

MARZANO RESEARCH

School Readiness Learning Sessions

Carrie Germeroth

Managing Senior Researcher at Marzano Research.

Carrie's expertise is in early childhood development and learning, with a focus on math, literacy, and social-emotional development of children, and parent support and education, particularly with under-resourced populations.

Chris Wolfe

Senior Researcher at Marzano Research.

Chris served as an assistant/associate professor of education and psychology for 12 years before returning to a focus on research. Chris has extensive experience in randomized control trials, measure development, assessment, and analysis.

David Yanoski

Researcher at Marzano Research.

David's expertise include competency-based education, Teacher as Researcher, rural education, teacher recruitment and retention, and anything to do with standards. David previously taught middle school for 15 years in rural and urban schools in Colorado.
