

# Researcher-Practitioner Partnership to Improve Postsecondary Access and Success

Robert Reichardt  
September 20, 2017

# A Two-Year IES Grant: \$400,000

# Key Outcomes

- Conduct Research
- Share research results
- Develop a research agenda
  - ID additional sources of funding
- Prepare another research proposal
- Create a strategic plan to sustain the partnership

# Three Part Research Study

- Impact
- Costs: statewide with detail from:

Higher Education Site	K-12 Site
Community College of Denver	Denver Public Schools
Community College of Aurora	Aurora Public Schools
Western State Colorado University	Salida Schools Delta County School District

- Returns study: statewide measures such as income, taxes, corrections and Medicaid

# Role of the Concurrent Enrollment Advisory Board

- Help interpret research results
- Help share research results
- Help create the research agenda
- Help with a sustainability plan

# Research Agenda

- What are the challenges facing college access or success?
- What research will help address those challenges?
  - Is there existing research?
  - Which questions can be addressed by Colorado research?
  - What are the top priority questions?
- What are possible sources of funds for this research?
  - Which sources are most likely to work?
- Plan to pursue the high priority questions and high probability funding

# Questions?

Thank you!

Robert Reichardt
