Card #15 Procedure for Strategy Instruction

Use the outline below to guide your strategy instruction.

Explain/Direct Definition

- Explain to students or review what the strategy is and its purpose.
- Refer to list of reading strategies posted in classroom.

Model

- Demonstrate the strategy for students using a think aloud while interacting with the text.
- Clarify for students that you are thinking aloud. Use a transition statement that tells students you have left the text of the story to provide the think aloud.
- Don't ask students questions about strategy use during the modeling step.
- Provide additional models for students as needed during reading of selection.

Guided Practice

- Work together with students to help them learn how and when to use the strategy.
- Use the strategy name while guiding students.
- Prompt students to use multiple strategies when appropriate.
- Provide opportunities for active participation for all students; students should work in partners, small groups, or whole class.
- Provide many opportunities for guided practice with each strategy.

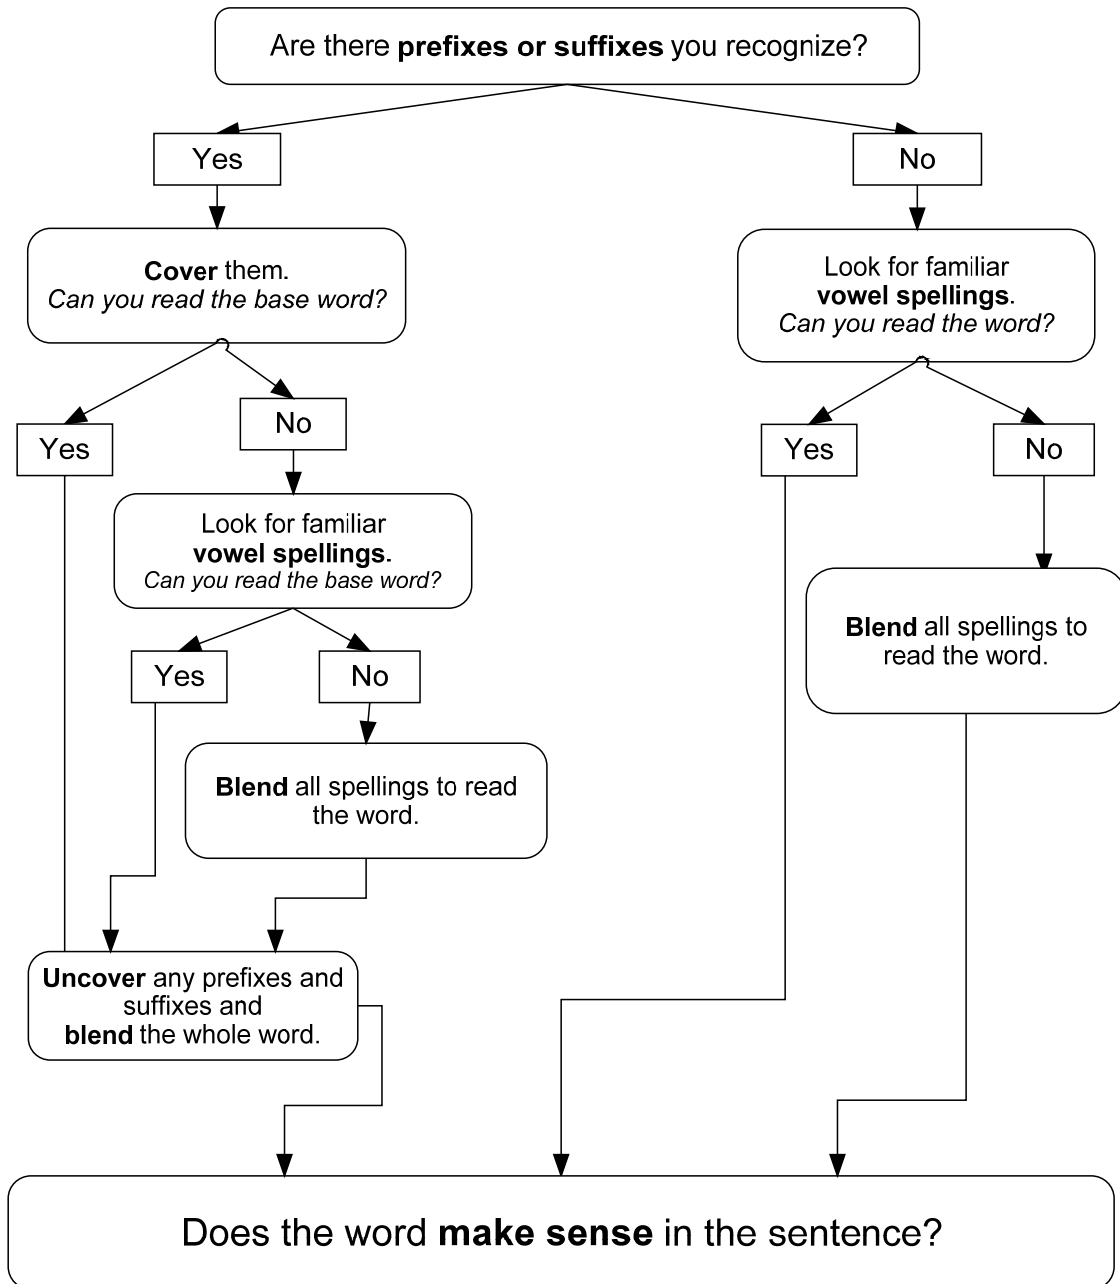

Feedback

- As students participate in guided practice, provide feedback regarding correct and incorrect usage of the strategy (praise students for strategy steps they used and remind them of steps they left out).

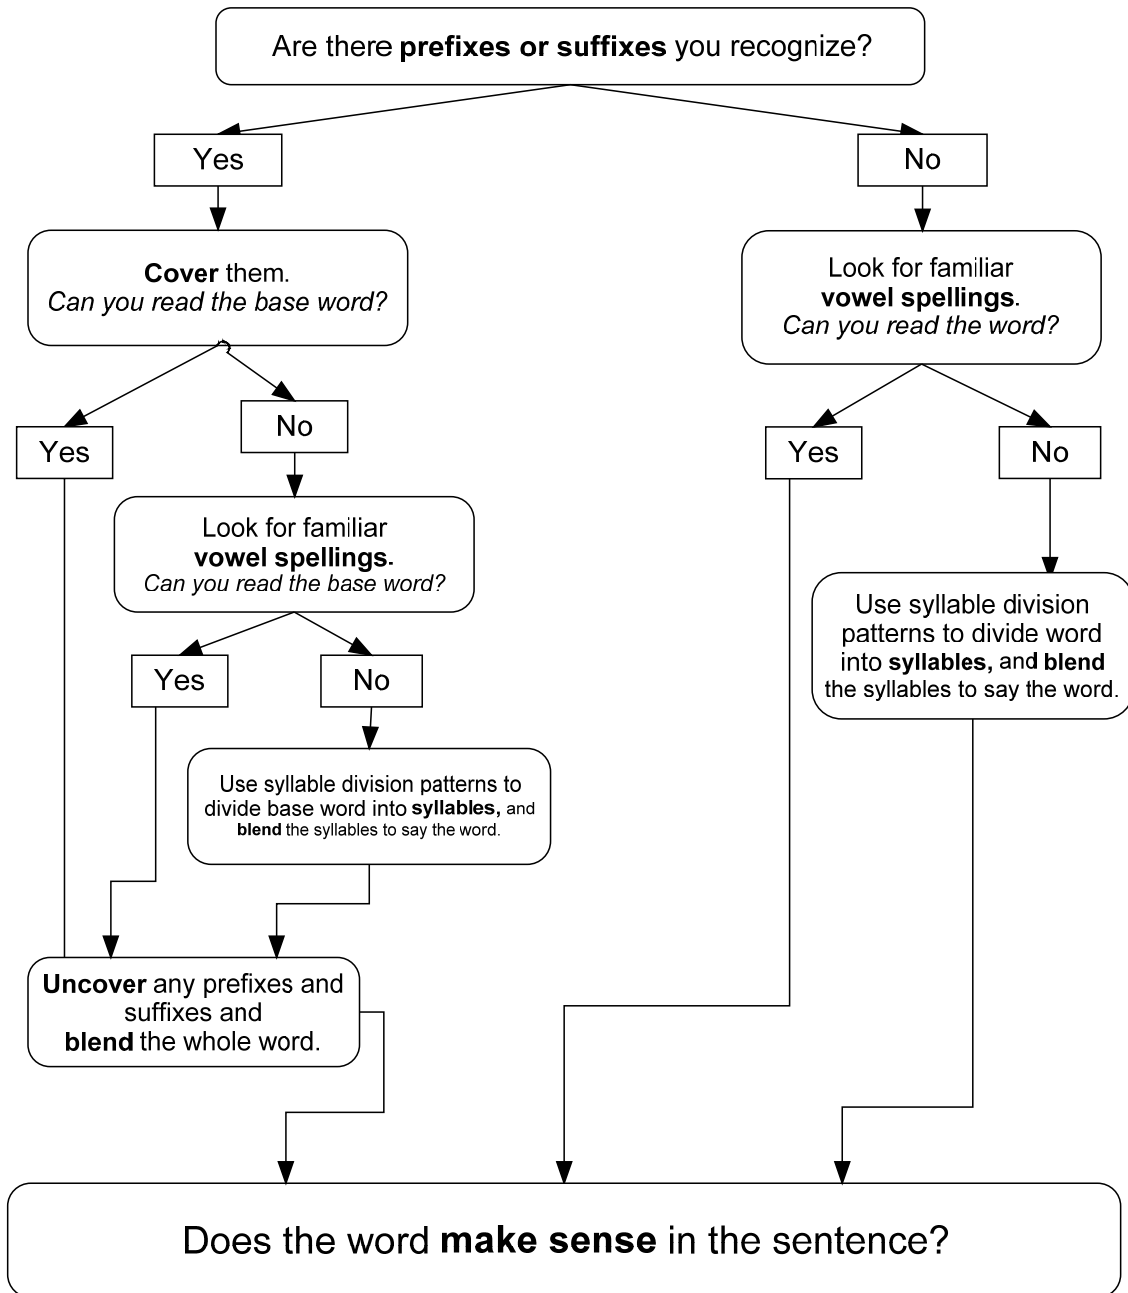

Application

- Remind students to use the strategy while they continue to read the current text.

Card #16 Side A Phonics/Decoding Strategy
(for use with Grade 1)

Card #16 Side B Phonics/Decoding Strategy
(for use with Grades 2-6)

June 2005 (Revised June 2007) DRAFT Templates, a product of the National Center for Reading First Technical Assistance (NCRFTA).
Developed by the Western Regional Reading First Technical Assistance Center (WRRFTAC) in collaboration with Ashlock Consulting, Inc.

The intellectual property represented in these materials, as well as the materials themselves, are protected by copyright. In addition, the provisions of

prohibited without the written consent of the developer.

Card # 17 Side A

Vocabulary—Word-Learning Strategy Instruction

Use the strategies below to guide your word-learning strategy instruction. Remember that not all strategies are useful in figuring out the meaning of all words. We model their use anyway to show students how to be flexible with their strategy use. If one strategy doesn't work, they should try another. We want to create students who do not skip big words, but attack them with the confidence that they have multiple ways to figure out their meaning.

1. Word Structure

Morphemes (prefixes, suffixes, base words, and root words) combine to contribute to the meaning of a word. Recognizing these units of meaning help you figure out what the word means.

2. Syntactic Clues

How a word is used in a sentence (the part of speech) can give you clues to its meaning.

3. Context Clues

Words, phrases, or sentences surrounding an unknown word can give you hints about its meaning.

- Apposition
- Restatements
- Examples
- Definitions
- Similes
- Metaphors
- Clue words or phrases
- Synonyms
- Antonyms/negative examples
- Lists

Note: Always use the procedure for strategy instruction (Card #15) listed below to guide word-learning strategy instruction.

- **Explain/Direct Definition** (Directly define what strategy you are about to use and why)
- **Model** (Model using the strategy without involving the students, simply show them your thought processes by thinking aloud)
- **Guided practice** (After at least two models, ask students to apply the same strategy with a partner or table group)
- **Feedback** (Ask partners to share what they did in their guided practice and provide feedback that encourages good strategy use)
- **Application** (Remind students to use word learning strategies every time they read)

Card # 17 Side B

Vocabulary—Procedures for Specific Word Instruction

Specific word instruction includes, but is not limited to, the below opportunities for multiple exposures.

1. Direct Definitions

- If a thing is *fabulous* it means it is *wonderful* or *marvelous*.

2. Use Synonyms and Antonyms

- Which word is the same as *fabulous* - *o.k.* or *super*? Why does *super* go with *fabulous*?
- Is it *fabulous* if you fall and scrape your knee? What would it be?
- The boy had a *fabulous* time at the park. Did he have a *great* time or a *terrible* time?
- The concert was the best he had ever heard. Every note seemed perfect. Am I talking about *fabulous* or *discover*?

3. Make Up a Novel Sentence

Student makes up novel sentence:

- How could a family have a *fabulous* time?
- Why is a diamond necklace *fabulous*? A diamond necklace is *fabulous* because...

Teacher makes up novel sentence:

- Maria thought her car was *fabulous* because it was hot pink.

4. Classify With Other Words

- Name some things that are *fabulous*. Name some things that are not *fabulous*.
- The boy had a *fabulous* time at the park. Did he have a *great* time or a *terrible* time?
- The concert was the best he had ever heard. Every note seemed perfect. Am I talking about *fabulous* or *discover*?

5. Relate the Definition to One's Own Experiences

- Describe a time that something *fabulous* happened to you.
- I know you had a *fabulous* time on the fieldtrip. Describe it.
- Name a time that your family had a *fabulous* time.
- What could happen that would cause you to have a *fabulous* time?

Appendix

For all Templates except 4, 5, and 6:

When prompting individual turns use the focus (*Word?*, *Sound?*, etc.) for all students. Then call an individual student's name just before you give the signal for student response (tap, slide, etc.). This way, all students are participating, or figuring out the answer in their heads, instead of only one student.

Card #11 Template for Reading Predecodable and Decodable Text Instruction—Introductory

Template 11 assumes that students have had sufficient practice reading regular and irregular words in word list exercises from the Lesson Maps on days prior to introduction of the story so that they will be able to read all words in the story with no more than 3-4 seconds to figure out the word. If you have students in your group who have not had sufficient practice, you may have to preteach. Waiting for these children to figure out a response would cause the majority of the students to wait excessively. Preteaching consists of presenting the story in a smaller group with those students who need the extra time prior to presenting the story in the larger group. During the small group session, allow more time to figure out the words on the first reading of the story, then repeat the story with just a 3-4 second pause for each word.

Card #12 Template for Reading Decodable Text Instruction—Intermediate

Template 12 assumes that students have had sufficient practice reading regular and irregular words in word list exercises from the Lesson Maps on days prior to introduction of the story so that they will be able to read all words in the story with no more than 3 seconds to figure out the word. If you have students in your group who have not had sufficient practice, you may have to preteach. Waiting for these children to figure out a response would cause the majority of the students to wait excessively. Preteaching consists of presenting the story in a smaller group with those students who need the extra time prior to presenting the story in the larger group. During the small group session, allow more time to figure out the words on the first reading of the story, then repeat the story with just a 3 second pause for each word.

Card #13 Template for Reading Decodable Text —Transitional

Template 13 assumes that students have had sufficient practice reading regular and irregular words in word list exercises from the Lesson Maps over days prior to introduction of story so that they will be able to read all words in the story with no more than 2 seconds to figure out the word. If you have students in your group who have not had sufficient practice, you may have to preteach. Waiting for these children to figure out a response would cause the majority of the students to wait excessively. Preteaching consists of presenting the story in a smaller group with those students who need the extra time prior to presenting the story in the larger group. During the small group, allow more time to figure out the words on the first reading of the story, then repeat story with just a 2 second pause for each word.

If you have students who make multiple errors, call on them for sentences that contain easier words.

Have these students reread the decodable text again later in small groups.

PRACTICE TO BUILD FLUENCY

June 2005 (Revised June 2007) DRAFT Templates, a product of the National Center for Reading First Technical Assistance (NCRFTA). Developed by the Western Regional Reading First Technical Assistance Center (WRRFTAC) in collaboration with Ashlock Consulting, Inc.

The intellectual property represented in these materials, as well as the materials themselves, are protected by copyright. In addition, the provisions of EDGAR Section 80.34, apply to these materials. Any use of these materials, including, but not limited to, copying, distribution, or sale is expressly prohibited without the written consent of the developer.

Use one of the following options to have students reread the story at least two more times:

1. Provide extra choral reading practice using the signaling procedure associated with this template.
2. Provide extra individual turn reading practice using the procedure associated with this template.
3. Partner Read – Students read with a partner following the procedure below.

Say: ***You're going to practice reading a story with a partner. When you are the listener, touch under each word your partner is reading and read along silently to yourself. If the reader makes a mistake, say the correct word. When you are the reader and your partner corrects you, repeat the correct word. Then go back to the beginning of the sentence and read the sentence again. Take turns reading pages with your partner.***

During partner reading, each student should have their own copy of the decodable book. Teacher moves from pair to pair listening and monitoring.

Card #14 Template for Reading Text—Advanced

Example

(Page 1) Dad and I walk to the park. We take large steps that lead to the grass.

(Page 2) We see dogs. These dogs jump and bark. We see them catch balls and roll over.

(Page 3) A baby wakes up from its nap. Her mother picks her up.

Say: ***Touch under the first word of the page. Monitor. Read the page to yourself.*** Pause for an appropriate length of time.

After students have read to themselves, say: ***Stop. Go back to the top of the page. Touch under the first word.*** Pause. ***Read*** (tap).

Repeat the procedure until all text has been read.

Template 14 assumes that students have had sufficient practice reading regular and irregular words in word list exercises from the Lesson Maps on days prior to introduction of the story so that they will be able to read all words in the story with no more than 1 second to figure out the words. If you have students in your group who have not had sufficient practice, you may have to preteach. Waiting for these children to figure out a response would cause the majority of the students to wait excessively.

Preteaching consists of presenting the story in a smaller group with those students who need the extra time prior to presenting the story in the larger group. During the small group, allow more time to figure out the words on the first reading of the story, then repeat the story with just a 1 second pause for each word.

If you have students who make multiple errors, call on them for sentences that contain easier words. Have these students reread the decodable again later in small groups.

PRACTICE TO BUILD FLUENCY

Use one of the following options to have students reread the story at least two more times:

1. Provide extra choral reading practice using the signaling procedure associated with this template.
2. Provide extra individual turn reading practice using the procedure associated with this template.
3. Partner Read – Students read with a partner following the procedure below.

Say: ***You're going to practice reading a story with a partner. When you are the listener, touch under each word your partner is reading and read along silently to yourself. If the reader makes a mistake, say the correct word. When you are the reader and your partner corrects you, repeat the correct word. Then go back to the beginning of the sentence and read the sentence again. Take turns reading pages with your partner.***

During partner reading, each student should have their own copy of the decodable book. Teacher moves from pair to pair listening and monitoring.

Word Reading—Spelling Focused for Multisyllabic or Affixed Words

Example 1 – Two syllable words (with no affixes)

char/coal

1. Cover the second syllable *coal*.
2. Use the signaling procedure to focus students on the potentially difficult spelling in the first syllable *ar* and say, “**Sound?**”
3. Use the signaling procedure and say, “**Blend.**” Sweep finger under *char*.
4. Uncover the second syllable and cover the first syllable *char*.
5. Use the signaling procedure to focus students on the potentially difficult spelling *oa* and say, “**Sound?**”
6. Use the signaling procedure and say, “**Blend.**” Sweep finger under *coal*.
7. Uncover the first syllable to reveal the whole word.
8. Use the signaling procedure and say, “**Blend.**” Sweep finger under each syllable.
9. Use the signaling procedure and say, “**Word?**” Slide hand under entire word.
10. If students have a difficult time pronouncing the word, place the word in context for them and ask them if it sounds like a word they know. Try to get them to adjust the pronunciation based on context and the structure of the sentence. If they still can’t get the pronunciation, tell them the word.

Set #1

1. vol/ume
2. per/haps
3. rain/coat

Set #2

1. po/lite
2. cen/ter
3. pea/nut

Set #3

1. suc/ceed
2. va/cant
3. day/dream

Note: For all words, the slashes (/) are included for your syllabication knowledge only. Do not write them on the board when presenting words to students.

Word Reading—Spelling Focused for Multisyllabic or Affixed Words (continued)

Example 2 – Two syllable words (with the inflectional ending *-ed*) *paint/ed*

1. Cover the second syllable *ed* (inflectional ending).
2. Use the signaling procedure to focus students on the potentially difficult spelling in the first syllable *ai* and say, “**Sound?**”
3. Use the signaling procedure and say, “**Blend.**” Sweep finger under *paint*.
4. Uncover the second syllable and cover the first syllable *paint*.
5. Focus students on the inflectional ending *ed* and tell students, “**Say /ed/.**” Slide finger under *ed*.
6. Uncover the first syllable to reveal the whole word.
7. Use the signaling procedure and say, “**Blend.**” Sweep finger under each syllable.
8. Use the signaling procedure and say, “**Word?**” Slide hand under entire word.
9. If students have a difficult time pronouncing the word, place the word in context for them and ask them if it sounds like a word they know. Try to get them to adjust the pronunciation based on context and the structure of the sentence. If they still can’t get the pronunciation, tell them the word.

Note on point 5: The teacher tells students to say the correct pronunciation of the *ed* ending because *ed* as an inflectional ending can represent one of three different sounds: /ed/ as in *painted*, /d/ as in *hummed* and /t/ as in *stopped*. The teacher does not have to tell students to say other endings such as *ing* and *er*.

Set #1

1. nest/ed
2. last/ed
3. hoard/ed
4. add/ed

Set #2

1. land/ed
2. blast/ed
3. board/ed
4. roast/ed

Set #3

1. start/ed
2. bloat/ed
3. raid/ed
4. float/ed

Word Reading—Spelling Focused for Multisyllabic or Affixed Words (continued)

Example 3 – Two syllable words (with a prefix)

dis/like

1. Cover the second syllable *like*.
2. **Option #1** - If you have taught *dis* as a prefix:
Use the signaling procedure to focus students on *dis* and say, “**Prefix?**” Slide finger under *dis*.

Option #2 - If students have not learned the prefix *dis*:
Use the signaling procedure to focus students on the potentially difficult spelling *i* and say, “**Sound?**”
Use the signaling procedure and say, “**Blend.**” Sweep finger under *dis*.
3. Uncover the second syllable and cover the first syllable *dis*.
4. Use the signaling procedure to focus students on the potentially difficult spelling *i_e* and say, “**Sound?**”
5. Use the signaling procedure and say, “**Blend.**” Sweep finger under *like*.
6. Uncover the first syllable to reveal the whole word.
7. Use the signaling procedure and say, “**Blend.**” Sweep finger under each syllable.
8. Use the signaling procedure and say, “**Word?**” Slide hand under entire word.
9. If students have a difficult time pronouncing the word, place the word in context for them and ask them if it sounds like a word they know. Try to get them to adjust the pronunciation based on context and the structure of the sentence. If they still can’t get the pronunciation, tell them the word.

Set #1

1. dis/trust
2. pre/cut
3. re/fill

Set #2

1. re/turn
2. pre/heat
3. un/tuck

Set #3

1. un/tie
2. pre/pay
3. mis/place

Word Reading—Spelling Focused for Multisyllabic or Affixed Words (continued)

Example 4 – Two syllable words (with a suffix)

weak/ness

1. Cover the second syllable *ness*.
2. Use the signaling procedure to focus students on the potentially difficult spelling *ea* and say, “**Sound?**”
3. Use the signaling procedure and say, “**Blend.**” Sweep finger under *weak*.
4. Uncover the second syllable and cover the first syllable *weak*.
5. **Option #1** - If you have taught *ness* as a suffix:
Use the signaling procedure to focus students on *ness* and say, “**Suffix?**” and slide finger under *ness*.

Option #2 - If students have not learned the suffix *ness*:

Use the signaling procedure to focus students on the potentially difficult spelling *e* and say, “**Sound?**”

Use the signaling procedure and say, “**Blend.**” Sweep finger under *ness*.

6. Uncover the first syllable to reveal the whole word.
7. Use the signaling procedure and say, “**Blend.**” Sweep finger under each syllable.
8. Use the signaling procedure and say, “**Word?**” Slide hand under entire word.
9. If students have a difficult time pronouncing the word, place the word in context for them and ask them if it sounds like a word they know. Try to get them to adjust the pronunciation based on context and the structure of the sentence. If they still can’t get the pronunciation, tell them the word.

Set #1

1. fear/ful
2. clean/est
3. bak/ing (see A last page)
4. sad/dest (see B last page)

Set #2

1. price/less
2. cost/ly
3. hik/ing (see A last page)
4. hit/ter (see B last page)

Set #3

1. reck/less
2. proud/ly
3. rid/ing (see A last page)
4. hot/test (see B last page)

Word Reading—Spelling Focused for Multisyllabic or Affixed Words (continued)

Example 5 – One syllable words (with the inflectional ending *-ed*) *hugg(ed)*

1. Cover the inflectional ending *ed* and the doubled consonant (if there is one) to show just the base word.
2. Use the signaling procedure to focus students on the potentially difficult spelling in the base word *u* and say, “**Sound?**”
3. Use the signaling procedure and say, “**Blend.**” Sweep finger under *hug*.
4. Uncover the inflectional ending and cover the base word *hug* and the doubled consonant (if there is one).
5. Focus students on the inflectional ending *ed* and tell students, “**Say /d/.**” Slide finger under *ed*.
6. Uncover the base word to reveal the whole word.
7. Use the signaling procedure and say, “**Blend.**” Sweep finger under the whole word.
8. Use the signaling procedure and say, “**Word?**” Slide hand under entire word.
9. If students have a difficult time pronouncing the word, place the word in context for them and ask them if it sounds like a word they know. Try to get them to adjust the pronunciation based on context and the structure of the sentence. If they still can’t get the pronunciation, tell them the word.

Note on point 5: The teacher tells students to say the correct pronunciation of the *ed* ending because *ed* as an inflectional ending may represent one of three different sounds: /ed/ as in *painted*, /d/ as in *hummed* and /t/ as in *stopped*.

Set #1

1. shrugg(ed)
2. pric(ed)
3. flam(ed)

Set #2

1. tun(ed)
2. pluck(ed)
3. turn(ed)

Set #3

1. plac(ed)
2. hook(ed)
3. drain(ed)

June 2005 (Revised June 2007) DRAFT Templates, a product of the National Center for Reading First Technical Assistance (NCRFTA). Developed by the Western Regional Reading First Technical Assistance Center (WRRFTAC) in collaboration with Ashlock Consulting, Inc.

Word Reading—Spelling Focused for Multisyllabic or Affixed Words (continued)

Example 6 – Two syllable words (with two inflectional endings or suffixes) *play/er(s)*

1. Cover the second syllable *ers*.
2. Use the signaling procedure to focus students on the potentially difficult spelling *ay* and say, “**Sound?**”
3. Use the signaling procedure and say, “**Blend.**” Sweep finger under *play*.
4. Cover the first syllable *play* and place a dot between the two inflectional endings.
5. Focus students on *er* and say, “**Suffix?**” and slide finger under *er*.
6. Focus students on *s* and say, “**Suffix?**” and slide finger under *s*.
7. Uncover the first syllable to reveal the whole word.
8. Use the signaling procedure and say, “**Blend.**” Sweep finger under each syllable.
9. Use the signaling procedure and say, “**Word?**” Slide hand under entire word.
10. If students have a difficult time pronouncing the word, place the word in context for them and ask them if it sounds like a word they know. Try to get them to adjust the pronunciation based on context and the structure of the sentence. If they still can’t get the pronunciation, tell them the word.

*Practice words found on next page combined with Example 7.

Word Reading—Spelling Focused for Multisyllabic or Affixed Words (continued)

Example 7 – Three syllable words *in/ter/nal*

1. Place dots between the syllables (e.g., *in·ter·nal*).
2. Cover the second and third syllables.
3. Use the signaling procedure to focus students on the potentially difficult spelling *i* in the first syllable and say, “**Sound?**”
4. Use the signaling procedure and say, “**Blend.**” Sweep finger under *in*.
5. Cover the last syllable *nal*.
6. Use the signaling procedure to focus students on the potentially difficult spelling *er* in the second syllable and say, “**Sound?**”
7. Use the signaling procedure and say, “**Blend.**” Sweep finger under *ter*.
8. Uncover all syllables.
9. Use the signaling procedure to focus students on the potentially difficult spelling *a* and say, “**Sound?**”
10. Use the signaling procedure and say, “**Blend.**” Sweep finger under *nal*.
11. Use the signaling procedure and say, “**Blend.**” Sweep finger under each syllable.
12. Use the signaling procedure and say, “**Word?**” Slide hand under entire word.
13. If students have a difficult time pronouncing the word, place the word in context for them and ask them if it sounds like a word they know. Try to get them to adjust the pronunciation based on context and the structure of the sentence. If they still can’t get the pronunciation, tell them the word.

For all of the words below, see letter C below.

Set #1

1. fear/ful/ly
2. re/ap/pear
3. up/sett/ing
4. read/er(s)

Set #2

1. re/turn/ing
2. se/lec/tion
3. im/ple/ment
4. hik/er(s)

Set #3

1. im/por/tant
2. cor/rec/tion
3. per/son/al
4. help/er(s)

June 2005 (Revised June 2007) DRAFT Templates, a product of the National Center for Reading First Technical Assistance (NCRFTA). Developed by the Western Regional Reading First Technical Assistance Center (WRRFTAC) in collaboration with Ashlock Consulting, Inc.

The intellectual property represented in these materials, as well as the materials themselves, are protected by copyright. Additional Information About Multisyllabic Blending

- A. Before blending a word with an e-drop (hike + ing = hiking), you must decide if showing the e-drop helps or hurts with pronunciation. It usually helps. If it helps, follow this procedure to show the e-drop to students:
- Cover the second syllable with your e-drop index card
 - Show students there was an e dropped by writing e on the index card that is covering the second syllable. The e should be on the left hand side of the card so that it shows students where the e was in the base word, while the rest of the card works to cover the second syllable. For the word *liking*, the e card allows the teacher to prompt students to say the i_e sound. The e card is covering *ing*.

lik e

If the e-ending word does not have a vowel with a long sound, show students the e-drop only after you read the word (showing it first would hinder pronunciation, e.g., *shelving*).

- B. When you cover the first syllable in words like *saddest*, point out to students that the last consonant has been doubled. When you slide the index card over to cover the first syllable and uncover the last syllable, only show the suffix.
- C. With words of three or more syllables or two syllable words that have an inflectional ending that do not create a new syllable, it may be helpful to place dots between meaningful units after the word has been written on the board. An index card can still be used to help show doubling or e-drop if applicable (*play/er·s*, *in·for·ma·tion*).

Important Considerations

1. If students don't give the correct pronunciation when asked for the word, ask them to adjust the pronunciation. If they can't adjust the pronunciation in isolation, give them the approximation of the word in context. If they still can't adjust the pronunciation, tell them the correct way to pronounce the word.
2. If students make an error during any step in the above word reading techniques, use what you have learned previously on Card 10 regarding how to effectively correct errors and teach to mastery.
3. Explain to students that you are sliding and not sweeping on word parts that you want them to recognize as meaningful units (*for joyous*: sweep under *joy*, slide under *ous*).
4. If students are not having difficulty with the vowel sound, you can transition them away from the "Sound?" step by just asking them to blend a syllable. Make sure students realize that spotting the vowel spellings is an important part of the strategy on Card 16.
5. If the word has an e-drop, consonant doubling, or a more complex spelling change, help students notice this after they have read the word.
