### About Prepared Graduate Statements (PGS)

All of Colorado’s Academic Standards were designed “backwards” from Prepared Graduate Statements. These statements were formerly known as Prepared Graduate Competencies but have been changed to reduce confusion with competency-based learning systems of instruction and assessment practices. The PGS identify the concepts and skills that all students who complete the Colorado education system must master to ensure their success in a postsecondary and workforce setting for each content area.

Each grade level expectation of the Colorado Academic Standards aligns to one or more of the PGS.
