

DEVELOPING SPANISH (B)

Unit 4 Assessment: Interpersonal Speaking

Learning Targets

- ✓ I can ask and answer basic personal questions to fill out paper work at a hospital or doctor's office.
- ✓ I can explain what is wrong with me or someone else.
- ✓ I can ask about and tell what happened to me or someone else.
- ✓ I can get clarification about a prescription or medical instruction.

Proficiency Goal

Scenario 1

You are completing a nursing internship at the University of Louisville. A female patient comes in that only speaks Spanish. The bilingual nurse is off that day, so they ask you to help translate and fill out some basic paperwork. You gladly accept!

- Greet the patient and make her feel comfortable.
- Ask the patient some basic personal questions (Name, age, address, etc.) using the patient information form below.
- Ask what happened to the patient and what hurts them.
- Take notes on the form below based on the information the patient gives you.

If you can think of a recommendation based on the symptoms given feel free to do so to make the patient feel a bit more at ease.

PATIENT INFORMATION

Patient Name: _____ Birthdate: _____ M ___ F ___
Last First Middle

Home Address: _____
Number Street City State/Zip

Phone: (____) _____ (____) _____ (____) _____
Home Work Cell

Symptoms (What hurts today?)

What happened (If you were in an accident.)
