enrolled in each postsecondary degree and certificate program	Department of Higher Education	Used SURDS data for 2012-13 AY.
Data indicating the total number and percentages of qualified students who failed to complete at least one course in which they concurrently enrolled	Department of Higher Education	Used SURDS data for 2012-13 AY.
To the extent possible, data indicating the total number and percentage of qualified students who concurrently enrolled in college courses who have completed a postsecondary degree	Department of Higher Education	Used SURDS data for 2012-13 AY.

## Appendix A: 2012-2013 Concurrent Enrollment Headcount, By Institutions of Higher Education and High Schools

\*No data indicates that students did not report what high school they were from when they enrolled in a Concurrent Enrollment course with an institution of higher education.
