Unit Title: Health Promotions and Disease Prevention

INSTRUCTIONAL UNIT AUTHORS
Douglas County School District
  Tyson Allen
  Angela Combs
  Paula Priest
Mapleton School District
  James Williams

BASED ON A CURRICULUM OVERVIEW SAMPLE AUTHORED BY
Adams Five Star School District
  Pam Gibble
Center School District
  Katrina Ruggles
Cherry Creek School District
  Jill Caplan
Douglas County School District
  Jennifer Maggiore
St Vrain School District
  Kenny Wildenstein
Rocky Mountain Health
  Jamie Hurley

This unit was authored by a team of Colorado educators. The template provided one example of unit design that enabled teacher-authors to organize possible learning experiences, resources, differentiation, and assessments. The unit is intended to support teachers, schools, and districts as they make their own local decisions around the best instructional plans and practices for all students.

DATE POSTED: OCTOBER 2015

Colorado 21st Century Skills

**Critical Thinking and Reasoning:** Thinking Deeply, Thinking Differently

**Information Literacy:** Untangling the Web

**Collaboration:** Working Together, Learning Together

**Self-Direction:** Own Your Learning

**Invention:** Creating Solutions

The Colorado Academic Standards for Health describes what learners should know and be able to do as they develop proficiency in health. The utilization of knowledge and skills to enhance physical, mental, emotional and social well-being will be supported in each unit through the standard areas of Physical and Personal Wellness, emotional and Social Wellness and Prevention and Risk Management.

<td></td>
</tr>
</tbody>
</table>
## Critical Content:
My students will **Know**...

- The inter-relationship between poor eating habits, inactivity, tobacco, and alcohol use and other stressors on their health status (CH09-GR8-S.2-GLE.4-E0.a,b,c;iQ.1,3,4;RA.1;N.2)
- The immune system’s functions (CH09-GR8-S.2-GLE.4-E0.d;iQ.1,2,4;RA.2,3;N.1)
- Potential health consequences of popular trends and fads (CH09-GR8-S.2-GLE.4-E0.e;RA.1;N.1,2)
- The signs, symptoms and preventions for diabetes, heart disease, and cancers (CH09-GR8-S.2-GLE.4-E0.d;iQ.1)

## Key Skills:
My students will be able to **Do**...

- Explain contributing factors for the status of a person’s health. (CH09-GR8-S.2-GLE.4-E0.a-iQ.1,4)
- Describe how the immune system functions to prevent and combat disease. (CH09-GR8-S.2-GLE.4-E0.a;iQ.1,4)
- Identify the potential health consequences of popular fads or trends. (CH09-GR8-S.2-GLE.4-E0.e;RA.1)
- Explain the global and financial effects diseases and decisions one makes about their own health and wellness. (CH09-GR8-S.2-GLE.4-E0.b;RA.1;N.1,2)

### Critical Language:
includes the Academic and Technical vocabulary, semantics, and discourse which are particular to and necessary for accessing a given discipline.

**EXAMPLE:** A student in Language Arts can demonstrate the ability to apply and comprehend critical language through the following statement: “Mark Twain exposes the hypocrisy of slavery through the use of satire.”

A student in _____________ can demonstrate the ability to apply and comprehend critical language through the following statement(s):

**I am responsible for the consequences of personal choice, trends and fads, and know the importance of the immune system, in order to set goals and make decisions to prevent communicable and non-communicable diseases.**

#### Academic Vocabulary:
- Trends, Fads, Goal Setting, Decision-making, Analyze, Consequence, Inter-relationship, Prevention

#### Technical Vocabulary:
- Immune System, Tobacco, Alcohol, Stressors, Diabetes, Heart Disease, Cancer, Non-communicable and Communicable Diseases
# Unit Description

The focus of this unit is for students to develop skills for advocating for the prevention of diseases. Students will explore the function of the immune system, investigate differences between communicable and non-communicable diseases, and make connections to how health trends and fads may impact local and global wellness. The unit culminates with a performance assessment that asks students to collaborate and create a campaign to promote awareness and prevention of communicable and non-communicable diseases.

## Considerations

As authors of this unit, we understand the following things may need to be considered:
- Not all students will be able to provide and/or receive constructive criticism.
- Number of students in class
- Time with students
- Integrating culture
- Background knowledge of students
- Access to technology
- Access to present to stakeholders

## Unit Generalizations

### Key Generalization:

The relationship between personal choices and physical health requires decision-making that considers long and short term consequences.

### Supporting Generalizations:

- Non-communicable and lifestyle-related diseases represent the costliest health care issue.
- Current trends and fads may influence personal decisions that impact an individual’s current and future health status.
- Health and wellness are personal choices that often manifest globally.
- The immune system helps prevent and combat communicable diseases.

## Performance Assessment: The capstone/summative assessment for this unit.

### Claims:

The relationship between personal choices and physical health requires decision-making that considers long and short term consequences.

### Stimulus Material:

You and your peers are a campaign team endorsing a politician running for an upcoming election. Your platform is prevention and awareness of communicable and non-communicable diseases (e.g. health care costs, obesity, heart disease, global epidemics). Each team member will have a role ([Campaign Team Members](#)).

Campaign team roles include:
- Campaign Manager
- Organizational Director
- Image Director
- Issues Director
- The Candidate

### Product/Evidence:

The students will develop a campaign promoting awareness and prevention of communicable and non-communicable diseases. A portfolio will need to be submitted prior to the presentation of the campaign speech. Documents to be included:
- Group roles
## Colorado Teacher-Authored Sample Instructional Unit

- Issue/ stance
- Completed WebQuest template
- Data
- Campaign Poster
- Action plan
- All materials to be utilized with the plan
- Draft of final presentation

### Differentiation:
(Multiple modes for student expression)

<table>
<thead>
<tr>
<th>Students may:</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Present information using a variety of different media (PowerPoint, Prezi, Keynote, Video, etc.)</td>
</tr>
<tr>
<td>- Either all or partial components of the portfolio may be provided by the teacher in the form of graphic organizers and/or templates that the student may complete independently.</td>
</tr>
<tr>
<td>- Allow the opportunity to submit a non-digital artifacts to include but not limited to clippings from newspapers, magazines, pamphlets, etc.</td>
</tr>
</tbody>
</table>

### Texts for independent reading or for class read aloud to support the content

<table>
<thead>
<tr>
<th>Informational/Non-Fiction</th>
<th>Fiction</th>
</tr>
</thead>
<tbody>
<tr>
<td><em>Kids with Courage: True Stories About Young People Making a Difference</em> – Barbara A. Lewis (820 lexile level)</td>
<td><em>The Fault in Our Stars</em> - Green, John (850 lexile level)</td>
</tr>
<tr>
<td><em>The Teen Guide to Global Action: How to Connect with Others (Near &amp; Far) to Create Social Change</em> - Barbara A. Lewis (880 lexile level)</td>
<td><em>Out of My Mind</em> - Draper, Sharon M. (700 lexile level)</td>
</tr>
<tr>
<td><em>It’s Your World—If You Don’t Like It, Change It: Activism for Teenagers</em> - Mikki Halpin (880 lexile level)</td>
<td><em>Running on Dreams</em> - Herb Heiman (880 – 1000 lexile range)</td>
</tr>
<tr>
<td><em>Regine's Book: A Teen Girl’s Last Words (True Stories)</em> - Regine Stokke (900 level)</td>
<td><em>The Disease</em> - Douglas T. Vale (850 lexile level)</td>
</tr>
<tr>
<td><em>Over It: A Teen’s Guide to Getting Beyond Obsessions with Food and Weight</em> - Carol Emery Normandi (1000 – 1090 lexile range)</td>
<td></td>
</tr>
<tr>
<td><em>Fat Chance: Beating the Odds Against Sugar, Processed Food, Obesity, and Disease</em> - Robert H. Lustig (880 lexile level)</td>
<td></td>
</tr>
</tbody>
</table>

### Ongoing Discipline-Specific Learning Experiences

<table>

</tr>
</thead>
<tbody>
<tr>
<td>Sample Speeches (speeches from 2012 election)</td>
</tr>
<tr>
<td>Campaign Team Members (Examples of possible roles)</td>
</tr>
</tbody>
</table>
## Skills:
- Explain contributing factors for the status of a person’s health.
- Describe how the immune system functions to prevent and combat disease.
- Explain the global and financial effects diseases and decisions one makes about their own health and wellness.

## Assessment:
The students will keep an ongoing portfolio of evidence (e.g. topic, stance, WebQuest template) that supports their campaign speech.

## Teacher Resources:
- [https://en.wikipedia.org/wiki/Political_campaign_staff](https://en.wikipedia.org/wiki/Political_campaign_staff) (Refer to Campaign Manager responsibilities.)

## Student Resources:

- [https://www.youtube.com/watch?v=fY1T9oIPCY](https://www.youtube.com/watch?v=fY1T9oIPCY) (America's Forgotten Pandemic: The Influenza of 1918)
Colorado Teacher-Authored Sample Instructional Unit

| Question: | To what extent will advances in genetics and science influence a person about health behaviors? |

Prior Knowledge and Experiences

These ongoing learning experiences build upon a presumed student working knowledge of concepts and skills such as a basic understanding of communicable and non-communicable diseases, the immune system and the relationship between stressors (e.g. poor eating habits, inactivity, drug use, etc.) a person’s health status and popular health trends and fads. However, many students may have varying family and cultural experiences.

Learning Experience # 1

The teacher may show a video clip of a campaign speech surrounding worldwide health issues so students can begin to consider the impact personal health choices have locally and globally.

Generalization Connection(s):

- The relationship between personal choices and physical health requires decision-making that considers long and short term consequences.
- Health and wellness are personal choices that often manifest globally

Teacher Resources:

- Sample Speeches (Speeches from 2012 election)
- Campaign Team Members (Examples of possible roles)
- [http://www.icpsr.umich.edu/icpsrweb/instructors/setups/notes/personal-chars.jsp](http://www.icpsr.umich.edu/icpsrweb/instructors/setups/notes/personal-chars.jsp) (Personal Characteristics of Candidates)
- [https://www.google.com/search?q=three+column+graphic+organizer&biw=1024&bih=750&tbm=isch&tbo=u&source=univ&sa=X&sqi=2&ved=0CCMQsARqFQoTCJ-3keWL68cCFYI_kgod0-kKGg](https://www.google.com/search?q=three+column+graphic+organizer&biw=1024&bih=750&tbm=isch&tbo=u&source=univ&sa=X&sqi=2&ved=0CCMQsARqFQoTCJ-3keWL68cCFYI_kgod0-kKGg) (Three column graphic organizer)

Student Resources:

- Campaign Team Members (Examples of possible roles)
- [https://www.google.com/search?q=three+column+graphic+organizer&biw=1024&bih=750&tbm=isch&tbo=u&source=univ&sa=X&sqi=2&ved=0CCMQsARqFQoTCJ-3keWL68cCFYI_kgod0-kKGg](https://www.google.com/search?q=three+column+graphic+organizer&biw=1024&bih=750&tbm=isch&tbo=u&source=univ&sa=X&sqi=2&ved=0CCMQsARqFQoTCJ-3keWL68cCFYI_kgod0-kKGg) (Three column graphic organizer)

Assessment:

Students will use a three column graphic organizer to assess their personal health choices and determine areas of strength and areas of improvement.
## Importantly... Differentiation:

**Access (Resources and/or Process)**

N/A

**Expression (Products and/or Performance)**

N/A

## Extensions for Depth and Complexity:

**Access (Resources and/or Process)**

N/A

**Expression (Products and/or Performance)**

## Critical Content:

- The inter-relationship between poor eating habits, inactivity, tobacco, and alcohol use and other stressors on their health status.

## Key Skills:

- Explain contributing factors for the status of a person’s health.
- Explain the global and financial effects diseases and decisions one makes about their own health and wellness.

## Critical Language:

- Goal Setting, Analyze, Inter-relationship, Prevention, Trends, Alcohol, Tobacco, Stressors, Campaign, Personal Choices

---

**Learning Experience # 2**

The teacher may provide a video explaining the process of the immune system so students can analyze how the immune system works to prevent and combat diseases.

**Generalization Connection(s):**

- The immune system helps prevent and combat communicable diseases.

**Teacher Resources:**

- [Kids Health Immune System Video](#) (A video describing the immune system process)
- [Matching Activity](#) (A quiz that goes along with the immune system video)
- [Assessment Activity](#) (Instructions on how to do the assessment)

**Student Resources:**

- [Matching Activity](#) (A quiz that goes along with the immune system video)
- [Assessment Activity](#) (Instructions on how to do the assessment)

**Assessment:**

Students will create a script (e.g. pictogram, narrative, play, or cartoon) that portrays how the immune system prevents and combats diseases.
## Colorado Teacher Authored Sample Instructional Unit

### Differentiation:
(Multiple means for students to access content and multiple modes for students to express understanding.)

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>The teacher may:</td>
<td>Students may:</td>
</tr>
<tr>
<td>● Provide a written sheet with a summary of the immune system before the video</td>
<td>● Choose their own disease to research</td>
</tr>
<tr>
<td>● Allow access to video after the presentation for further reflection</td>
<td>● Reduce quantity of artifacts submitted</td>
</tr>
<tr>
<td>● Provide notes after session from teacher so students may check their work or complete any missing information</td>
<td>● Verbally report out on their reflection verbally or in recording device</td>
</tr>
<tr>
<td>● Pre-teach academic vocabulary</td>
<td>● Allow any presentation to be done 1:1 with teacher or recorded in lieu of presenting in front of peers</td>
</tr>
<tr>
<td>● Allow use of computer or smart phone to access online dictionary</td>
<td>● Type on Word Processor</td>
</tr>
<tr>
<td>● Provide picture-rich background materials to link vocabulary to prior knowledge or experience.</td>
<td>● Work with a partner</td>
</tr>
<tr>
<td>● Provide visual organizers</td>
<td></td>
</tr>
<tr>
<td>● Provide graphic organizers</td>
<td></td>
</tr>
</tbody>
</table>

### Extensions for depth and complexity:

<table>
<thead>
<tr>

<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>The teacher may give students the opportunity to present their stories to the class</td>
<td>Students may create a video of their stories for the morning announcements</td>
</tr>
</tbody>
</table>

### Critical Content:
- The immune system's functions

### Key Skills:
- Describe how the immune system functions to prevent and combat disease.

### Critical Language:

### Learning Experience # 3

The teacher may introduce various diseases so students can begin to differentiate between communicable and non-communicable diseases.

### Generalization Connection(s):
- Non-communicable and lifestyle related diseases represent the costliest health care issue.
- The immune system helps prevent and combat communicable diseases.

### Teacher Resources:
- CDC Statistics (Top ten causes of death)
- Kahoot (game show like website)
- Sample t-chart (sample t-chart)
- Sample T-chart (T-chart instructions and worksheet)
### Assessment:
Students will use a T-chart to differentiate between communicable & non-communicable diseases and describe one characteristic of each disease.

<table>
<thead>
<tr>
<th><strong>Access (Resources and/or Process)</strong></th>
<th><strong>Expression (Products and/or Performance)</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>The teacher may:</td>
<td>Students may:</td>
</tr>
<tr>
<td>• Use Kahoot (game show like website) as a pre-assessment/post assessment</td>
<td>• Pre complete or partially complete graphic organizer</td>
</tr>
<tr>
<td>• Give the student cards to place on the wall with definitions on the back of the card</td>
<td>• Reduce quantity of artifacts submitted</td>
</tr>
<tr>
<td>• Provide stem starters for the T-Chart so students may understand the concept</td>
<td>• Verbally report out on their reflection verbally or in recording device.</td>
</tr>
<tr>
<td>• Provide notes after session from teacher so students may check their work or complete any missing information</td>
<td>• Type on Word Processor</td>
</tr>
<tr>
<td>• Pre-teach academic vocabulary</td>

<td></td>
</tr>
</tbody>
</table>

### Critical Content:
- The inter-relationship between poor eating habits, inactivity, tobacco, and alcohol use and other stressors on their health status
- The signs, symptoms and preventions for diabetes, heart disease, and cancers

### Key Skills:
Explain contributing factors for the status of a person's health.

### Critical Language:
Prevention, Immune System, Stressors, Diabetes, Heart Disease, Cancer, Non-communicable and Communicable
## Learning Experience # 4

The teacher may provide examples of research done on a WebQuest template so students can investigate signs and symptoms of diseases in order to develop their “campaign platform”.

### Generalization Connection(s):
- The immune system helps prevent and combat communicable diseases.
- The relationship between personal choices and physical health requires decision-making that considers long and short term consequences.

### Teacher Resources:
- Symbaloo (Webmix with valid resources for students to access)
- WebQuest Instructions (Website of information on how to create WebQuests)
- WebQuest Rubric Example (Example of a rubric)
- [http://www.taconichills.k12.ny.us/webquests/noncomdisease/](http://www.taconichills.k12.ny.us/webquests/noncomdisease/) (Webquest example)
- [http://www.icpsr.umich.edu/icpsrweb/instructors/setups/notes/personal-chars.jsp](http://www.icpsr.umich.edu/icpsrweb/instructors/setups/notes/personal-chars.jsp) (Personal Characteristics of Candidates)

### Student Resources:
- Symbaloo (Webmix with valid resources for students to access)
- WebQuest Instructions (Website of information on how to create WebQuests)
- WebQuest Rubric Example (Example of a rubric)
- [http://www.icpsr.umich.edu/icpsrweb/instructors/setups/notes/personal-chars.jsp](http://www.icpsr.umich.edu/icpsrweb/instructors/setups/notes/personal-chars.jsp) (Personal Characteristics of Candidates)

### Assessment:
Students will define communicable and non-communicable diseases and investigate the signs and symptoms by completing the WebQuest template. Students will collaborate to develop their “campaign platform” and select roles for the campaign.

### Differentiation:
(Multiple means for students to access content and multiple modes for student to express understanding.)

<table>

<tbody>
<tr>
<td>Trends, Fads, Decision-making, Analyze, Consequences, Global, Financial</td>
<td>The teacher may review guidelines for selecting valid and reliable resources so students can research and compare the global and financial effects of a selected disease to their own health and wellness.</td>
</tr>
</tbody>
</table>

### Generalization Connection(s):

● Health and wellness are personal choices that often manifest globally  
● Current trends and fads may influence personal decisions that impact an individual’s current and future health status.

### Teacher Resources:

- **Symbaloo** (Webmix with valid resources for students to access)
- **How to use Excel** (Tutorial for using Excel)
- **Rubric for Assessment** (Rubric to assess students’ learning)
- **WHO Pandemics** (Website of information that includes pandemics)

### Student Resources:

- **Symbaloo** (Webmix with valid resources for students to access)
- **TeensHealth** (Students can look at a broad spectrum of diseases and conditions)
- **WHO Pandemics** (Website of information that includes pandemics)
- **How to use Excel** (Tutorial for using Excel)
- **Rubric for Assessment** (Rubric to assess students’ learning)
### Assessment:
Students will collect data that supports their political stance and submit it in a spreadsheet format (e.g. Excel, Google). Students will populate data into charts and graphs and use the information in their campaign speeches.

### Differentiation:
(Multiple means for students to access content and multiple modes for student to express understanding.)

<tr>
<td>N/A</td>
<td>Students may investigate the financial effects of their disease in Colorado or local region.</td>
</tr>
</tbody>
</table>

### Critical Content:
- The inter-relationship between poor eating habits, inactivity, tobacco, and alcohol use and other stressors on their health status

### Key Skills:
- Explain the global and financial effects diseases and decisions one makes about their own health and wellness.

### Critical Language:
- Trends, Fads, Decision-making, Analyze, Consequences, Global, Financial

### Learning Experience # 7
The teacher may invite an elected official and/or a campaign team member to discuss their roles so students can assess their individual responsibilities for the final portfolio and campaign speech.

### Generalization Connection(s):
- The relationship between personal choices and physical health requires decision-making that considers long and short term consequences.

### Teacher Resources:
- [https://www.eduplace.com/graphicorganizer/](https://www.eduplace.com/graphicorganizer/) (Graphic organizers)
- Campaign Team Members (Team roles)

### Student Resources:

### Assessment:
Students will work with their campaign team to create and assemble their final portfolio and campaign speech. (e.g. Google drive)
