This unit was authored by a team of Colorado educators. The template provided one example of unit design that enabled teachers, authors to organize possible learning experiences, resources, differentiation, and assessments. The unit is intended to support teachers, schools, and districts as they make their own local decisions around the best instructional plans and practices for all students.

The Colorado Academic Standards for Music are not intended to be taught in a linear (checklist of coverage) fashion, but rather should be implemented as a cyclical creative process. Each unit within this sample blueprint intentionally includes standards from all four music standards to illustrate this process-based philosophy.

- MU09-HSPP-S.4-GLE.1, MU09-HSPP-S.4-GLE.2, MU09-HSPP-S.4-GLE.3, MU09-HSPP-S.4-GLE.4

#### Inquiry Questions (Engaging-Debatable):
- How does the process of making music and performing it change us? (MU09-HSPP-S.1-GLE.1) and (MU09-HSPP-S.2-GLE.2,3) and (MU09-HSPP-S.3-GLE.2) and (MU09-HSPP-S.4-GLE.1,3)
- How do our cultural background, personal beliefs, and values influence our music choices?
- How can we derive criteria for making aesthetic judgments about music?
- How do various notation systems help us discover innate qualities of music?

#### Unit Strands
- Expression, Creation, Theory, Aesthetic Valuation

Critical Content:

My students will **Know**...

- Different sets of criteria for evaluating music aesthetically and making music choices. (MU09-HSPP-S.4-GLE.2,3)
- How the process of music-making promotes self-discovery both musically and personally. (MU09-HSPP-S.1-GLE.1-EO.d,e,f) and (MU09-HSPP-S.2-GLE.1,2,3)
- Various notation systems for understanding the nature of different kinds of music. (MU09-HSPP-S.1-GLE.2-EO.b) and (MU09-HSPP-S.3-GLE.1,3)
- Notation systems communicate the elements of music for the purposes of interpretation (MU09-HSP-S.1-GLE.1; MU09-HSPP-S.1-GLE.2-EO.b) and (MU09-HSPP-S.3-GLE.1,3)

Key Skills:

My students will be able to **Do**...

- Defend their music choices based on cultural or personal values and beliefs, orally or in writing. (MU09-HSPP-S.4-GLE.2,3)
- Write about music to communicate with a wider audience and for the purpose of self-reflection. (MU09-HSPP-S.4-GLE.3)
- Define structural systems within music (pitch relationships and rhythm) in order to enhance our ability to perform. (MU09-HSPP-S.3-GLE.1,3)
- Perform a variety of music individually and/or within an ensemble. (MU09-HSPP-S.1-GLE.1,2,3)
- Write, improvise, and arrange music to suit the interests of the individual performer or the ensemble (MU09-HSPP-S.2-GLE.1,2,3)
- Demonstrate practice habits that improve personal and ensemble performance (MU09-HSPP-S.1-GLE.1,2,3,4) and (MU09-HSPP-S.3-GLE.1,3)

Critical Language: includes the Academic and Technical vocabulary, semantics, and discourse which are particular to and necessary for accessing a given discipline.

**EXAMPLE:** A student in Language Arts can demonstrate the ability to apply and comprehend critical language through the following statement: “Mark Twain exposes the hypocrisy of slavery through the use of satire.”

A student in ______________ can demonstrate the ability to apply and comprehend critical language through the following statement(s):

- **Music choices and music-making are fundamental human endeavors that promote self-discovery through self-evaluation and evaluation others’ musical choices.**

**Academic Vocabulary:**

- Criteria, aesthetic, structural system, elements, beliefs, values, audience

**Technical Vocabulary:**

- Notation, pitch, rhythm, ensemble, perform, genre, compose, arrange, improvise
**Unit Description:** In this unit students will investigate the process of selection, preparation and performing music of various cultures and genres and how it influences our personal musical growth. Students will use evaluative tools to identify and react to musical and expressive elements. This unit will culminate in a final concert showcasing music of a variety of cultures and genres for the school and/or community.

**Considerations:** The authors of this unit intentionally left teacher and student resources sparse because the context and access to music will vary in each classroom. Teachers using this unit should choose the listening examples and performance repertoire examples based on their own needs for concert preparation. Consider including cultural music from a variety of sources, areas, languages, etc. The performances mentioned could be a single performance or a collection of performances occurring over the school year, depending on concert programming. Observation can be both formal and informal; examples include videos, modeling, and self-performance observations. There may be times within this unit when you want students to work in partners through discussion. The Think-Pair-Share model is a good way to accomplish these moments of reflection within an ensemble setting. **Performance Assessment:** *The capstone/summative assessment for this unit.*

**Claims:** (Key generalization(s) to be mastered and demonstrated through the capstone assessment.)

<table>
<thead>
<tr>
<th>Preparing for a performance brings about change in musical preference and perspective.</th>
</tr>
</thead>
</table>

**Stimulus Material:** (Engaging scenario that includes role, audience, goal/outcome and explicitly connects the key generalization)

You are a special event planner. You have been asked to organize a performance to showcase music of a variety of cultures and genres for your school and community. You and your peers will learn a variety of musical selections (both traditional and multi-cultural) to demonstrate at a public performance. Your selections will include large group and small group performances with some aspects of the music purposefully interpreted by the performers in the ensembles. Program notes outlining the learning experience will be shared with the audience during the performance.

**Product/Evidence:** (Expected product from students)

Students will analyze, synthesize, and describe how the performance preparation process influences and develops their personal musical preference and perspective. These analyses will consist of evaluations that include cultural awareness of the selected musical pieces, especially in regards to performance authenticity. Students will compare and contrast specific stylistic attributes and rehearsal techniques across various styles of music. Students will present artifacts (written description, programs notes, written analysis, poster, presentation (i.e. PowerPoint or Prezi), etc.) to demonstrate their understanding of how performance preparation can influence musical preference and perspectives. Insights gained from these analyses may be included throughout the performance.

**Differentiation:** (Multiple modes for student expression)

Students may use a variety of evaluation/program note formats such as:

- Individual presentations and performance
- Small group presentations and performance

**Skills:** The capability to read and perform printed music  
**Assessment:** Across the unit students will be evaluated through performance assessments and/or observation checklists.  
### Prior Knowledge and Experiences

Students should have access to “their” music and an understanding of what style/genre that they prefer. They should know about a few various genres such as, pop, country, rhythm & blues, classical, and jazz. It would be beneficial if students had knowledge of different cultural genres and or world music.

### Learning Experiences # 1 – 9

**Instructional Timeframe: Teacher Determined**

#### Learning Experience # 1

The teacher may direct students to explore personal musical perspectives so that students can create a personal musical preference inventory in their own language.

**Student Resources:**
- Student designed rubric/checklist

**Assessment:**
Students will collaborate in partner groups to fill out checklist/rubric on various musical elements within the introduced performance repertoire so students can begin to connect the selected elements from the checklist/rubric with evaluations/critiques of performances. Possible prompts could include: “What attributes do you see/hear in the piece we just read through?” (e.g. rhythmic syncopation in jazz, melodic sequence in a Baroque piece etc.). “What genre or era do you think this music fits within and why?”

#### Assessment:
Students will develop a program to include program notes and other criteria set by the instructor.
### Learning Experience # 7

The teacher may assist in developing an audience aesthetic feedback form so that students can consider the kinds of information/data they might collect in order to enhance an ensemble’s growth and progress.
