About Prepared Graduate Statements (PGS)

All of Colorado’s Academic Standards were designed "backwards" from Prepared Graduate Statements. These statements were formerly known as Prepared Graduate Competencies but have been changed to reduce confusion with competency-based learning systems of instruction and assessment practices. The PGS identify the concepts and skills that all students who complete the Colorado education system must master to ensure their success in a postsecondary and workforce setting for each content area.

Each grade level expectation of the Colorado Academic Standards aligns to one or more of the PGS:

1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

3. Participate and understand the benefits of regular physical activity.

4. Achieve and maintain a health enhancing level of physical fitness

5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings

6. Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury
Physical Education

Grade Level: Preschool
Standard: 1. Movement Competence and Understanding

Prepared Graduates
1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness

Preschool Learning and Development Expectation:
1. Travel in a variety of directions using basic locomotor skills, and demonstrate understanding of personal and general space

Indicators of Progress:
By the end of the preschool experience (approximately 60 months; 5 years old) students may:

- a. Move safely in a large group without bumping into others or falling while using locomotor skills
- b. Travel forward and sideways while changing directions quickly in response to a signal
- c. Perform movements to the rhythm of music
- d. Develop motor control and balance for a range of physical activities, such as walking, propelling a wheelchair or mobility device, skipping, running, climbing and hopping
- e. Develop motor coordination and skill in using objects for a range of physical activities, such as pulling, throwing, catching, pencil, bouncing or hitting balls and riding a tricycle
- f. Demonstrate the relationship of under, over, behind, next to, through, right, left, up, down, forward, backward and in front of by using the body and an object
- g. Understand movement concepts, such as control of the body, how the body moves (such as awareness of space and directionality), and that the body can move independently or in coordination with other objects

Examples of High Quality Teaching and Learning Experiences:
1. Supportive Teaching Practices/Adults May:
   1. Individuals travel successfully and safely with family members in a variety of activities such as walking, propelling a wheelchair or mobility devices, skipping, running, climbing and hopping
   2. Individuals participate in games that require movement
   3. The indoor and outdoor environments have appropriate amounts of space so that children are not crowded
   4. When necessary, physical space has been modified to meet the needs of individual children (refer to the Americans With Disabilities Act and Section 504 of the Rehabilitation Act of 1973)
   5. Creative movement activity is provided using obstacle courses or spoken songs and rhymes
   6. Equipment includes tricycles and other riding toys that children push with their feet and eventually pedal
   7. There are activities that have a range of appropriate ways to participate so that every child is successful
   8. Use movement activities to enhance stories, i.e. acting out the wild rumpus in Where the Wild Things Are
   9. Adults facilitate activities which develop children’s ability to jump, run, balance, climb, walk, skip, gallop, and slide, using a variety of equipment
   10. Alex, the paraprofessional who works with Penny, a child diagnosed with autism, shows her a picture of children walking on a balance beam and asks her to add it to her visual schedule as a cue for what activity would happen next. Penny walks on the balance beam twice with Alex modeling and reminding how to stand in line and takes turns

Examples of Learning/Children May:
1. Individuals who learn to move safely, effectively, and efficiently feel comfortable and confident in the performance of motor skills are likely to participate in health-enhancing forms of physical activity throughout life
2. Spatial awareness is critical for success in any movement-based activity
3. During the “The Beanbag Boogie” song, the children balance their beanbags and move without bumping into one another
4. Kate draws a hopscotch pattern with sidewalk chalk and jumps into each square
5. Mariam and lavavae run through the obstacle course set up on the preschool playground making sharp turns and jumping over hurdles. Miss Rhonda holds Jackson’s hand and assists him in moving through the obstacle course
6. Marcus and Sherman jump over the jump rope as Ms. Kathy and Mary swing it back and forth

Inquiry Questions:
1. In which movements are easy to control when in a large group?
2. Why is a certain amount of space needed between members of a group while the group is moving?
Prepared Graduates

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

Preschool Learning and Development Expectation:

2. Demonstrate balance

Indicators of Progress:

By the end of the preschool experience (approximately 60 months/5 years old) students may

a. Explore balancing on different body parts at different levels, becoming "like" a statue while making symmetrical and nonsymmetrical shapes

b. Demonstrate the relationship of under, over, behind, next to, through, right, left, up, down, forward, backward, and in front of by using the body and an object

Examples of High Quality Teaching and Learning Experiences:

Colorado Essential Skills and Real-World Application:

1. Individuals successfully ride a tricycle.
2. Individuals successfully get on and off a moving escalator.

Inquiry Questions:

1. How long could one safely remain in an upside down position?
2. Why is it easier to stand on two legs than one?
3. What happens to balance when one spins around?
4. Why was it easier for small children to crawl first before they learn how to walk?

Components of a Physically Literate Individual:

1. Individuals who learn to move safely, effectively, and efficiently and feel comfortable and confident in the performance of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
2. Individuals who learn the benefits of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
Physical Education

Grade Level: Preschool
Standard: 2. Physical and Personal Wellness

Instructions:
To leave feedback, click on the comment icon ( ) next to any item. You can then offer feedback and comments. Once you save your feedback, the icon will change color and show as a checkbox ( ) so you can keep track of your progress.

Prepared Graduates
4. Achieve and maintain a health enhancing level of physical fitness

Preschool Learning and Development Expectation:
1. Recognize the positive feelings experienced during and after physical activity

Indicators of Progress:
By the end of the preschool experience (approximately 60 months/5 years old) students may
a. Participate in activities that increase the heart rate
b. Participate in activities that require stretching the muscles
c. Begin to understand how daily activity and healthy behavior promote overall personal health and safety
d. Identify physical activity opportunities inside and outside of school

Examples of High Quality Teaching and Learning Experiences:
1. Colorado Essential Skills and Real-World Application:
   1. Individuals participate in fitness activities to have a healthy heart.
   2. Individuals set a base groundwork for lifetime physical fitness such as enjoying outside play.
   3. Individuals compare their heart rate.
   4. Individuals use sports equipment such as bicycles and tricycles that increases their heart rate.

2. Inquiry Questions:
   1. If your body could stretch like a rubber band, which activities would you like to be good at?
   2. What are different ways to make a heart beat faster?
   3. How does running make you feel?
   4. How many different ways can one move his or her body safely?
   5. How do you feel before exercising your body? After exercising your body?
   6. How do you feel after stretching?

3. Components of a Physically Literate Individual:
   1. Levels of exercise directly influence heart rate and overall health and fitness.
   2. Regular physical activity contributes to emotional well-being.
   3. Taking responsibility for one's own health is an essential step toward developing and maintaining a healthy, active life.
Physical Education

Grade Level: Preschool
Standard: 3. Social Emotional Wellness

Select Grade Level & Standard

Grade Level:
- Preschool
- Kindergarten
- First Grade
- Second Grade
- Third Grade
- Fourth Grade
- Fifth Grade
- Sixth Grade
- Seventh Grade
- Eighth Grade
- High School

Standard:
1. Movement Competence and Understanding
2. Physical and Personal Wellness
3. Social Emotional Wellness
4. Prevention and Risk Management

Once you save your feedback, the icon will change color and show as a checkbox (☑) so you can keep track of your progress.

Prepared Graduates

5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings

Preschool Learning and Development Expectation:

1. Demonstrate understanding of positive social interaction with teachers and peers.

Indicators of Progress:

By the end of the preschool experience (approximately 60 months/5 years old) students may

- Demonstrates understanding of positive social interaction
- Follows directions
- Recognizes and follows classroom rules
- Participates in group activities
- Demonstrates sharing and taking turns

Examples of High Quality Teaching and Learning Experiences:

Colorado Essential Skills and Real-World Application:

1. Individuals recognize that sharing and taking turns is important for positive social interactions.

Inquiry Questions:

1. Why is it important to follow directions?
2. Why is it sometimes difficult to wait for a turn?
3. Why is it important to share and take turns?
4. What are basic classroom rules?
5. What would a classroom without rules look like?

Components of a Physically Literate Individual:

1. Successful participation in games and activities requires following rules.
Physical Education

Prepared Graduates

6. Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

Preschool Learning and Development Expectation:

1. Understand basic safety rules and principles

Indicators of Progress:

By the end of the preschool experience (approximately 50 months/5 years old) students may

a. Follow teacher directions to use equipment properly
b. Follow teacher directions for safe participation in physical activity
c. Understand the importance of personal space during physical activity

Examples of High Quality Teaching and Learning Experiences:

Colorado Essential Skills and Real-World Application:

1. Individuals participate safely in physical activity
2. What would happen if did not use personal space?
3. Individuals move around large or without bumping into others

Inquiry Questions:

1. Is there a right or wrong to use equipment?
2. What would happen if did not follow teacher directions?
3. What would happen if did not use personal space?

Components of a Physically Literate Individual:

1. Basic safety rules can help prevent injury during physical activity
Physical Education
Grade Level: Kindergarten
Standard: 1. Movement Competence and Understanding

Prepared Graduates
1. Demonstrates the knowledge and skills to achieve and maintain a health-enhancing level of physical activity and fitness.

Grade Level Expectation: Kindergarten
1. Demonstrate body and spatial awareness through movement

Evidence Outcomes
Students Can:

a. Travel within a large group without bumping into others or falling while using a variety of locomotor skills
b. Demonstrate contrasts between slow and fast speeds while using locomotor skills
c. Travel in straight, curved, and zigzag pathways
d. Move in opposition and alternately
e. Move synchronously with others
f. Participate in chase-and-fee activities that include various spatial relationships
g. Jump over a stationary rope several times in succession using forward-and-back and side-to-side movement patterns
h. When moving in a group, how do you keep from bumping into each other?

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Individuals participate in games that require movement as a group.
2. Individuals travel successfully and safely in a variety of activities with a large group of friends and family members such as to the movies or a county fair.
3. Individuals create letters of the alphabet using their arms, legs, and torso.
4. Individuals follow a rhythmic pattern when jumping rope with friends.

Inquiry Questions:
1. When is moving at a fast speed safer, and when is moving at a slow speed safer?
2. Which animals use the same movements?
3. Why is it easier to move in the same direction in which a group is moving than to move against the group?

Components of a Physically Literate Individual:
1. Individuals who learn to move safely, effectively, and efficiently and feel comfortable and confident in the performance of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
2. Individuals who learn to move safely, effectively, and efficiently and feel comfortable and confident in the performance of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
3. Individuals who learn the benefits of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
**Prepared Graduates**

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

**Grade Level Expectation: Kindergarten**

2. Locate and move the major parts of the body

**Evidence Outcomes**

**Students Can:**

a. Move specified body parts in response to a variety of sensory cues such as auditory or visual
b. Identify body planes such as front, back, and side

**Academic Context and Connections**

**Colorado Essential Skills and Real-World Application:**

1. Individuals play "head, shoulders, knees, and toes" with parents.
2. Individuals identify body parts correctly.
3. Individuals identify the front, back, and side of the body.

**Inquiry Questions:**

1. Which body parts are unable to move?
2. Why do we walk on two feet?
3. Which are stronger - arms or legs? Why?
4. What in their arms and legs helps people to move?
5. When would it be important to be able to change directions quickly?

**Components of a Physically Literate Individual:**

1. Understanding the important relationship between the brain and its impact on physical performance and academic learning is integral in the development of the whole child.
2. The brain helps the body to learn how to move.
Physical Education

Grade Level: Kindergarten
Standard: 2. Physical and Personal Wellness

Select Grade Level & Standard

- Preschool
- Kindergarten
- First Grade
- Second Grade
- Third Grade
- Fourth Grade
- Fifth Grade
- Sixth Grade
- Seventh Grade
- Eighth Grade
- High School

Instructions

To leave feedback, click on the comment icon ( ) next to any item. You can then offer feedback and comments. Once you save your feedback, the icon will change color and show as a checkbox ( ) so you can keep track of your progress.

Prepared Graduates

4. Achieve and maintain a health enhancing level of physical fitness

Grade Level Expectation: Kindergarten

1. Understand that physical activity increases the heart rate, making the heart stronger

Evidence Outcomes

Students Can:

a. Identify the heart rate as an indicator of physical activity
b. Sustain physical activity for short periods of time
c. Identify activities that will increase the heart rate

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals participate in fitness activities to strengthen their heart.
2. Individuals identify technology that will allow heart rate monitoring and checking.

Inquiry Questions:

1. Which activities can you do for the longest time? Shortest time?
2. Are there other ways other than checking your heart rate to know that your heart is working hard?

Components of a Physically Literate Individual:

1. The heart is the most important muscle in the body.
2. Exercise directly influences heart rate and overall health and fitness.
3. Taking responsibility for one's own health is an essential step toward developing and maintaining a healthy, active life.
Physical Education
Grade Level: Kindergarten
Standard: 3. Social Emotional Wellness

**Prepared Graduates**

5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings

**Grade Level Expectation: Kindergarten**

1. Demonstrate respect for self, others, and equipment

**Evidence Outcomes**

**Students Can:**

a. Demonstrate the characteristics of sharing
b. Identify feelings that result from participation in physical activity
c. Participate as a leader and follower
d. Help to manage equipment
e. Play without interfering with others

**Academic Context and Connections**

**Colorado Essential Skills and Real-World Application:**

1. Individuals recognize when leading is necessary and when following is necessary.
2. Individuals recognize that sharing is an important part of working and playing with others.

**Inquiry Questions:**

1. Why is sharing sometimes difficult?
2. Would you rather be a leader or a follower? Why?
3. What would equipment look like if we didn’t take care of it?
4. How does participating with others in physical activity make you feel?
5. Why is it important to take care of equipment?

**Essential Reasoning Skills:**

1. Individuals recognize that taking care of equipment such as toys is an important responsibility.

**Components of a Physically Literate Individual:**

1. Physical education provides opportunities to reinforce healthy social and emotional behaviors.
2. Physical education provides opportunities to participate in different roles.
1. Prepared Graduates

5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings

2. Grade Level Expectation: Kindergarten

2. Demonstrate the ability to follow directions

3. Evidence Outcomes

Students Can:

a. Start and stop on an auditory and visual signal
b. Follow a simple series of instructions for an activity
c. Speak at appropriate times
d. Follow established class protocols

4. Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals follow established rules when engaging in physical activity in settings such as the community pool or public playground.

2. Individuals identify traffic rules that they see on the street.

Inquiry Questions:

1. Why is it important to follow directions when participating in physical education?

2. How is playing "red light, green light" similar to crossing the street?

Components of a Physically Literate Individual:

1. Respect for and commitment to rules is an underlying foundation of game play.
Physical Education

Grade Level: Kindergarten

- Prepared Graduates
  6. Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

- Grade Level Expectation: Kindergarten
  1. Apply safe practices, rules, and procedures

- Evidence Outcomes
  Students Can:
  a. Demonstrate safety awareness when using materials
  b. Participate in activity without colliding into other students
  c. Identify proper footwear for physical education

- Academic Context and Connections
  1. Colorado Essential Skills and Real-World Application:
     1. Individuals participate safely in a wide range of physical activities.
     2. Individuals visit a shoe store to identify proper footwear.
     3. Individuals observe people crossing a street to see how they are aware of their physical space and do not bump into each other.

  2. Inquiry Questions:
     1. What's the value of having special footwear for physical education?
     2. Why should shoes be tied tight?
     3. Why should exercise equipment be put away after it is used?
     4. Why is it important to not bump into others?
     5. What can you do to keep from bumping into others?
     6. How should your body look when you are paying attention to where you are going?

- Components of a Physically Literate Individual:
  1. Paying attention to safety guidelines can prevent injuries.
Physical Education

Grade Level: First Grade

Standard: 1. Movement Competence and Understanding

1. **Prepared Graduates**
   1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness

2. **Grade Level Expectation: First Grade**
   1. Demonstrate basic locomotor and nonlocomotor skills, and rhythmic and cross-lateral movements

3. **Evidence Outcomes**

   **Students Can:**
   a. Move in different directions and at high, medium, and low levels in space
   b. Demonstrate locomotor movements in a variety of pathways and levels
   c. Travel in forward and sideways directions using a variety of locomotor and nonlocomotor patterns, and change direction quickly in response to a signal
   d. Perform a simple dance step in keeping with a specific tempo
   e. Travel to a variety of rhythms changing time, force, and flow
   f. Manipulate objects such as jump ropes, scarves, hoops, and balls
   g. Balance at different levels on different body parts
   h. Demonstrate both static and dynamic balances
   i. Perform rhythmic movements using small musical aids

4. **Academic Context and Connections**

   **Colorado Essential Skills and Real-World Application:**
   1. Individuals move skillfully under a variety of movement conditions.
   2. Individuals successfully ride a two-wheeled bike without training wheels.
   3. Individuals ride a skateboard or skates.
   4. Individuals participate in games that require movement such as playing basketball or tag.
   5. Individuals participate in games that require the use of objects such as jump ropes and balls

   **Inquiry Questions:**
   1. If you were to invent a new locomotor movement, what would it look like, and what would you call it?
   2. Why are social dances so popular at group gatherings (wedding receptions, school dances, prom, quinceañera)?
   3. Why would someone want to know how to do the same thing in different ways?
   4. What does it mean to have rhythm?

   **Components of a Physically Literate Individual:**
   1. Individuals who learn to move safely, effectively, and efficiently feel comfortable and confident in the performance of motor skills and are more likely to participate in health-enhancing forms of physical activity throughout life.
   2. Movement to a beat or pattern activates the brain to facilitate learning.
   3. Individuals who learn the benefits of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
Prepared Graduates
1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness

Grade Level Expectation: First Grade
2. Demonstrate fundamental manipulative skills

Evidence Outcomes
Students Can:

a. Standing in place, dribble a ball continuously with one’s dominant hand
b. Throw an object with an overhand or underhand motion while stepping forward in opposition. Toss a ball to oneself using the underhand throw pattern, and catch it before it bounces
c. Catch a thrown large object with both hands
d. Kick a stationary object using a simple kicking pattern
e. Use body parts and light implements to strike stationary and moving objects

Academic Context and Connections
Colorado Essential Skills and Real-World Application:
1. Individuals participate in activities that require patterned movements such as playing softball or basketball.
2. Individuals recognize manipulative skills in games and sports by watching sporting events on television.
3. Individuals recognize manipulative skills in games and sports by watching friends and family members participate in sports.
4. Individuals demonstrate the skillful use of a variety of manipulatives.

Inquiry Questions:
1. How does one get better at throwing a ball?
2. What is the most effective way to throw a ball?
3. When is striking used in games and sports?
4. Is it easier to catch a bigger object or a smaller one? Why?
5. Individuals participate in activities that require the use of manipulatives.

Components of a Physically Literate Individual:
1. Individuals who learn to move safely, effectively, and efficiently and feel comfortable and confident in the performance of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
2. Patterned, rhythmic movement activates the brain to facilitate learning.
3. Many popular games and sports require the skillful manipulation of an object or objects.
4. Repetition improves the performance of motor skills.
Preparing Graduates:
2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

Grade Level Expectation: First Grade
3. Establish a beginning movement vocabulary

Evidence Outcomes

Students Can:
- a. Distinguish between a jog and a run, a hop and a jump, and a gallop and a slide
- b. Respond appropriately to a variety of cues
- c. Recognize personal space, high and low levels, fast and slow speeds, straight, curved, and zigzag pathways, balance, and twist
- d. Distinguish between personal space, general space, and boundaries

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Individuals perform movements safely on command.
2. Individuals recognize when to jog, run, hop, jump, gallop, or slide in an activity performed at home.

Inquiry Questions:
1. How can there be a game with no boundaries?
2. What are some similarities and differences of locomotor movements?
3. What makes a jog different from a run?
4. Why is it important to have personal space?
5. Which physical activities use each of the locomotor movements?

Components of a Physically Literate Individual:
1. The knowledge and understanding of concepts of movement and skill mechanics improve performance in a specific skill, and provide the foundation for transfer of skills in a variety of sports and activities.
2. Individuals who learn the benefits of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
Physical Education

Grade Level: First Grade

Standard: 2. Physical and Personal Wellness

Instructions

To leave feedback, click on the comment icon () next to any item. You can then offer feedback and comments.

Once you save your feedback, the icon will change color and show as a checkbox () so you can keep track of your progress.

Prepared Graduates

4. Achieve and maintain a health enhancing level of physical fitness

Grade Level Expectation: First Grade

1. Identify the body’s normal reactions to moderate and vigorous physical activity

Evidence Outcomes

Students Can:

a. Identify basic exercises that help to strengthen various muscles of the body, such as pushups, curl-ups, squats, planks, mountain climbers

b. Identify physical activities that require strong muscles

c. Identify heart beating faster, harder breathing, and sweating as reactions to exercise

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals can prevent injury by maintaining adequate muscular strength and endurance.

2. Individuals use a computer to find examples of safe exercises to improve muscular strength and endurance.

3. Individuals participate in activities that improve their health-related fitness.

4. Individuals identify equipment in parks and playgrounds that helps to build muscles.

Inquiry Questions:

1. Would you rather have strong arm and leg muscles, or a strong heart muscle? Why?

2. How could you work on improving your muscular strength?

3. What does your body feel like when you are running compared to when you are walking?

Components of a Physically Literate Individual:

1. Regular physical activity contributes to emotional well-being.

2. Taking responsibility for one’s own health is an essential step toward developing and maintaining a healthy, active lifestyle.

3. The body reacts positively to physical exercise.

Prepared Graduates
5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings

Grade Level Expectation: First Grade
1. Work independently and with others to complete work

Evidence Outcomes

Students Can:

a. Identify and demonstrate acceptable responses to challenges, successes, and failures
b. Invite others to use equipment before repeating a turn
c. Identify and demonstrate the attributes of being an effective partner or group member in physical activity
d. Help another student share space effectively

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Individuals share limited resources in a way that allows everyone access.
2. Individuals describe how to share equipment or technology with a partner.
3. Individuals include everyone in an activity such as inviting friends to participate in a game on the weekend.
4. Individuals participate in activities that require more than one person, such as team sports or recreational activities like rock climbing.

Inquiry Questions:
1. What is the most important quality of a good partner, and why?
2. What makes you a good partner?
3. What is different about working with someone rather than working by yourself?

Components of a Physically Literate Individual:
1. Physical education provides opportunities to practice and reinforce positive social behaviors.
2. Physical education provides opportunities to demonstrate responsible social behavior.
2. Follow the rules of an activity

Evidence Outcomes

Students Can:

- a. Perform movements within given parameters and guidelines
- b. Develop rules for an activity with teacher assistance, and participate in the activity while following the rules
- c. Follow the rules for simple games and activities
- d. Accept responsibility for one's behavior in a game situation

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals create games and physical activities that have rules.

Inquiry Questions:

1. Which rules for good behavior would you most want to see in your physical education class, and why?
2. Why is it important to follow the rules?
3. What would happen if there were no rules when playing a game?
4. How should rules be decided?

Components of a Physically Literate Individual:

1. Respect for and commitment to rules is an underlying foundation of game play.
2. Rules are important for enjoying game play.
Physical Education

Grade Level: First Grade

Instructions

Once you save your feedback, the icon will change color and show as a checkbox ( ) so you can keep track of your progress.

Prepared Graduates
6. Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

Grade Level Expectation: First Grade
1. Develop movement control for safe participation in games and physical activities

Evidence Outcomes
Students Can:
   a. Recognize appropriate safety practices in general space by throwing balls only when others are not in the direct line of the throw
   b. Demonstrate the ability to follow verbal and nonverbal instruction

Academic Context and Connections
Colorado Essential Skills and Real-World Application:
1. Individuals avoid injuring themselves or others when participating in physical activity.

Inquiry Questions:
1. Why does a person need to know how to follow directions if the directions are not given verbally?
2. Why should you not throw balls at other people?

Components of a Physically Literate Individual:
1. Individuals avoid injuring themselves or others when participating in physical activity.
Physical Education
Grade Level: Second Grade
Standard: 1. Movement Competence and Understanding

1. Prepared Graduates
   1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness.

2. Grade Level Expectation: Second Grade
   1. Demonstrate the elements of movement in combination with a variety of locomotor skills.

3. Evidence Outcomes
   Students Can:
   a. Demonstrate skipping, hopping, galloping, and sliding while transitioning on command.
   b. Demonstrate smooth transitions between sequential motor skills such as running into a jump.
   c. Move using the concepts of space awareness and movement control to run, hop, and skip in different ways in a large group without bumping into others or falling.
   d. Identify major characteristics of the skills of walking, running, jumping, hopping, and leaping.
   e. Correctly identify activities and the locomotor, non locomotor, and manipulative skill involved.

4. Academic Context and Connections
   a. Colorado Essential Skills and Real-World Application:
      1. Individuals move skillfully under a variety of movement conditions.
      2. Individuals participate skillfully in a variety of games at home that require movement such as playing tag, skipping, or jumping rope.
   b. Inquiry Questions:
      1. How is walking different from running?
      2. What activities require one to change movement skill during the activity?
      3. How can one perform a skill without thinking about it?
      4. If you could only master one of the locomotor movements, which one would you choose, and why?
   c. Components of a Physically Literate Individual:
      1. Individuals who learn to move safely, effectively, and efficiently feel comfortable and confident in the performance of motor skills and are more likely to participate in health-enhancing forms of physical activity throughout life.
      2. The different combinations or ways that movement can be performed are virtually limitless.
      3. The knowledge and understanding of concepts of movement and skill mechanics improve performance in a specific skill, and provide the foundation for transfer of skills in a variety of sports and activities.
      4. Individuals who learn the benefits of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
Prepared Graduates
1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness

Grade Level Expectation: Second Grade
2. Demonstrate control and balance in traveling and weight-bearing activities using a variety of body parts and implements

Evidence Outcomes

Students Can:

- a. Move to even and uneven beats using various locomotor movements
- b. Create a routine that includes two types of body rolls such as a log roll, egg roll, shoulder roll, or forward roll and a stationary balance position after each roll
- c. Jump rope repeatedly
- d. Throw, catch, strike, and trap objects while stationary or moving with a partner
- e. Balance objects on various body parts while in various positions
- f. Demonstrate static and dynamic balance on lines or low beams and benches

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Individuals participate in a variety of activities such as playing basketball with friends while maintaining control of the body.
2. Individuals participate successfully in activities that require balance.
3. Individuals participate in activities such as social dances that require movements to even and uneven beats.
4. Individuals participate in activities that require throwing and catching with a friend such as playing catch with a football.

Inquiry Questions:
1. Why is it important to be able to move in both even and uneven rhythms?
2. What does it mean to have rhythm?
3. What body parts are involved when one jumps rope?

Components of a Physically Literate Individual:
1. Individuals who learn to move safely, effectively, and efficiently and feel comfortable and confident in the performance of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
2. Individuals who learn the benefits of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
Prepared Graduates

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

Grade Level Expectation: Second Grade

3. Use feedback to improve performance

Evidence Outcomes

Students Can:
- Use instructor feedback to identify strengths and weaknesses
- Identify modifications to improve performance of a skill or physical movement

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Individuals receive feedback from family or community members to improve performance of a skill when playing games

Inquiry Questions:
1. When trying to improve skills, is it better to correct weaknesses or expand on strengths? Why?
2. What are the benefits of instructor feedback?

Components of a Physically Literate Individual:
1. The knowledge and understanding of concepts of movement and skill mechanics improve performance in a specific skill, and provide the foundation for transfer of skills in a variety of sports and activities.
2. The use of instructor feedback identifies strengths and weaknesses to improve performance.

Prepared Graduates
4. Achieve and maintain a health enhancing level of physical fitness

Grade Level Expectation: Second Grade
1. Identify healthy habits for personal wellness

Evidence Outcomes

Students Can:

a. Explain the fuel requirements of the body during physical activity and inactivity
b. Identify healthy food choices to fuel the body
c. Determine the proper amount of sleep to get every night
d. Identify changes in the body during exercise and how that makes you feel
e. Identify feelings resulting from challenges, successes, and failures in physical activity
f. Describe the role of water as an essential nutrient for the brain and body

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Individuals know the link between good nutrition and physical activity for being healthy.
2. Individuals ask their parents about healthy foods.
3. Individuals identify healthy foods on television or billboards.
4. Individuals experience a wide range of positive emotions and feelings through physical activity.
5. Individuals create a video demonstrating a wide range of emotions during physical activity.
6. Individuals examine the effects of limited water consumption after being physically active on a hot day (playing a sport or recreational activity, doing yardwork).

Inquiry Questions:
1. What are your favorite healthy snacks?
2. How do you face challenges, overcome failures, and celebrate successes in physical activity?
3. Do you feel better or worse when you get a lot of sleep at night? Why?
4. Why is water essential for the body?

Components of a Physically Literate Individual:
1. Physical activity affects overall health and fitness.
2. Taking responsibility for one’s own health is an essential step toward developing and maintaining a healthy, active lifestyle.
3. Food choices affect overall health and fitness.
4. Understanding the important relationship between the brain and its impact on physical performance and academic learning is integral in the development of the whole child.
5. Drinking water is important for physical health and well-being.
Physical Education

Grade Level: Second Grade
Standard: 3. Social Emotional Wellness

Once you save your feedback, the icon will change color and show as a checkbox ( ) so you can keep track of your progress.

Prepared Graduates
5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings.

Grade Level Expectation: Second Grade
1. Demonstrate positive and helpful behavior and words toward other students

Evidence Outcomes
Students Can:
- a. Describe how positive social interaction can make physical activity with others more fun
- b. Participate in a variety of group settings without distracting behavior
- c. Encourage others by using verbal and nonverbal communication

Academic Context and Connections
Colorado Essential Skills and Real-World Application:
- 1. Individuals encourage friends or peers.
- 2. Individuals brainstorm the forms of technology that have been used to make physical activity more fun.

Inquiry Questions:
- 1. Why should you be polite when playing in a group physical activity?
- 2. Why is it important to have good behavior, especially when in a group setting?
- 3. Is it easier or harder to work with peers to complete a task? Explain.
- 4. How can you encourage someone who is shy to participate in a physical activity?

Components of a Physically Literate Individual:
- 1. Successful participation in physical activity requires cooperation with others.
- 2. Group physical activities should be fun for everyone participating.
Physical Education

Grade Level: Second Grade

Prepared Graduates
6. Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

Grade Level Expectation: Second Grade

1. Apply rules, procedures, and safe practices in the classroom

Evidence Outcomes

Students Can:

a. Maintain safety within personal space while using implements
b. Follow safety rules in the gymnasium and on the playground

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals avoid injury when participating in a wide range of physical activities.
2. Individuals make time for participation in activities outside of school hours.
3. Individuals watch a video, and identify good safety practices.

Inquiry Questions:

1. What is a safety rule for running?
2. If you could implement only one safety rule for the gymnasium, what would it be?
3. How are safety rules the same for the playground and gym? How are they different?
4. Why is personal space even more important when you are using implements?
5. What is the proper way to play with a baseball bat?

Components of a Physically Literate Individual:

1. Paying attention to safety can prevent injuries.
2. Understanding safety rules for games can lead to greater enjoyment when playing them.
Physical Education
Grade Level: Third Grade
Standard: 1. Movement Competence and Understanding

Instructions
To leave feedback, click on the comment icon ( ) next to any item. You can then offer feedback and comments. Once you save your feedback, the icon will change color and show as a checkbox ( ) so you can keep track of your progress.

1 Prepared Graduates
1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness

3 Grade Level Expectation: Third Grade
1. Demonstrate a variety of motor patterns in simple combinations while participating in activities, games, and sports

5 Evidence Outcomes
Students Can:

a. Demonstrate changes of pathways, levels, forces, and direction with manipulatives such as hoops, streamers, and balls
b. Dribble in soccer or basketball while changing speed and direction
c. Demonstrate throwing, catching, striking, or trapping in an activity
d. Demonstrate skills of chasing, fleeing, and dodging to avoid others

6 Academic Context and Connections

4 Colorado Essential Skills and Real-World Application:
1. Individuals move successfully and skillfully under a variety of movement conditions in their daily activities such as playing basketball or playing tag with friends.
2. Individuals participate skillfully in a variety of games that require movement and skills.
3. Individuals combine locomotor movements in time to music while dancing at home or at a social dance.

5 Inquiry Questions:
1. How is dribbling a soccer ball different from dribbling a basketball?
2. Why are some games more enjoyable than others?
3. How do varying types of activity, challenges, and team versus individual activities contribute to enjoyment?
4. Why might your peers enjoy different games than you?

6 Components of a Physically Literate Individual:
1. The ability to combine skills in meaningful ways is critical for success in most forms of physical activity.
2. Games and sports have motor patterns that appear in simple combinations.
Prepared Graduates

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

Grade Level Expectation: Third Grade

2. Perform cross lateral and rhythmic exercises that make a brain-body connection

Evidence Outcomes

Students Can:

a. Describe, create, and demonstrate movements that require crossing the midline
b. Perform successfully a variety of jump-ropes skills using both short and long ropes, and jump to various tempos
c. Perform jumping, tossing, dribbling, or catching to music or rhythmic beat
d. Perform a basic tinikling step to 3/4 time (close, tap, and tap)
e. Balance demonstrating momentary stillness in symmetrical and nonsymmetrical shapes on a variety of body parts
f. Perform forward and backward rolls with variation
g. Combine two or more rotational skills

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals learn new movements such as jumping rope to engage the brain.
2. Individuals perform routines of physical movement that may include dance steps, jumping rope, or a variation of forward and backward rolls.

Inquiry Questions:

1. What must one think about when doing a forward roll?
2. Which activities are most effective for crossing the midline?
3. How does one use his or her mind in various activities and sports?
4. What are the benefits to combining activities such as jumping or dribbling to a rhythmic beat?

Components of a Physically Literate Individual:

1. Individuals who learn to move safely, effectively, and efficiently and feel comfortable and confident in the performance of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
2. Exercise is linked to healthy brain development, and certain movements such as cross-laterals, patterns, and rhythms are proven to be beneficial for making brain and body connections.
Prepared Graduates

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

Grade Level Expectation: Third Grade

3. Demonstrate understanding of how the use of self assessment aids in skill development

Evidence Outcomes

Students Can:

a. Use self feedback to identify strengths and weaknesses

b. Use instructor or self feedback to make adjustments that will improve performance

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals watch video of themselves to improve performance.

2. Individuals analyze performance through journaling or charting

Colorado Essential Skills and Meaning Making:

1. Individuals who use self feedback will more rapidly develop skills and gain confidence.

Inquiry Questions:

1. What is the advantage of instructor feedback over self feedback?

2. What is the advantage of self feedback over instructor feedback?

3. Why is important to evaluate your performance?

4. What are different ways you can self assess?

Components of a Physically Literate Individual:

1. The knowledge and understanding of concepts of movement and skill mechanics improve performance in a specific skill, and provide the foundation for transfer of skills in a variety of sports and activities.

2. The use of self feedback identifies strengths and weaknesses to improve performance.
Grade Level: Third Grade

1. Identify the benefits of sustained physical activity that causes increased heart rate and heavy breathing.

Evidence Outcomes

Students Can:

- Explain why the body perspires, the heart beats faster and breathing increases when participating in moderate to vigorous physical activity.
- Describe the relationship among the heart, lungs, muscles, blood, and oxygen during physical activity.
- Identify several moderate to vigorous physical activities (formal or informal) that provide personal pleasure.
- Locate heart rate on at least two different pulse points on the body.
- Discuss how drinking an adequate amount of water before, during, and after physical activity keeps the body hydrated.
- Demonstrate the ability to understand the concept of pacing during cardiovascular endurance activity.
- Explain how the intensity and duration of exercise affect heart rate during physical activity.

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals maintain healthy cardiovascular and respiratory system to prevent heart disease.
2. Individuals participate in a wide range of physical activities over a lifetime such as swimming, bicycling, running, or hiking.
3. Individuals participate safely in physical activity under a variety of environmental conditions such as high altitude, heat, humidity, or cold.
4. Individuals use a watch to monitor their heart rate.
5. Individuals compare the way riding a bicycle makes them feel to the way riding a skateboard makes them feel.
6. Individuals keep a chart for a month of all physical activities, listing the amount of time for each.

Inquiry Questions:

1. Which physical activities are the healthiest?
2. What factors help you to decide why you enjoy an activity or sport?
3. If you are bored with a current physical activity, how would you choose a new physical activity?
4. Does your body feel different after you bike than after you run?

Components of a Physically Literate Individual:

1. Physical activity affects heart, lungs, and muscles.
2. Physical activity affects the way one feels emotionally and physically.
3. Taking responsibility for one’s own health is an essential step toward developing and maintaining a healthy, active life.
4. Different levels of exercise affect heart rate and overall health and fitness.
3 Prepared Graduates

4. Achieve and maintain a health enhancing level of physical fitness

3 Grade Level Expectation: Third Grade

2. Understand that the body is composed of water, muscle, bones, organs, fat, and other tissues

3 Evidence Outcomes

Students Can:

a. Identify the location of the lungs and heart
b. Identify muscles and fat
c. Feel your heart beat after moderate to vigorous physical activity
d. Compare heart rate before, during, and after exercise, and explain that increasing the heart rate during physical activity strengthens the heart muscles
e.
f. Identify physical activities that cause the heart to beat faster

3 Academic Context and Connections

3 Colorado Essential Skills and Real-World Application:

1. Individuals understand the role of fitness in preventing chronic disease.
2. Individuals take a virtual tour of the body, focusing on the lungs and heart.
3. Individuals prevent heart disease by engaging in aerobic activity such as bicycle riding, or playing tag or basketball.
4. Individuals use a heart rate monitor to compare heart rate before, during, and after exercise.
5. Individuals compare body parts to parts of a car or a computer.

3 Inquiry Questions:

1. Do your heart and lungs feel different after you bike than after you run?
2. If entire bodies were made of fat, how would people move?
3. What would bodies look like if they had no bones?
4. Which of your favorite activities do you think contribute most to your heart beating faster?

3 Components of a Physically Literate Individual:

1. The amount of exercise done does directly influence heart rate and overall health and fitness.
2. The body is made up of different parts, and each part must be cared for with exercise.
### Physical Education

**Grade Level:** Third Grade

**Standard:** 3. Social Emotional Wellness

#### Prepared Graduates

5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings

#### Grade Level Expectation: Third Grade

1. Demonstrate positive social behaviors during physical activity

#### Evidence Outcomes

**Students Can:**

- a. Identify the positive behaviors of self and others
- b. Congratulate teammates and opponents upon conclusion of game or activity
- c. Follow directions, activity-specific rules, procedures, and etiquette with few reminders
- d. Encourage others regularly, and refrain from put-down statements
- e. Ask a partner to participate in a physical activity
- f. Congratulate friends for performing a skill correctly

#### Academic Context and Connections

**Colorado Essential Skills and Real-World Application:**

1. Individuals acknowledge the efforts of others when they have done something well such as sending a group email acknowledging the efforts of someone to other people.
2. Individuals are gracious winners and losers. For example, they shake the hand of a winning opponent.
3. Individuals initiate social interaction with someone they don’t know in a social situation such as a school dance.
4. Individuals send a text message to a friend asking him or her to join them in a physical activity such as playing Frisbee.

**Inquiry Questions:**

1. How should you congratulate someone when he or she wins, and you lose?
2. How does your body feel when you achieve success while working with others?
3. What is your role in maintaining a positive learning environment that everyone can enjoy?
4. Why is it important to be polite when you lose?

**Components of a Physically Literate Individual:**

1. Physical education provides opportunities to reinforce positive social behaviors.
2. Successful participation in physical activity requires cooperation with others.
3. Group physical activities should be fun for everyone participating.
4. How you behave when you win or lose influences how people look at you.

Prepared Graduates
6. Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

Grade Level Expectation: Third Grade
1. Identify ways to prevent injuries during physical activity

Evidence Outcomes

Students Can:
- a. Define how injuries can occur during physical activity
- b. Demonstrate understanding of when injuries occur during physical activity

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Safety is the responsibility of all participants.

Inquiry Questions:
1. What safety measures need to be taken before participating in physical activity?

Components of a Physically Literate Individual:
1. Personal strategies can be learned to develop and enhance healthy behaviors and to avoid or reduce potentially unsafe situations.
Physical Education
Grade Level: Fourth Grade
Standard: 1. Movement Competence and Understanding

1. Prepared Graduates
   1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness

2. Grade Level Expectation: Fourth Grade
   1. Identify the major characteristics of mature locomotor, non locomotor, manipulative, and rhythmic skills

3. Evidence Outcomes
   Students Can:
   a. Dribble and pass an object such as a basketball or soccer ball to a moving receiver (throw, catch, and kick to self or a partner)
   b. Demonstrate ability to adapt and adjust movement skills to changing conditions such as rising and sinking while twisting or using different rhythms
   c. Jump and land for height and distance using mature form
   d. Use a variety of manipulative to throw to a moving target, making the needed adjustments for skill improvement
   e. Create a rhythmic routine to music, including gymnastics, creative dance, or jump rope
   f. Demonstrate balances with control on a variety of objects such as a balance board, balance beam, or skates (ice or in-line)
   g. Transfer weight from feet to hands at fast and slow speeds using large extensions such as mule kicks, handstands, or cartwheels
   h. Distinguish and describe the similarities and differences of manipulative skills such as basketball and soccer dribbling or overhand and underhand
   i. Demonstrate efficient patterns of striking with and without an implement

4. Academic Context and Connections
   a. Colorado Essential Skills and Real-World Application:
      1. Individuals participate successfully in playground or backyard games to develop locomotor, non locomotor, manipulative, and rhythmic skills, such as catching and throwing baseballs or playing tag.
      2. Individuals participate in dances that are part of a community festival.
      3. Individuals participate successfully in balance activities such as skating or skateboarding.
      4. Individuals compare modern social dances to traditional social dances in terms of similar movement skills.
      5. Individuals identify the locomotor skills and rhythmic skills in modern devices found around the home such as bicycles.

5. Inquiry Questions:
   1. Which is more important - accuracy or speed? Why?
   2. Why is it important to know traditional dances?
   3. How can balance skills help to prevent injuries?
   4. Which is harder to learn - inline skating or ice-skating?

6. Components of a Physically Literate Individual:
   1. Skillful movers are more likely to participate successfully in physical activity over a lifetime.
   2. Good balance skills are important for lifelong wellness and injury prevention.
Prepared Graduates

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

Grade Level Expectation: Fourth Grade

2. Provide and receive feedback to and from peers using the major characteristics of mature locomotor and manipulative skills.

Evidence Outcomes

Students Can:

a. Use peer assessment tools to recognize and evaluate the critical elements of movement in a variety of physical activities

b. Identify critical elements of movements skills when watching a video for self or peer assessment

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals watch people performing sports to learn elements of movement for evaluating locomotor and manipulative skills.

2. Individuals use videos cameras to record elements of movement for evaluating locomotor and manipulative skills.

3. Individuals ask friends for advice about their performance of locomotor skills when playing games.

Inquiry Questions:

1. Why is it important to know the critical elements of movement?

2. Why is it important to improve physical skills?

3. What can a partner tell one about one's skills that he or she cannot see oneself?

4. Why is it helpful to give feedback to a peer?

5. When would peer feedback be inappropriate?

6. How can you give advice to a friend about how to improve at a physical activity?

Components of a Physically Literate Individual:

1. The knowledge and understanding of concepts of movement and skill mechanics improve performance in a specific skill, and provide the foundation for transfer of skills in a variety of sports and activities.

2. Ongoing feedback and assessment is necessary in determining the effectiveness of personal goal-setting strategies.
Prepared Graduates

4. Achieve and maintain a health enhancing level of physical fitness

Grade Level Expectation: Fourth Grade

1. Explain how the health-related fitness components are used to improve physical fitness

Evidence Outcomes

Students Can:

a. Identify and demonstrate flexibility exercises for major muscle groups
b. Identify health related components of fitness and demonstrate an exercise that positively impacts each component
c. Measure and record personal heart rate before, during, and after moderate to vigorous exercise
d. Identify and perform specific exercises that can be done to improve the muscular strength and endurance of various muscle groups
e. Explain the benefits of having good cardiovascular endurance
f. Distinguish healthy and balanced meals and snacks designed to enhance the performance of physical activities

Academic Context and Connections

Colorado Essential Skills and Science and Engineering Practices:

1. Individuals prevent lower back injuries when engaging in exercise

Colorado Essential Skills and Real-World Application:

1. Individuals understand the benefits of stretching and warming up before playing a community-organized sport.
2. Individuals complete a video comparison and analysis of safe and unsafe exercises.
3. Individuals create a video demonstration of exercises for each component of health-related fitness.
4. Individuals use a watch to monitor their heart rate before, during, and after performing physical activity.
5. Individuals watch a video or television, and compare the way professional athletes perform stretches to the way they perform stretches.
6. Individuals establish healthy habits for physical activity and nutrition such as tracking fat and caloric intake from nutritional information on food labels.
7. Individuals keep a computer log to track and analyze a daily diet.
8. Individuals use the internet to research healthy, balanced meals.

Inquiry Questions:

1. Do different types of physical activities produce different results?
2. Which health related component do you most need to improve? Which do you want to improve?
3. Which health related component is the most important? Why?
4. How will improving a component help when I participate in my favorite sport or physical activity?
5. If you managed a restaurant, what foods would be on the menu? Why?
6. Should children be allowed to eat whatever snacks they want? Why or why not?
7. Should people eat immediately before exercising? Why or why not?

Components of a Physically Literate Individual:

1. Healthy living requires knowledge of the health related fitness components.
2. The lack of knowledge regarding safety factors can adversely affect one’s ability to participate in physical activity.
3. Levels of exercise directly influence a person’s heart rate, and overall health and fitness.
Prepared Graduates

3. Participate and understand the benefits of regular physical activity.

Grade Level Expectation: Fourth Grade

2. Analyze opportunities for participating in physical activity and actively engage in teacher-directed and independent activities.

Evidence Outcomes

Students Can:

a. Understand the importance of participation in fitness-enhancing physical activities such as gymnastic clubs, community-sponsored youth sports, or activity clubs

b. Demonstrate appropriate warm-up procedures before participation in vigorous physical activity

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals establish healthy habits for physical activity such as tracking amount of time spent exercising daily.

2. Individuals use the Internet to research exercise programs.

Inquiry Questions:

1. Do you prefer participating in organized group activities such as youth basketball leagues or playing in unstructured physical activities such as pick-up basketball games? Why?

Components of a Physically Literate Individual:

1. A healthy diet and exercise program provides energy for performance and successful participation in recreational and competitive activities.

2. Taking responsibility for one's own health is an essential step toward developing and maintaining a healthy, active lifestyle.

3. People have many options to participate in organized physical activities outside of school.
Physical Education
Grade Level: Fourth Grade
Standard: 3. Social Emotional Wellness

Grade Level:
- Preschool
- Kindergarten
- First Grade
- Second Grade
- Third Grade
- Fourth Grade

Prepared Graduates
5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings.

Grade Level Expectation: Fourth Grade
1. Assess and take responsibility for personal behavior and stress management.

Evidence Outcomes
Students Can:
- Act in a safe and healthy manner when confronted with negative peer pressure during physical activity.
- Set a personal goal to improve a skill and work toward that goal.
- Describe and demonstrate responsible behavior and decision-making while participating in physical activity.
- Demonstrate respect for the person who is officiating.

Academic Context and Connections
Colorado Essential Skills and Real-World Application:
1. Individuals follow and respect established guidelines for behavior in a variety of settings.
2. Individuals use a computer to keep track of personal achievements in physical activities such as running or doing push-ups and pull-ups.

Inquiry Questions:
1. How does setting goals for physical activities help one to take on personal responsibilities in school work?
2. Why are officials necessary? What would be the result if there were no officials?
3. What are some of the ways you have seen others treat officials?
4. Why is it important to set personal goals?
5. Are you going to work harder for your goals if you write them out rather than just talk about them? Why?

Components of a Physically Literate Individual:
1. Taking personal responsibility for healthy behaviors is a foundation for lifetime wellness.
2. Recognizing that stress is a manageable part of life is important for an individual’s emotional development.
3. Recognizing that performing physical activities can help to manage stress is important.

Prepared Graduates
6. Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

Grade Level Expectation: Fourth Grade
1. Demonstrate knowledge of safe practices in a physical activity setting

Evidence Outcomes

Students Can:
- Explain safety considerations prior to participation in lead-up games (invasion, net/wall, target, and fielding/run-scoring games)
- Demonstrate the safe use of rackets, bats, and other long-handled implements
- Differentiate between safe and unsafe participation and environment
- Display safe and responsible behavior while engaging in fitness activities
- Develop with an instructor's help the safety rules for physical education

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Individuals learn how to avoid injury when using sports equipment.
2. Individuals analyze video clips of people engaging in a physical activity to learn safe and unsafe practices.
3. Individuals learn safe practices for skateboarding or bicycle riding.
4. Individuals learn that different physical activities such as football, skateboarding, bicycle riding, and skiing have different safe practices.

Inquiry Questions:
1. If a friend is engaging in unsafe behavior during recess, how would you handle it?
2. How would you explain why the behavior was unsafe?
3. How would your unsafe behavior affect your friends?
4. Why do some sports and games have similar safety practices? Why do some sports and games have different safety practices?

Components of a Physically Literate Individual:
1. Participation in physical activity requires attention to safety.
2. Athletes understand that not following safe practices for sports can lead to serious personal injuries.
Physical Education

Grade Level: Fifth Grade

Standard: 1. Movement Competence and Understanding

Select Grade Level & Standard

Grade Level:
- Preschool
- Kindergarten
- First Grade
- Second Grade
- Third Grade
- Fourth Grade
- Fifth Grade
- Sixth Grade
- Seventh Grade
- Eighth Grade
- High School

Standard:
1. Movement Competence and Understanding
2. Physical and Personal Wellness
3. Social Emotional Wellness
4. Prevention and Risk Management

Instructions
To leave feedback, click on the comment icon next to any item. You can then offer feedback and comments. Once you save your feedback, the icon will change color and show as a checkbox so you can keep track of your progress.

Prepared Graduates
1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness

Grade Level Expectation: Fifth Grade
1. Demonstrate mature form for all basic locomotor, nonlocomotor, manipulative, and rhythmic skills

Evidence Outcomes

Students Can:

a. Throw and catch objects such as basketballs, footballs, or frisbees, and demonstrate both accuracy and force
b. Punt a ball dropped from the hands at a target
c. Dribble a ball (by hand or foot) while preventing another person from stealing the ball
d. Volley an object continuously with a partner
e. Strike an object consecutively in a competitive or cooperative game
f. Demonstrate correct steps and patterns for dance (e.g., square, folk, modern, contemporary)
g. Perform a short or long rope jump routine to music with a partner or small group
h. Develop and refine a gymnastics or creative dance sequence, and demonstrate smooth transitions

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals engage successfully in activities utilizing manipulatives.
2. Individuals use a combination of skills to demonstrate self-expression and creativity.
3. Individuals analyze the basic locomotor, nonlocomotor, and rhythmic shifts of a social dance.
4. Individuals analyze the basic locomotor, nonlocomotor, and rhythmic shifts of people playing in a public park.

Inquiry Questions:
1. Will understanding these skills allow for participation in other activities later in life?
2. How could one perform a jump routine to different types of music?
3. Why does one need to know a variety of dances?
4. What can dance teach one about other sports?
5. How can one create a gymnastics routine without moving from one place to another?

Components of a Physically Literate Individual:

1. Those who learn to move safely, effectively and efficiently and feel comfortable and confident in the performance of motor skills are more likely to participate in health enhancing forms of physical activity throughout life.
2. Individuals who are more skilled are more likely to participate in physical activity over a lifetime.
3. The ability to dance can be an advantage in a variety of social situations.
4. Motor skills and movement patterns appear in a wide variety of physical activities.
Prepared Graduates

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

Grade Level Expectation: Fifth Grade

3. Understand why feedback can improve performance

Evidence Outcomes

Students Can:

a. Analyze and correct errors in throw, catch, hand dribble, foot dribble, striking a ball, and volley, and demonstrate control and accuracy

b. Analyze and correct errors in nonlocomotor and locomotor movements

c. Analyze and use basic offensive and defensive strategies, and apply rules in modified games and activities

d. Analyze and demonstrate a variety of social, folk, square, modern, jazz, or creative dance

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals analyze their own and others' movements while playing pick-up sport games such as basketball to develop their own skills.

2. Individuals with an understanding of offensive and defensive strategies will be confident to organize or join a variety of sports games.

Inquiry Questions:

1. Which skills can one take from other activities that will allow one to become better in your selected activity?

2. How do offensive strategies improve scoring opportunities?

3. How do defensive strategies help limit scoring opportunities?

4. What are the different tools one can use to analyze performance? What are the advantages of using one tool over another?

Components of a Physically Literate Individual:

1. Knowing and understanding concepts of movement and skill mechanics improve performance in a specific skill, and provide the foundation for transfer of skills in a variety of sports and activities

2. Ongoing analysis and feedback of performance accelerates skill development
Physical Education

Grade Level: Fifth Grade

Standard: 2. Physical and Personal Wellness

Select Grade Level & Standard

Grade Level:
- Preschool
- Kindergarten

Prepared Graduates

4. Achieve and maintain a health enhancing level of physical fitness

Grade Level Expectation: Fifth Grade

1. Demonstrate understanding of skill-related components of fitness and how they affect physical performance

Evidence Outcomes

Students Can:

a. Identify and demonstrate exercises that are used to develop agility, balance, coordination, power, reaction time, or speed

b. Create a plan using the six skill-related components to improve performance in a chosen activity

c. Differentiate between health related components and skill related components

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals participate effectively on a sport team by implementing training methods consistent with the requirements of the activity

2. Individuals identify examples of components of skill-related fitness that they use in outdoor activities such as climbing trees.

Colorado Essential Skills and Meaning Making:

1. Individuals use technology such as a personal computer to monitor an exercise program.

Inquiry Questions:

1. Which component of skill-related fitness do you like the most?

2. Which component of skill-related fitness is most important, and why?

3. In which component of skill-related fitness are you the strongest? How can you continue to improve in this component? How can you improve in the other components?

Components of a Physically Literate Individual:

1. Knowledge of skill-related components can influence fitness and physical performance.

2. Different physical activities require different combinations of agility, balance, coordination, power, reaction time, and speed.
Prepared Graduates

3. Participate and understand the benefits of regular physical activity.

Grade Level Expectation: Fifth Grade

2. Set personal goals for improving health-related fitness

Evidence Outcomes

Students Can:

a. Explain how the five health-related fitness components (body composition, cardiovascular endurance, flexibility, muscular endurance, and muscular strength) affect ability to participate normally in everyday activities

b. Compare results of fitness testing to personal health status and ability to perform various activities

c. Develop short term and long term fitness goals

d. Compare individual physical fitness goals with research-based standards for good health

e. Identify activities that will help to improve cardio-respiratory, muscular endurance, muscular strength, flexibility, and body composition

f. Accurately take a pulse at rest and during exercise

g. Identify the components of the FITT principle (frequency, intensity, time, type)

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals record and analyze fitness test results using fitness testing software.

2. Individuals keep a chart of all physical activities, listing the amounts of time for each.

3. Individuals compare the five health-related physical components to car parts, and explain how they are similar.

4. Individuals use the Internet to research national standards for good health and compare their personal wellness to national trends

Inquiry Questions:

1. What is the role of fitness testing in overall wellness?

2. How does physical fitness impact successful participation of a variety of activities?

3. How would you go about improving each component of physical fitness?

4. Why would you want to change the results of your physical assessment?

5. Which component do you need to improve? Want to improve?

6. Why is it important to have flexible muscles?

Components of a Physically Literate Individual:

1. Participation in moderate to vigorous daily activity is important to lifelong health.

2. It is important to choose activities that will enhance wellness.

3. Setting and working toward fitness goals is critical for positive behavior change.

4. Everyone can set personal fitness goals for themselves.
Physical Education
Grade Level: Fifth Grade
Standard: 3. Social Emotional Wellness

- Prepared Graduates
  5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings

- Grade Level Expectation: Fifth Grade
  1. Identify personal activity interests and abilities, and take responsibility for individual and team performance

- Evidence Outcomes
  Students Can:
  a. Accept responsibility for one's own performance without blaming others
  b. Develop confidence in self and others in a physical activity setting
  c. Try new activities and connect hard work and practice to success

- Academic Context and Connections
  1. Colorado Essential Skills and Real-World Application:
     1. Individuals can cope with adversity in a healthy manner such as talking with a parent about a problem.
     2. Individuals can use a social networking website to congratulate an opponent after competition.
  2. Inquiry Questions:
     1. Why do professional athletes sometimes blame others for their performance?
     2. Why do fans get so upset when their favorite team loses a big game, such as the Super Bowl or NBA Championship?
     3. What is the difference between being confident and being arrogant?
     4. What can losing a game or activity allow one to learn that winning can't?
     5. Why do teams sometimes shake hands with the opposition after competing?
  3. Components of a Physically Literate Individual:
     1. Participation in physical activity promotes positive emotional well-being.
     2. Winning is not the most important thing in playing sports.
     3. Losing can be an opportunity to learn.
     4. How one behaves when one wins or loses influences people's perception of him or her.
1. Prepared Graduates

5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings

2. Grade Level Expectation: Fifth Grade

2. Work cooperatively and productively in a group

3. Evidence Outcomes

Students Can:

a. Establish and accomplish goals in both cooperative and competitive activities
b. Identify and define the role of each participant in a group physical activity
c. Analyze possible solutions to a problem in a group physical activity, and come to a consensus on the best solution
d. Demonstrate the ability to resolve conflicts with peers

4. Academic Context and Connections

1. Colorado Essential Skills and Real-World Application:

1. Individuals identify and utilize the strengths of group members in a work setting.
2. Individuals make a video demonstrating conflict resolution through role play.
3. Individuals visit a rock-climbing gym with friends and determine the best path up a climbing wall.

2. Inquiry Questions:

1. What might one do to interact with a friend who refuses to participate in a group problem-solving activity?
2. How might one include a friend with a disability into the activity?
3. Do cooperative and competitive activities have similar or different goals?
4. How might one recommend resolving a dispute between two peers in a game?

3. Components of a Physically Literate Individual:

1. Participation in competitive sports and games requires cooperation.
2. Cooperation between teammates is important for solving complex problems.
3. Cooperation in physical activities prepares individuals to learn how to cooperate in other activities.

Prepared Graduates
6. Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

Grade Level Expectation: Fifth Grade
1. Implement safety procedures in the utilization of space and equipment

Evidence Outcomes

Students Can:
- a. Identify and participate in safe warm-up and cool-down activities
- b. Review components of safe participation and what constitutes a safe environment
- c. Review components of safe participation and what constitutes a safe environment
- d. Follow the rules of activities to maintain safe playing conditions
- e. Describe safe and unsafe practices for a variety of physical activities

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Individuals participate safely in a variety of physical activities.
2. Using a computer, individuals create a safety information sheet for a favorite physical activity.
3. Individuals learn safe practices for downhill skiing, climbing, or swimming at a public pool.
4. Individuals learn safe practices for playing on playground or at a park.

Inquiry Questions:
1. How will a proper warm-up and cool-down decrease injury risk?
2. What are ways to avoid injury in basketball? In softball or baseball? In soccer?

Components of a Physically Literate Individual:
1. Participating in a variety of physical activities requires attention to safety.

Prepared Graduates
1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness

Grade Level Expectation: Sixth Grade
1. Demonstrate beginning skills for a variety of activities, games, and sports.

Evidence Outcomes
Students Can:
- a. Volley an object repeatedly with a partner, using the forearm pass.
- b. Strike a ball continually against a wall and with a partner, using a paddle for the forehead stroke and backhand stroke.
- c. Strike an object consistently, using a body part so that the object travels in the intended direction at the desired height.
- d. Strike an object consistently, using an implement so that the object travels in the intended direction at the desired height.
- e. Dribble and pass a ball to a partner while being guarded.
- f. Throw an object accurately and with applied force, using the underhand, overhead, and sidearm movement (throw) patterns.
- g. Combine relationships, levels, speed, direction, and pathways in complex individual and group physical activities.
- h. Combine motor skills to play a lead-up or modified game.

Academic Context and Connections
Colorado Essential Skills and Real-World Application:
1. Individuals participate successfully in a variety of activities, games, and sports.

Colorado Essential Skills and Meaning Making:
1. Individuals create a game that utilizes levels, speeds, directions, and pathways.

Inquiry Questions:
1. Why are speed and accuracy important?
2. Why is it important to learn fundamental skills before advanced skills?
3. Which is more important to master first - accuracy or speed? Why?
4. How does one increase accuracy in a skill?
5. What are some sports that require more skill and strategy than others?

Components of a Physically Literate Individual:
1. Individuals who learn to move safely, effectively and efficiently and feel comfortable and confident in the performance of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
2. A strong foundation in physical education prepares an individual for a lifetime of successful participation in physical activity.
3. Activities, games, and sports require a variety of skills and strategies to be successful.
Prepared Graduates

1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness

Grade Level Expectation: Sixth Grade

2. Participate in activities that require problem-solving, cooperation, and team building.

Evidence Outcomes

Students Can:

a. Participate in initiative and cooperative activities.

b. Cooperates with a small group of classmates during activities, game play or team-building activities.

Academic Context and Connections

1. Colorado Essential Skills and Real-World Application:

a. Individuals use team-building activities to enhance group cohesion.

b. Individuals use problem-solving skills to overcome a physical challenge at home such as moving furniture safely without damage.

c. Individuals cooperate in a variety of physical tasks at home such as painting a house.

2. Inquiry Questions:

a. What activities require problem-solving, cooperation, and team-building? Why?

b. Is cooperation or competition more important? Why?

c. Is it more important to learn to compete first, or learn to cooperate first? Can one aid the other?

d. Why is team-building important?

3. Components of a Physically Literate Individual:

a. Individuals who learn to move safely, effectively and efficiently and feel comfortable and confident in the performance of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.

b. Physical education settings provide a problem-solving arena, with the problem able to be increased or decreased by changing a number of factors such as the number of participants, level of competition, and number of rules for activity.
Prepared Graduates

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

Grade Level Expectation: Sixth Grade

3. Demonstrate beginning strategies for a variety of activities, games, or sports.

Evidence Outcomes

Students Can:

a. Use basic understanding of the knowledge of strategies in activity settings such as moving to open space to receive a pass or intercepting an object.

b. Analyze and correct errors in movement patterns, and provide and use feedback from a peer or instruction technology.

c. Develop a cooperative movement game that uses locomotor skills, object manipulation, and an offensive strategy, and teach the game to another person.

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals show family members how to play a game that uses locomotor skills.

2. Individuals use the internet to study strategies of activities, games, or sports.

Inquiry Questions:

1. How can aspects of movement contribute to the successful outcomes of physical activity?

2. When would the use of video feedback be more useful for learning a skill than feedback from a peer or teacher?

3. What strategies could one use to improve performance?

Components of a Physically Literate Individual:

1. Knowing and understanding concepts of movement and skill mechanics improve performance in a specific skill, and provide the foundation for transfer of skills in a variety of sports and activities.

2. Technology can be used as a tool to improve physical performance. For example, pulse monitors maximize performance.

3. The implementation strategies is beneficial for all players to be successful in game situations.
Physical Education

Prepared Graduates

4. Achieve and maintain a health enhancing level of physical fitness

Grade Level Expectation: Sixth Grade

1. Understand and apply basic principles of training to improving physical fitness.

Evidence Outcomes

Students Can:

a. Correctly differentiate the body's response to physical activities of various exercise intensities

b. Record and analyze food consumption for one day, and make a plan to replace foods with healthier choices

c. Explain why dehydration impairs temperature regulation and physical and mental performance

d. Determine appropriate cardiovascular training zone

e. Perform flexibility exercises that will stretch particular muscles area for given physical activities

f. Identify, select, and participate in activities designed to improve self-diagnosed areas for improvement in health-related fitness components

g. Engage in moderate to vigorous physical activity at the target heart rate for a minimum of 60 minutes per day

h. Accurately identify activities that are aerobic and anaerobic

i. Determine the intensity of personal physical activity using the concept of perceived exertion.

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals create and implement a fitness plan that reflects current best practices about fitness.

2. Individuals use a heart rate monitor such as a clock or watch to measure intensity of activity and determine whether or not the intensity of their activity is appropriate.

3. Individuals participate safely in a training program. For example, parents sign up their children for YMCA or community center classes.

4. Individuals create a graph, plotting resting and exercise heart rates over an established period of time.

5. Individuals discuss with their family some ways they can become more physically active together.

Inquiry Questions:

1. Which are more important - short-term goals or long-term goals? Why?

2. What are all of the different ways that one can determine the intensity of an activity?

3. How are your physical activity habits similar to or different from the other members of your family? Why are they similar or different? Who in your family benefits the most from their activities?

4. What would a comprehensive, one-month fitness calendar include? How would this calendar change depending on the weather and available equipment?

Components of a Physically Literate Individual:

1. Knowledge of training principles is critical for developing an effective health-related fitness plan.

2. Physical activity has health and fitness benefits for all ages.

3. Taking responsibility for one's own health is an essential step toward developing and maintaining a healthy, active lifestyle.
Prepared Graduates

4. Achieve and maintain a health-enhancing level of physical fitness

Grade Level Expectation: Sixth Grade

2. Recognize how health-related and skill-related fitness components contribute to a health-enhancing lifestyle that embraces

Students Can:

a. Monitor the intensity of one's heart rate during physical activity.
b. Identify target heart rate.
c. Explain how the six skill-related fitness components (agility, balance, eye-hand coordination, power, speed, reaction time) affect ability to enhance participation in activities.
d. Develop and describe short-term and long-term fitness goals as they relate to improving health-related or skill-related components.
e. Identify activities that utilize enhanced skill-related components of fitness.
f. Compare results of fitness testing with research-based standards for self-improvement.

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals self-assess their fitness levels in order to make and implement a personal wellness plan.
2. Individuals use a heart rate monitor to keep activity within the recommended intensity level.
3. Individuals compare the heart rates of family members during physical activities.

Colorado Essential Skills and Meaning Making:

1. Individuals self-assess their fitness levels in order to set short-term and long-term goals.

Inquiry Questions:

1. Why can a peer of the same age and same size have a completely different pace during a cardiovascular activity?
2. Why is the concept of pace so important during both aerobic and anaerobic activities?
3. If you wanted to improve your cardiovascular endurance, what would your training look like?
4. What is your optimum heart rate for improving your cardiovascular endurance? How can you check and monitor this?
5. In which skill-related fitness component are you the strongest? How can you continue to improve in this component? How can you improve in other components?

Components of a Physically Literate Individual:

1. Cardio-respiratory endurance is extremely important for the prevention of heart disease.
2. Health-enhancing lifestyles require basic knowledge and understanding of skill-related and health-related components.
3. Combinations of skill-related components and health-related components are needed to participate in a variety of physical activities.
Prepared Graduates
3. Participate and understand the benefits of regular physical activity.

Grade Level Expectation: Sixth Grade
3. Identify opportunities in school and in the community for regular participation in physical activity to enhance physical fitness

Evidence Outcomes

Students Can:

a. Participate in self-selected activities that require muscular strength and endurance.
b. Strive to attain fitness goals through participation in physical activity of individual choosing.
c. Identify where individuals can engage in regular physical activity to meet their personal fitness goals

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Individuals establish physical activity goals relevant to a selected component of fitness such as deciding how many push-ups to do once a week.
2. Individuals use technology to document and record progress toward fitness goals such as tracking progress with a computer or keeping a journal.
3. Individuals recognize that there are physical activities available to people of all ages in their community.
4. Individuals are able to distinguish opportunities in school and at home that enhance physical activity and fitness.

Inquiry Questions:
1. Why should people of different ages have different fitness goals?
2. How does an individual demonstrate taking responsibility for his or her own physical fitness?
3. What muscular strength and endurance invention has made the most impact on people’s fitness?
4. What five muscular strength and endurance activities would you do to become physically fit? Would your choices stay the same in order to maintain your fitness level?

Components of a Physically Literate Individual:
1. An individual’s success in and enjoyment of physical activity choices are affected by changes in geographical and community setting, lifestyles, friends, and age.
2. Living a healthy lifestyle contributes to a positive self awareness, fewer illnesses, and more opportunities to be active.
3. Taking responsibility for one’s own health is an essential step toward developing and maintaining a healthy, active lifestyle.
Grade Level: Sixth Grade

Standard: 3. Social Emotional Wellness

Prepared Graduates
5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings.

Grade Level Expectation: Sixth Grade
1. Recognize diverse skill performance in self and in others and how diversity affects activities, games, and sport participation.

Evidence Outcomes
Students Can:

a. Evaluate individual responsibility in group efforts.
b. Accepts differences among classmates in physical development, maturation and varying skill levels.
c. Participate in activities that address diversity with individuals of various skill levels.
d. Exhibits responsible social behavior by cooperating with classmates, demonstrating inclusive behaviors.
e. Acknowledge and accommodate individual differences in others' physical abilities in small-group activities.

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Individuals work with others from a variety of cultural backgrounds in community sports leagues.
2. Individuals appreciate that others have different levels of skills and physical abilities.

Inquiry Questions:
1. Why might it be difficult to be the smallest person in class? The largest?
2. What variety of modifications could be made in a game of basketball, volleyball, or other game to include others of beginning to advanced skills on the same team?
3. Why is it important to encourage participation in physical activities regardless of skill level?
4. What are ways to include others who are physically unable to participate due to a disability?

Components of a Physically Literate Individual:
1. Physical activity experiences are enriched by the diversity of the participants.
2. Individuals of different physical skill levels can make a contribution to a group activity.

Learning Experience and Transfer:
1. All participants in a group activity can make a contribution and have responsibilities.
5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings.

Grade Level Expectation: Sixth Grade

2. Choose to participate cooperatively and productively in group and individual physical activities.

Evidence Outcomes

Students Can:

a. Help others with physical activity challenges.
b. Contribute ideas, and listen to the ideas of others in cooperative problem-solving activities.
c. Officiate an activity, game, or sport.
d. Demonstrate conflict resolution behavior in socially appropriate ways.
e. Demonstrate cooperation skills by establishing rules and guidelines for resolving conflicts.
f. Problem solves with a small group of classmates during adventure activities, game play or team-building activities.

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals solve problems or help to negotiate a conflict among friends.

Colorado Essential Skills and Meaning Making:

1. Individuals interact with people such as officials, teachers, and coaches who are in leadership roles in a sport or game setting.

Inquiry Questions:

1. How might one interact with a friend who dominates the discussion in a cooperative problem-solving activity?
2. What are ways to include others who are physically unable to participate due to an injury?
3. Does your view of talking to officials change when you are an official yourself?
4. Why is resolving conflicts more important than winning a game?

Components of a Physically Literate Individual:

1. Successful participation in physical activity requires communication and cooperation.
2. Individuals with different opinions and physical skill levels can participate and contribute to activities.
Physical Education

1. Prepared Graduates

6. Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

2. Grade Level Expectation: Sixth Grade

Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

3. Evidence Outcomes

Students Can:

a. Identify proper safety equipment for various physical activities.

b. Describe and demonstrate the correct form to push, pull, and lift heavy objects.

c. Identify appropriate footwear and clothing for safe participation in various activities.

d. Create a list or poster that describes safety rules while participating in physical activities, with or without the help of an instructor.

e. List the benefits and risks of following and not following safety rules associated with physical activity.

f. Use physical activity and fitness equipment appropriately and safely, with the teacher’s guidance.

4. Academic Context and Connections

5. Colorado Essential Skills and Real-World Application:

1. Individuals can prevent lower-back injuries by lifting heavy objects using proper form.

2. Individuals select proper footwear at a store for when they participate in physical activity. For example, they might buy basketball shoes versus cleats.

3. Individuals use technology to create a poster about safety.

4. Individuals look at the equipment in a sporting good store and determine its safety benefits.

6. Colorado Essential Skills and Meaning Making:

5. Inquiry Questions:

1. What is a possible risk of not following rules?

2. When and for which activities should helmets be mandatory, and when should they be optional?

3. How should people lift heavy objects?

4. What would be your number-one safety rule? Why?

5. Why do football players need to wear a lot of protective gear, and basketball players don’t?

7. Components of a Physically Literate Individual:

1. Injuries can be prevented through the use of proper movement technique.

2. Clothing and footwear are important considerations for safe participation in physical activity.
Physical Education

Grade Level: Seventh Grade

Standard: 1. Movement Competence and Understanding

1. Prepared Graduates
   1. Demonstrates the knowledge and skills to achieve and maintain a health-enhancing level of physical activity and fitness

2. Grade Level Expectation: Seventh Grade
   1. Combine the critical elements of movement and skills concepts

3. Evidence Outcomes
   Students Can:
   a. Design and perform movement sequences that combine traveling, balancing, and weight transfer into smooth, flowing sequences with changes in direction, speed, and flow.
   b. Cooperate with another student to create, develop, and refine movement routines based on a theme.
   c. Create a game, movement, dance, or sport with a group.
   d. Identify and describe key elements in the mature performance of overhand, sidearm, and underhand throwing, catching, kicking and punting, striking, tripping, dribbling (hand and foot), and volleying.
   e. Analyze movement patterns, and correct errors.
   f. Use principles from movement learning to establish, monitor, and meet goals for motor skill development.
   g. Compare and contrast the effectiveness of practicing skills as a whole and practicing skills in smaller parts.

4. Academic Context and Connections
   a. Colorado Essential Skills and Real-World Application:
      1. While practicing a sport with friends, individuals identify the key elements used to perform movement patterns.
      2. Individuals compare movement patterns of a sport with the movement patterns of everyday life.
   b. Inquiry Questions:
      1. Why do some physical activities require more complex movements than others?
      2. How does one determine what the goal is when creating a game, movement, dance, or sport with a group?
      3. What are some activities and sports in which balance and body rotation are integral for success?
      4. When would it be most effective to learn a skill in parts?
   c. Components of a Physically Literate Individual:
      1. There are similarities in movements and skill mechanics between different sports or activities.
      2. Individuals who learn to move safely, effectively, and efficiently and who feel comfortable and confident in the performance of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
      3. The knowledge and understanding of concepts of movement and skill mechanics improve performance in a specific skill, and provide the foundation for transfer of skills in a variety of sports and activities.
      4. Knowledge of critical elements for a variety of skills encourages connections and application of these elements when learning a new sport or activity.
Prepared Graduates
2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

Grade Level Expectation: Seventh Grade
2. Demonstrate beginning offensive and defensive strategies for individual and team physical activities and sports.

Evidence Outcomes

Students Can:

a. Diagram and demonstrate basic offensive and defensive strategies for individual and dual physical activities.

b. Develop an individual or dual game that uses a manipulative skill, two different offensive strategies, and a scoring system, and teach it to another person.

c. Reduces open space by using locomotor movements in combination with movement concepts.

d. Reduces open space on defense by staying close to the opponent as he/she nears the goal.

e. Uses a variety of passes, pivots and fakes; give and go to create open space.

f. Selects an effective defensive play based on the situation.

g. Transitions from offense to defense or defense to offense quickly.

h. Creates open space in net or wall games by varying force and directions and by moving opponent from side to side.

i. Selects offensive shot based on opponent's location.

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals understand how to modify or create a game/activity and adjust strategies as needed.

2. Individuals understand and are able to apply and adapt offensive and defensive strategies to real life physical activities and sports.

3. Individuals transfer knowledge of offensive and defensive strategies between a variety of physical activities and sports.

Inquiry Questions:

1. Why is it important to use a variety of offensive strategies in individual and/or team physical activities and sports?

2. Why is it important to use a variety of defensive strategies in individual and/or team physical activities and sports?

3. What are the benefits of creating open space?

4. How does one benefit from learning another individual or dual physical activity or sport?

5. How does knowing an opponent's positioning influence offensive or defensive strategy?

Components of a Physically Literate Individual:

1. Individuals who have an understanding of basic offensive and defensive strategies and can apply them in different physical activities and sport settings effectively, will more likely experience success and will want to continue to participate in physical activities or sports for a lifetime.

2. Knowing different offensive and defensive strategies and the benefits of each one, can contribute to making a more decisive, competent, and confident decision in real life game play situations.

Prepared Graduates

4. Achieve and maintain a health enhancing level of physical fitness

Grade Level Expectation: Seventh Grade

1. Understand and apply principles of physical fitness to create a personal fitness plan and set personal physical fitness goals.

Evidence Outcomes

Students Can:

a. Explain the principles of physical fitness (S.P.O.R.T.): specificity, overload, reversibility, progression, medium.
b. Incorporate the F.I.T.T. Principle into a fitness plan.
c. Create an individual physical activity portfolio.
d. Identify elements that comprise an age-appropriate fitness plan, according to an individual's age, level of fitness and goals.
e. Identifies and incorporates self-selected activities that are enjoyable into one's personal fitness plan.

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals use technology/apps to record and monitor their portfolio and fitness goals.
2. Individuals use the internet to find activities that will help them reach and maintain their fitness goals.

Inquiry Questions:

1. What are the benefits of having a personalized fitness plan?
2. Why is it important to find lifetime activities that you enjoy doing on a regular basis?
3. How can a SMART Goal and the F.I.T.T. principle coincide to make a successful fitness plan?

Components of a Physically Literate Individual:

1. Setting fitness goals is critical component to maintaining a healthy lifestyle.
3. Participate and understand the benefits of regular physical activity.

Grade Level Expectation: Seventh Grade

2. Demonstrates fitness knowledge and skills that maintain a health-enhancing lifestyle, while actively engaging in the participation of lifetime physical activities.

Evidence Outcomes

Students Can:

a. Maintains involvement in a physical activity, twice a week, outside physical education class.

b. Engages in a variety of strength and endurance fitness activities.

c. Participates in a variety of lifetime dual and individual sports, martial arts, or aquatic activities.

d. Identify moderate to vigorous muscle and bone strengthening physical activities.

e. Distinguish between health-related and skill-related fitness.

f. Design a warm-up and cool-down regime for a self-selected physical activity.

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Identify barriers related to maintaining a physically active lifestyle and seek solutions for eliminating those barriers.

Inquiry Questions:

1. What is the difference between dynamic and static stretches?

2. How does exercise and nutrition affect weight management?

3. Why is overall physical fitness separated into two different categories? (health vs. skill)

Components of a Physically Literate Individual:

1. By demonstrating competency in fitness knowledge and skills, one will feel confident and competent in engaging in a variety of lifetime physical activities of his or her choosing.

2. Demonstrating the ability to properly warm-up and cool-down will minimize the risk of injury.
Physical Education

Grade Level: Seventh Grade
Standard: 3. Social Emotional Wellness

Select Grade Level & Standard

- Preschool
- Kindergarten
- First Grade
- Second Grade
- Third Grade
- Fourth Grade
- Fifth Grade
- Sixth Grade
- Seventh Grade
- Eighth Grade
- High School

Grade Level Expectation: Seventh Grade

1. Demonstrate inclusiveness in and out of classroom settings

Evidence Outcomes

Students Can:

a. Seek out participation with, and show respect for a peer with varying skill ability in a variety of physical activities.
b. Participate in group cooperation games and adventure activities to encourage team building and fun.
c. Make suggestions to the instructor on how to modify a game to allow all members with varying skill abilities to participate.
d. Recognize the role of physical activity in getting to know and understand others of similar and different backgrounds

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals recognize and utilize the talents of others when solving a problem.
2. Individuals understand that others of different physical skill levels can make a contribution to a group activity.
3. Individuals appreciate that physical activities can be useful tools for getting to know other people. For example, community sports leagues are used for social networking.

Inquiry Questions:

1. Are some physical activities better for getting people to interact with each other? Which ones?
2. What is the value of team-building activities? How can what is learned in team-building activities be applied to other settings?
3. How could schools support a physically active environment outside of physical education classes?
4. Why is it important to learn to cooperate with many types of individuals from diverse backgrounds?
5. When would an individual participate in a cooperative activity outside of physical education?

Components of a Physically Literate Individual:

1. Physical activities are for people of all abilities.
2. Responsible participants demonstrate positive and appropriate interpersonal skills while participating in physical activity.
Physical Education
Grade Level: Seventh Grade

Prepared Graduates
6. Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

Grade Level Expectation: Seventh Grade
1. Understand and utilize safe and appropriate warm-up, pacing, and cool-down techniques for injury prevention and safe participation.

Evidence Outcomes
**Students Can:**
- Prepare a report, bulletin board, or poster on proper warm-up and cool-down procedures for a chosen activity.
- Identify proper warm-up and cool-down techniques.
- Explain that warm-up and cool-down activities prepare the body for physical activity and help to prevent injuries.
- Identify safety rules for the activity and area being used.
- Independently uses physical activity and exercise equipment appropriately and safely.

Academic Context and Connections
**Colorado Essential Skills and Real-World Application:**
1. Individuals talk to family members about how to participate safely in a physical activity.
2. Individuals practice proper warm-up and cool-down techniques at home.
3. Individuals practice warming up when participating in a variety of physical activities.

**Inquiry Questions:**
1. Does the time of year matter when cooling down after exercising?
2. Which warm-up activities are the most effective in preparing the body for movement?
3. Why is it important to be able to identify safety rules on your own?
4. Do different sports require more or less warming up than other sports?

**Components of a Physically Literate Individual:**
1. Safe participation in physical activity requires an individual to manage risks.
2. Warm-up and cool-down activities are important for safe participation in physical activities.
Physical Education
Grade Level: Eighth Grade
Standard: 1. Movement Competence and Understanding

Prepared Graduates
1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness.

Grade Level Expectation: Eighth Grade
1. Demonstrate competency in a variety of motor skills and movement patterns.

Evidence Outcomes
Students Can:
1. Use a variety of motor skill patterns to create a movement routine.
2. Create and perform a timed routine using rotational, balancing, and supporting skills.
3. Create, develop, and refine movement routines based on self-generated themes and self-selected music.
4. Integrate information from other subject matter into a movement activity or routine.
5. Describe and demonstrate how movement skills learned in one physical activity can be transferred and used to help to learn another physical activity.
6. Identify the characteristics of a highly skilled performance for the purpose of improving one’s own performance.

Academic Context and Connections
Colorado Essential Skills and Real-World Application:
1. Individuals participate in activities such as social dances that require the integration of skills and knowledge in their social life.
2. Individuals understand that the principles of locomotion provide the basics for new skill acquisition.
3. Individuals make decisions about the activities and sports in which they choose to participate as their interests change over their lifetime.

Inquiry Questions:
1. Which sport would be easiest or hardest to integrate into a movement routine, and why?
2. What are activities and sports in which balance and body rotation are integral for success?
3. Under which conditions could the transfer of skills be detrimental?
4. How can skill assessments be used to help analyze motor skills and movement patterns?

Components of a Physically Literate Individual:
1. Individuals who learn to move safely, effectively, and efficiently and who feel comfortable and confident in the performance of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
2. Knowing and understanding concepts of movement and skill mechanics can improve performance in a specific skill, and provide the foundation for transfer of skills in a variety of sports and activities.
Prepared Graduates
2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

Grade Level Expectation: Eighth Grade
2. Understand and apply game strategies to physical activities and sports

Evidence Outcomes
Students Can:

a. Diagram and demonstrate basic offensive and defensive skills and strategies in games and sports.
b. Apply locomotor, nonlocomotor, and manipulative skills to games and sports.
c. Diagram, explain, and justify offensive and defensive strategies in net/wall, target, invasion, and fielding/run scoring games.
d. Develop and teach a game that incorporates designated offensive and defensive space, a penalty system, and a scoring system.

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Individuals participate and apply game strategies in a wide range of sports and games in community-organized sports leagues.
2. Individuals implement effective offensive, defensive, and cooperative strategies to be successful in game situations.
3. Individuals understand that game strategy can increase enjoyment and participation in a range of activities.
4. Individuals understand that game strategy can increase enjoyment and participation in a range of activities.

Inquiry Questions:
1. Is it better to have a strong offense or a strong defense? Why?
2. As a defense, how does one decide where to force the offense to move with the ball in an invasion game? How does one decide (group decision-making), why does one decide (reading game strategy), and what does one decide (making game strategy)?
3. To what extent does strategy influence performance in competitive games and activities?
4. What would a game without a scoring system look like?

Components of a Physically Literate Individual:
1. Individuals who learn to move safely, effectively, and efficiently and feel comfortable and confident in the performance of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
2. A strong foundation in physical education prepares an individual for a lifetime of physical activity.
Physical Education

Prepared Graduates
4. Achieve and maintain a health enhancing level of physical fitness

Grade Level Expectation: Eighth Grade
1. Identify areas for growth and design personal goals utilizing assessment and program planning concepts.

Evidence Outcomes

Students Can:
a. Plan and implement an extended personal physical fitness plan in collaboration with an instructor utilizing assessment data.
b. Design and implement a program of remediation for three areas of weakness based on the results of health related fitness assessments.
c. Designs and implements a program to improve levels of health related fitness.
d. Maintains a physical activity for at least two weeks and reflects on activity levels as documented in the log.

Academic Context and Connections

Colorado Essential Skills and Real-World Application:
1. Identify sports or professions that utilize assessment data to improve an athlete's performance.
2. Individuals use technology such as computer spreadsheets to record activity goals, and monitor progress toward those goals.

Inquiry Questions:
1. What are the benefits to analyzing an individual's fitness assessment data?
2. Why are fitness plans not "one size fits all"?
3. Why is it important for an individual to identify areas of growth?

Components of a Physically Literate Individual:
1. Being able to use fitness assessment data allows for individuals to set realistic goals.
2. Fitness assessment data can be used to determine areas of growth for an individual.
Prepared Graduates
3. Participate and understand the benefits of regular physical activity.

Grade Level Expectation: Eighth Grade
2. Identify preferences for lifetime physical activity

Evidence Outcomes

Students Can:

a. Participate in a variety of recreational activities appropriate to a geographical area.

b. Match personal preferences in physical activities with each of the five components of health-related physical fitness (body composition, cardiovascular endurance, flexibility, muscular endurance, and muscular strength).

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals are able to choose physical activities that are appropriate for a home environment, such as stretching or jogging.

2. Individuals use the Internet to learn about the health benefits of physical activities appropriate to their area such as mountain biking, rock climbing, skiing, or hiking.

Inquiry Questions:

1. What recreational activities do you and your family participate in weekly, and where do you go to participate?

2. What is your favorite adventure sport?

Components of a Physically Literate Individual:

1. Physical activity choices have a positive effect on the individual's overall health.

2. Being aware of personal strengths, individual needs, and specific health risks is essential for safely starting a new physical activity.

3. A variety of physical activities can be performed in any geographical area.
Physical Education

Grade Level: Eighth Grade

Standard: 3. Social Emotional Wellness

Instructions

Once you save your feedback, the icon will change color and show as a checkbox ( ) so you can keep track of your progress.

Prepared Graduates

5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings.

Grade Level Expectation: Eighth Grade

1. Demonstrate respect for individual differences in physical activity settings.

Evidence Outcomes

Students Can:

a. Acknowledge the performance of others, regardless of the outcome.

b. Participate with others in all types of physical activity, regardless of their race or ethnicity, gender, or culture.

c. Practice conflict management and listening skills in a competitive atmosphere.

d. Demonstrate appropriate audience and participant behavior during class performances.

e. Responds appropriately to participants' ethical and unethical behavior during physical activity by using rules and guidelines for resolving conflicts.

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals appreciate the diversity of physical activity experiences in the broader community such as visiting a park and seeing the variety of people engaged in physical activities.

Inquiry Questions:

1. Why do some attendees at sporting events behave so badly?

2. What constitutes healthy competition?

3. What might one do if someone were being bullied because he or she showed poor physical fitness skills?

4. If peer pressure were nonexistent, how would you determine your choices for physical activity?

5. How might one peacefully resolve a dispute between friends? Between people who are not friends?

Components of a Physically Literate Individual:

1. Physical education can help individuals from different backgrounds to work together successfully.

2. Developing self-esteem, resiliency, tolerance, and coping skills support social and emotional health.

3. In order for all participants and spectators to experience the maximum benefit from games and sports, everyone must demonstrate knowledge and commitment to sportsmanship, rules, and safety guidelines.
Grade Level: **Eighth Grade**

Standard: **4. Prevention and Risk Management**

### Prepared Graduates

6. Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

### Grade Level Expectation: Eighth Grade

1. Apply rules, procedures, and safe practices to create a safe school environment with no reinforcement.

### Evidence Outcomes

**Students Can:**

- a. Maintain safety within personal space while using physical activity and fitness equipment.
- b. Follow safety rules in the gymnasium and in other physical activity settings.
- c. Makes appropriate decisions to ensure the safety of self and others during outdoor activities.
- d. Independently uses fitness equipment appropriately.
- e. Identifies specific safety issues associated with all physical activities.
- f. Identifies and demonstrates best practices for safe participation in all physical activities.

### Academic Context and Connections

#### Colorado Essential Skills and Real-World Application:

1. Individuals watch a video and analyze good and bad safety practices.
2. Having knowledge of proper use of physical activity and fitness equipment enables individuals to identify specific safety concerns regarding hazardous potential dangers

#### Inquiry Questions:

1. Why don’t you want to be outdoors when lightning is in the area?
2. Why is it important to check integrity of equipment on a regular basis?
3. How does quality equipment effect a safe school environment?

#### Components of a Physically Literate Individual:

1. Understanding and applying knowledge of safety will help prevent injuries and make physical activities more enjoyable for all involved.
Physical Education
Grade Level: High School
Standard: 1. Movement Competence and Understanding

Once you save your feedback, the icon will change color and show as a checkbox (☐) so you can keep track of your progress.

Prepared Graduates
1. Demonstrates the knowledge and skills to achieve and maintain a health enhancing level of physical activity and fitness

Grade Level Expectation: High School
1. Engage in a variety of lifelong physical activities at a competent level

Evidence Outcomes
Students Can:

1. Combine and apply movement patterns from simple to complex to participate successfully in activities such as aquatic, rhythmic/dance, combatives, outdoor adventure activities, and a variety of lifelong sports and games (Level 1)
2. Explain and demonstrate offensive, defensive and transitional strategies in lifelong sports and games. (Level 1)
3. Identify muscles in the body and how they relate to a variety of physical activity and human movement. (Level 1)
4. Explain and apply the skill-related components that enhance performance levels in activities such as aquatic, rhythmic/dance, combatives, outdoor adventure activities, and lifelong sports and games (Level 2)
5. Explain and demonstrate training practices that have the greatest impact on improvement of skill acquisition and performance in a variety of lifelong activities (Level 2)

Academic Context and Connections
Colorado Essential Skills and Real-World Application:
1. Individuals participate successfully in a wide range of physical activities over the course of their education, with the aim that such participation will continue through an individual's lifetime.
2. The knowledge and understanding of the concepts of movement improve performance in a specific skill, and provide the foundation for the transfer of skills in a variety of sports and activities.

Inquiry Questions:
1. How do skill-related components of fitness relate to success in lifelong activities?
2. Which lifelong physical activities do you think you'll be participating in throughout your lifespan? Why?
3. How can participating in lifelong activities impact your personal, career, and social life?
4. How could advance knowledge of offensive and defensive (game) strategy help you in other opportunities in life?

Components of a Physically Literate Individual:
1. Individuals who learn to move safely, effectively, and efficiently and who feel comfortable and confident in the performance of motor skills are more likely to participate in health-enhancing forms of physical activity throughout life.
2. A strong foundation in physical education prepares an individual for a lifetime of physical activity.
Prepared Graduates

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

Grade Level Expectation: High School

2. Recognize how movement concepts affect brain development

Evidence Outcomes

Students Can:

a. Analyze multiple movement patterns and their effects on the brain, such as: cross-lateral and midline movement patterns (Level 1)

b. Describe how exercise enhances brain development and academic success (Level 1)

c. Identify and evaluate personal physiological responses to physical activity (i.e., anxiety/stress, etc.) (Level 2)

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals participate in social activities that include rhythm, music, patterns, and cross-lateral movements such as social dance.

2. Individuals understand the effect that stress and anxiety can have on physical performance. People can take steps to control stress and anxiety, in their workplace.

Inquiry Questions:

1. How can movement facilitate or enhance learning in other disciplines?

2. How can one become more mentally prepared for competition and performance?

3. When is anxiety helpful, and when is it harmful in a competitive situation?

4. How does knowledge about movement and its effects on the brain help you in your future endeavors?

Components of a Physically Literate Individual:

1. Exercise is important for a healthy brain.

2. The important relationship between the brain and its impact on physical performance and academic learning is integral in the development of the whole child.
### Prepared Graduates

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics to learning and performing physical activities.

### Grade Level Expectation: High School

3. Apply rules, principles, problem-solving skills and concepts to traditional and nontraditional movement settings

### Evidence Outcomes

**Students Can:**

- a. Apply rules, protocols, and procedures to enhance game settings and maintain an organized game environment (Level 1)
- b. Analyze principles, utilize problem solving skills and provide feedback to support peers in activities (Level 1)
- c. Create or modify practice and training plans based on evaluative feedback of skill acquisition and performance in a variety of lifelong activities (Level 2)

### Academic Context and Connections

**Colorado Essential Skills and Real-World Application:**

1. Individuals who coach and referee have a higher understanding of game strategy and the capacity to apply critical thinking skills.

2. The ability to learn and apply rules and protocols are vital to future work settings and career paths.

**Inquiry Questions:**

1. What techniques can be employed to maintain motivation within a game setting as a peer coach or teammate?

2. How does an individual use strengths and weaknesses to create a plan for improvement?

3. How does knowing the rules, protocols, and procedures enhance an activity?

**Components of a Physically Literate Individual:**

1. The physically literate individual who can apply rules, protocols and procedures are more likely to participate in a variety of traditional and non-traditional movement settings.

2. The ability to provide and receive feedback is an essential skill for students to use and apply in various settings throughout their life.
Physical Education

Grade Level: High School

Standard: 2. Physical and Personal Wellness

Prepared Graduates

4. Achieve and maintain a health enhancing level of physical fitness

Grade Level Expectation: High School

1. Establish goals based on fitness assessment data, and develop, implement, and monitor an individual health and fitness plan

Evidence Outcomes

Students Can:

a. Develop a physical fitness plan that enhances personal health and wellness while making connections to FITT formula and Principles of Training (S.P.O.R.T.) (Level 1)

b. Create a food diary and analyze the nutritional impact in relation to your personal fitness goals (Level 1)

c. Participate in a variety of self-selected physical activities, and consider the value of each as it relates to personal fitness goals (Level 1)

d. Examine fitness assessment data, and develop a plan to show personal improvement toward achievement of fitness goals. This includes monitoring personal levels of fitness within each of the five health-related fitness (Level 1)

e. Evaluate individual measures of physical fitness in relationship to patterns of physical activity (Level 1)

f. Identify muscle groups needed to aid in the design of a personal fitness plan (Level 1)

g. Refine individual fitness goals for each of the five components of health-related physical fitness using research-based criteria (Level 2)

h. Apply advanced fitness training knowledge to the planning of an extended personal physical fitness program (Level 2)

i. Create, analyze and monitor a fitness plan personalized for a peer (Level 2)

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals investigate the economic impact of leading a healthy lifestyle.

2. Individuals use health-related fitness technology to compare fitness performance over several years.

3. Individuals research a physical fitness plan that integrates functional fitness activities in connection with lifelong wellness.

Inquiry Questions:

1. When one experiences a plateau in results in his or her fitness plan, what changes could be made to continue improvement?

2. How does one know that a fitness plan is effective?

3. How might one help a friend to develop personal fitness goals and a fitness plan that fits his or her individual lifestyle?

4. How do the health-related components of fitness relate to success in lifelong activities?

5. How could one modify their personal fitness plan to address physical activity opportunities outside of the school day?

Components of a Physically Literate Individual:

1. Continually reassess fitness levels in order to establish and work toward meaningful goals.

2. Regular assessment of physical activity is important for physical well-being.

3. Be personally responsible for and monitor one's own physical fitness levels and goals.
Prepared Graduates
3. Participate and understand the benefits of regular physical activity.

Grade Level Expectation: High School
2. Examine resources to maintain lifelong health and wellness

Evidence Outcomes

Students Can:

a. Research and identify physical activity and fitness opportunities in the community (Level 1)
b. Explain the requirements involved with participation in a variety of physical activities, such as cost, transportation, facilities (Level 1)
c. Monitor physical activity through the use of fitness based technology such as, pedometers, heart-rate monitors, and other fitness devices (Level 1)
d. Explain the benefits of participation in a variety of physical activities and their connections to lifelong wellness (Level 1)
e. Research and evaluate wise consumer choices about equipment and programs needed to successfully participate in a wide range of physical activities (Level 2)
f. Compare and contrast available fitness technologies and nutrition based applications (apps) and the effectiveness of their use (Level 2)

Academic Context and Connections

Colorado Essential Skills and Real-World Application:

1. Individuals access resources for physical activity participation throughout a lifetime such as public gyms, parks, and swimming pools.
2. Individuals select activity based equipment, and conduct research and analysis of brands and cost.
3. Individuals compare the cost of participating in an outdoor adventure sport such as mountain biking and a community-organized sport such as basketball.

Inquiry Questions:

1. What would be the benefits for employers to pay for memberships to fitness clubs?
2. How do TV commercials and other fitness advertisements try to influence one to buy certain products?
3. How does one decide on quality fitness facilities, equipment, and activities?
4. If you could create the ultimate physical activity facility, what would it include, where would it be located, and how much would it cost?
5. If you lived in a social sphere with absolutely no fitness resources such as facilities, modern equipment, or the internet, what would you do to reach and maintain optimal levels of health and fitness?
6. How should physical activity be prioritized between work and school?
7. What are the strengths and weaknesses of your community in regards to accessing a variety of physical activity opportunities?

Components of a Physically Literate Individual:
