Sample Performance Assessment

Content Area: Visual Arts
Grade Level: Second (2)

Instructional Unit Sample: Reflecting on Community Experiences

Colorado Academic Standard(s): VA09-GR.2-S.1-GLE.1, VA09-GR.2-S.1-GLE.2; VA09-GR.2-S.2-GLE.1; VA09-GR.2-S.3-GLE.1; VA09-GR.2-S.4-GLE.1

Unit Description

In this unit, Reflecting on Community Experiences, the students will explore place, space, architecture, city planning and mapping through the experience of community. Student will begin by studying their surroundings and eventually consider how communities, as a whole, are planned and created. Planning and understanding art making as a process are common to each learning experience. Expressive features and characteristic of art, symbols, and mixing media are also key elements in the unit. The unit culminates in a performance assessment that asks students to work collaboratively to design and map out a new community.

Performance Assessment Description

Students will work in small groups to map a new community. The process to complete this performance assessment will include the following components:

- Create an artwork depicting a special place
- Use sketchbooks to recognize and record (list and draw) the environment
- Create symbols for the functional features of their community
- List elements and purposes of symbols used in maps
- List and describe the steps necessary to plan a collaborative art work
- Collaboratively create a map with a key (legend) to show all the parts of a community and how to get from place to place

All of the elements of this performance task are done in the unit/lesson plans centered on the idea of the students’ home and community. The performance task then asks students to apply their knowledge to a new, or imagined community. The rubric provided here could be used for the unit as a whole as well as for the performance task.

I. CONTENT STANDARDS

Content Area: Visual Arts

Colorado Academic Standards
Specify the Colorado Academic Standard(s) that will be evaluated by the performance tasks.

Colorado Academic Standards Online
(hold CTRL and click to visit the website)

- VA09-GR.2-S.1-GLE.1, VA09-GR.2-S.1-GLE.2
- VA09-GR.2-S.2-GLE.1
- VA09-GR.2-S.3-GLE.1
- VA09-GR.2-S.4-GLE.1

Grade Level

| Grade 2 |

Indicate the intended Depth of Knowledge (DOK) for this performance assessment.

☑ DOK 1  ☑ DOK 2
☑ DOK 3  ☑ DOK 4

What are some real-world situations that relate to the content standards above? Some examples are included in the Colorado standards under “Relevance and Application.”

- People can communicate visually with symbols and patterns in order to share information, inform understanding, and pass on knowledge to others.
- Creating art collaboratively can synthesize ideas from different points of view and develop a more comprehensive understanding between people.

Summary. Provide a brief summary describing the task in the boxes below.

<table>

<td>Students should know/understand...</td>
</tr>
<tr>
<td>➢ Different ways symbols and patterns can be used in a variety of ways to represent community (VA09-GR.2-S.1-GLE.1,2) and (VA09-GR.2-S.2-GLE.1-EO.a,b,c) and (VA09-GR.2-S.3-GLE.1-EO.a,b,c,d)</td>
</tr>
<tr>
<td>➢ Different relationships that are found in communities (VA09-GR.2-S.1-GLE.1-EO.a,b,c) and (VA09-GR.2-S.2-GLE.1-E.a,b,c) and (VA09-GR.2-S.3-GLE.1) and (VA09-GR.2-S.4-GLE.1-EO.a,b,c)</td>
</tr>
<tr>
<td>➢ Ways different materials and media can be used to create art that reflects personal and collaborative ideas of community. (VA09-GR.2-S.1-GLE.1) and (VA09-GR.2-S.2-GLE.1-EO.a,b,c) and (VA09-GR.2-S.3-GLE.1) and (VA09-GR.2-S.4-GLE.1-EO.a,b,c)</td>
</tr>
</tbody>
</table>
**Evidence. What can the student do/produce to show evidence of the above knowledge and skills?**

**Student will show evidence of skills and knowledge by...**

Students will work in small groups to map a new community. The process to complete this performance assessment will include the following components:

- Create an artwork depicting a special place
- Use sketchbooks to recognize and record (list and draw) the environment
- Create symbols for the functional features of their community
- List elements and purposes of symbols used in maps
- List and describe the steps necessary to plan a collaborative art work
- Collaboratively create a map with a key (legend) to show all the parts of a community and how to get from place to place

---

**III.A. PERFORMANCE TASKS:**

**Instructions to the Student**

*Think about the performance assessment process from a student’s perspective. What instructions does the student need? Make sure the instructions are fair and unbiased. Instructions should be detailed, clear, and written at the appropriate grade level.*

*Give the student an overview of the performance assessment (i.e., purpose of the assessment, tasks the student will need to complete, etc.).*

The purpose of the task is to apply the information learned from studying your own community into creating art and a collaborative map in an imagined environment.

*Stimulus Material. Describe what stimulus material the student will receive. For example, the stimulus might be a story or scenario that the student reads, analyzes, and to which the student provides a response.*

You are an explorer and together with a large group of friends and family have landed/discovered in a new environment. You begin to design and build where you will live, what you will do, and where you will work, play, and learn. You and others in your developing community have decided to create a map together with a key (legend) to show all the parts of your community and how to get from place to place. You will put this map on a rocket and launch it in the air so others might find you and your community.
Explain to the student what documents/materials they have for the performance assessment. Explain what the student should do with those documents/materials.

Students will have the same materials available to them that they had for the preceding lessons.

Describe in detail any safety equipment that is required. Is safety equipment provided onsite, or are students expected to bring their own safety equipment?

None required.

Explain what students need to do when they complete each task (e.g., submit work to the educator, move on to the next task, etc.).

Move on to the next task. Teacher determines when students begin collaborative mapmaking.

Provide any other relevant information for the students’ instructions.

None.

### III.B. PERFORMANCE TASKS: Instructions to the Educator

Think about the performance assessment process from an educator’s perspective. What instructions do educators need? Instructions to the educator should be clear and concise.

Before the Performance Assessment is Administered

How should the educator prepare the site where the performance assessment will be administered? Be as specific as possible.

Any unnecessary clutter should be removed.

What materials should be provided to students? Be as specific as possible.

Required art materials should be readily available.

What materials should the student bring to the performance assessment session? Be as specific as possible.

Their sketchbooks.
**What materials should not be available to the student during the performance assessment session (e.g., cell phones, calculators, etc.)?**

Cell phones and anything with ear buds – due to collaborative work.

**Should the educator keep track of time? If so, specify how much time the student will have to complete the performance assessment. Explain how the educator should keep track of and record time.**

The performance task will take place over multiple class periods according to the educator’s discretion.

**Will the educator need to video/audio record the students during the performance assessment session? If so, provide detailed instructions on how to set up the recording equipment.**

No.

**During the Performance Assessment Session**

**How should the educator respond to students’ questions?**

Clarify instructions. Turn questions of idea or quality back to students.

**What should the educator do while the student is completing the tasks (e.g., should the educator make notes about the student’s process, mark scores on rubrics, etc.)?**

Observe and make notes as desired.

**Upon Completion of the Performance Assessment**

**What does the educator need to collect from the student?**

Sketchbook, Art Work, Collaborative Map

**What information should the educator give the student at the end of the performance assessment session?**

Praise and encouragement. Debrief as desired.
### III.C. PERFORMANCE TASKS: Other Considerations

**How will students’ responses be recorded?** Describe how evidence will be collected about each student’s performance (e.g., student submits a work product, educator records information about the student’s process, etc.)

Student responses recorded in sketchbook. Sketchbook, art work, and collaborative map collected.

**What needs to be built for this performance assessment?** Refer to the materials list above. Think about what materials must be created for this performance assessment. Some examples include: worksheets, instruction sheets for the educator, videos, websites, etc.

Written description of tasks to be posted in class.

### III.D. PERFORMANCE TASKS: Accommodations

What are the requirements for this set of tasks? What accommodations might be needed? List all accommodations that might apply (e.g., accommodations for language, timing, setting, etc.).

Timing for individual components may vary. Collaborative Map task will need to have a fixed start and stop time to be determined by teacher.

### IV. EDUCATOR INFORMATION

What are the requirements to be an educator for this performance assessment? What are the knowledge and skills and educator must possess in order to successfully administer and score this performance assessment. Please provide your recommendations below.

It is best if the performance assessment is administered by the same teacher who taught the unit of study.
Performance Assessment Development Process

The work of the Colorado Content Collaboratives is intended to support effective instructional practice by providing high quality examples of assessment and how assessment information is used to promote student learning.

The new Colorado Academic Standards require students to apply content knowledge using extended conceptual thinking and 21st century skills. Performance assessments have the highest capacity to not only measure student mastery of the standards but also provide the most instructionally relevant information to educators. Further, performance assessments can integrate multiple standards within and across content areas, providing educators a comprehensive perspective of student knowledge and giving students the opportunity to demonstrate the degree to which they understand and transfer their knowledge.

Performance Assessment - An assessment based on observation and judgment. It has two parts: the task and the criteria for judging quality. Students complete a task (give a demonstration or create a product) and it is evaluated by judging the level of quality using a rubric. Examples of demonstrations include playing a musical instrument, carrying out the steps in a scientific experiment, speaking a foreign language, reading aloud with fluency, repairing an engine, or working productively in a group. Examples of products can include writing an essay, producing a work of art, writing a lab report, etc. (Pearson Training Institute, 2011)

The Content Collaboratives worked closely with the Center for Educational Testing and Evaluation from the University of Kansas to establish protocols for the development of performance assessments and to use those protocols to develop performance assessments that include scoring rubrics. The Performance Assessment Development Process includes a collection of resources to aid schools and districts that choose to engage in locally developing performance assessments. These resources can be accessed in the CDE Assessment Resource Bank at http://www.coloradoplcc.org/node/12765.

The Performance Assessment Development Process is best utilized when intending to create an assessment for culminating assessment purposes such as a unit, end of course, end of semester, or end of year summative assessment. Additionally, a district, BOCES, or school may wish to create a common performance assessment that can be used across multiple classrooms. Engaging in the Performance Assessment Development Process serves as evidence that an educator is participating in valuable assessment work that aligns to the Colorado Academic Standards, district curriculum, and district goals.

The performance assessments developed by the Content Collaboratives serve as high-quality examples of performance assessments that can be used for a variety of purposes. Scores from these performance assessments are used at the discretion of the district or school.
