COLORADO TEACHER-AUTHORED INSTRUCTIONAL UNIT SAMPLE

Unit Title: Health Related Components of Fitness

4th Grade

INSTRUCTIONAL UNIT AUTHORS
Adams 12 Five Star Schools
Aprille Vasu

Denver Public Schools
Jennifer Smith

East Grand School District
Lynn Burrows

BASED ON A CURRICULUM
OVERVIEW SAMPLE AUTHORED BY
Cherry Creek Public Schools
Matt Mundy

Colorado Springs School District 11
Jenny Rice

Douglas County School District
Joe Bishop

This unit was authored by a team of Colorado educators. The template provided one example of unit design that enabled teacher-authors to organize possible learning experiences, resources, differentiation, and assessments. The unit is intended to support teachers, schools, and districts as they make their own local decisions around the best instructional plans and practices for all students.

DATE POSTED: APRIL 3, 2015
## Colorado Teacher-Authored Sample Instructional Unit

<tr>
<td>Recognition and demonstration of movements and activities enhances the ability to assess and analyze health related physical fitness. (PE09-GR.4-S.2-GLE.1-EO.b,d; IQ.2; RA.4,5)</td>
<td>What are the primary components of fitness?</td>
<td>What are some activities that improve fitness?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>How does physical fitness impact successful participation of a variety of activities?</td>
</tr>
</tbody>
</table>
## Critical Content:

**My students will Know...**

- Components of fitness (PE09-GR.4-S.2-GLE.1-EO.c)
- Healthy heart rate and adequate water intake. (PE09-GR.4-S.2-GLE.1-EO.b) (PE09-GR.4-S.2-GLE.2-EO.a)
- Personal performance fitness goals. (PE09-GR.4-S.2-GLE.3-EO.b)
- Health related component of fitness and their importance to overall health. (PE09-GR.4-S.2-GLE.1-EO.b) (PE09-GR.4-S.2-GLE.3-.a) (PE09-GR.4-S.2-GLE.2-EO.b)
- The F.I.T.T. principle. (PE09-GR.4-S.2-GLE.1-EO.a)
- Proper form to be used when lifting heavy objects. (PE09-GR.4-S.4-GLE.1-EO.b)

## Key Skills:

**My students will be able to (Do)...**

- Demonstrate an activity for each component of fitness. (PE09-GR.4-S.2-GLE.1-EO.c)
- Record heart rate and water intake. (PE09-GR.4-S.2-GLE.1-EO.b) (PE09-GR.4-S.2-GLE.2-EO.a)
- How to compare personal performance fitness goals. (PE09-GR.4-S.2-GLE.3-EO.b)
- Identify the health related component of fitness and their importance to overall health. (PE09-GR.4-S.2-GLE.1-EO.b) (PE09-GR.4-S.2-GLE.3-.a) (PE09-GR.4-S.2-GLE.2-EO.b)
- Explain the F.I.T.T. principle. (PE09-GR.4-S.2-GLE.1-EO.a)
- Identify the proper form to lift heavy objects. (PE09-GR.4-S.4-GLE.1-EO.b)

## Critical Language:

Inclues the Academic and Technical vocabulary, semantics, and discourse which are particular to and necessary for accessing a given discipline.

**EXAMPLE:** A student in Language Arts can demonstrate the ability to apply and comprehend critical language through the following statement: *"Mark Twain exposes the hypocrisy of slavery through the use of satire."*

**A student in ______________ can demonstrate the ability to apply and comprehend critical language through the following statement(s):**

**Improvement of personal fitness is developed through an understanding of health related fitness concepts that will promote life-long wellness.**

### Academic Vocabulary:

- Measurement, Comparison, Physical Activity, Fitness, Demonstrate, describe,

### Technical Vocabulary:

- Cardiovascular Endurance, Fitness, Muscular Endurance, Muscular Strength, Flexibility, Body Composition, Speed, Agility, Power
# Colorado Teacher-Authored Sample Instructional Unit

## Unit Description:
This unit advances understanding and application of the 5 components of health related fitness as it impacts a student’s daily health and wellness. The focus is on developing skills to measure initial personal fitness levels and creating personal fitness goals based on analysis of the health related components, the FITT principle, nutritional choices and overall wellness. This unit culminates with students presenting healthy recommendations when faced with a fitness or nutritional challenge.

## Considerations:
As fellow teachers, we understand that food, nutrition and fitness can be a challenging aspect to teach in physical education. With that said, please consider the following:
- District requirements
- Economic Status of families
- Equipment resources
- Administrative support
- Cultural considerations

Additional considerations may include:
- Time spent with students (e.g. length of class, # of days a week)
- Part time teacher vs. full time teacher
- Available space

## Unit Generalizations

### Key Generalization(s):
- Documentation and analysis of factors that influence fitness will establish an understanding of how the body functions
- Documentation and comparison of personal performance results provides streamlined analysis of personal growth to promote lifelong fitness

### Supporting Generalizations:
- Recognition and demonstration of movements and activities enhances the ability to assess and analyze health related physical fitness

## Performance Assessment: The capstone/summative assessment for this unit.

### Claims:
(Key generalization(s) to be mastered and demonstrated through the capstone assessment.)
- Documentation and analysis of factors that influence fitness will establish an understanding of how the body functions
- Documentation and comparison of personal performance results provides streamlined analysis of personal growth to promote lifelong fitness

### Stimulus Material:
(Engaging scenario that includes role, audience, goal/outcome and explicitly connects the key generalization)

As a group of student fitness trainers, you have been asked to address specific fitness and nutrition questions for an interview with a youth magazine. You will choose one of the following fitness questions and one of the following nutrition questions:

**FITNESS**
1. How do I train to run an entire race?
2. How do I prevent getting so tired in my soccer practice?
3. What can I do before and after an activity to prevent a muscle strain?
4. How may I reach my push up goal?

**NUTRITION**
1. What type of snack should I eat before a practice/game?
2. In the lunchroom, what are some healthy options to fuel my body for activity?
3. How much water should I drink on a daily basis?
4. When should I consume a sports drink to replenish my body?
You will create a presentation that answers your fitness and nutrition questions. Your presentation will include advice for home and at school. It will identify the fitness component and include an example of goal setting and healthy snack/meal choices.

**Product/Evidence:**
(Expected product from students)

Student will create a presentation in a form of video, poster, YouTube video, flyer or a school-wide morning announcement/video. Presentation will include two instructional fitness recommendations (e.g. select apple instead of candy bar as a snack, ride your bike 3 times a week for at least 30 minutes, play an active game at recess). Students will conclude with a personal reflection on how they will use their learning experience to make healthy personal choices.

**Differentiation:**
(Multiple modes for student expression)

- The presentation may be in the form of video, poster, YouTube channel, flyer or a school-wide morning announcement/video.
- The teacher may select student groups and specific questions.
- Students may present one on one to the teacher.

### Texts for independent reading or for class read aloud to support the content

**Informational/Non-Fiction**

*Physical Best Activity Guide* by Lori Borsdorf and Boyd Boeyink

**Fiction**

### Ongoing Discipline-Specific Learning Experiences

### Colorado Teacher-Authored Sample Instructional Unit

#### 3. Description:
Think/work like a fitness trainer: Making healthy choices

#### Teacher Resources:

#### Student Resources:

#### Skills:
Identify healthy choices for meals and snacks that help to improve physical performance

#### Assessment:
Students will differentiate between nutritionally healthy versus unhealthy snacks for a week.
(Fresh fruits vs. fruit snacks, apples vs. potato chips)

Create a snack log for the week.

### Prior Knowledge and Experiences

The learning experiences build upon a presumed student working knowledge of nutrition, health and fitness such as (e.g. heart rate principles, body adapting to workload, moderate to vigorous physical activity, cardiovascular endurance and nutritional choices to fuel the body). However, not all students may have the same nutritional choices and/or fitness opportunities at home. This unit will continue to introduce and develop skills to measure initial personal fitness levels and create personal fitness goals based on analysis of the health related fitness components, the FITT principle, nutritional choices and overall health.

### Learning Experience # 1

The teacher may review the F.I.T.T. principle so students can begin assessing personal fitness activity levels.

#### Generalization Connection(s):
Documentation and analysis of factors that influence fitness will establish an understanding of how the body functions

#### Teacher Resources:
*Physical Best Activity Guide* by Laura Borsdorf & Lois Boeyink (Page 13 - Figure 2.1 Building Physical Fitness)

#### Student Resources:

#### Assessment:
Students will complete a one week take-home activity diary (refer to student resources) to record and evaluate their activity level based on their FITT principle.

#### Differentiation:
(Multiple means for students to access content and multiple modes for students to express understanding.)

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Teacher may provide additional time</td>
<td>Students may verbally provide information about their weekly physical activity to the teacher</td>
</tr>
</tbody>
</table>
Extensions for depth and complexity: | Access (Resources and/or Process) | Expression (Products and/or Performance) |
---|---|---|
N/A | Students may provide a presentation to their peers about their personal activity diary |

Critical Content:
- FITT principle

Key Skills:
- Explain the FITT principle
- Identify the health related component of fitness and their importance to overall health

Critical Language: Fitness, Cardiovascular Endurance, Muscular Endurance, Muscular Strength, Flexibility, Body Composition, Physical Activity, Frequency, Intensity, Time, Type

Learning Experience # 2

The teacher may introduce the safety protocol for fitness activities so students can comprehend safe participation and injury avoidance behaviors for physical activities.

Generalization Connection(s): Documentation and comparison of personal performance results provides streamlined analysis of personal growth to promote lifelong fitness

Teacher Resources:
- [https://www.google.com/search?q=Dynamic+vs.+static+stretches+for+kids&biw=1093&bih=514&tbm=isch&tbo=u&source=univ&sa=X&ei=gupcVOK8F4GtyATC34D4Cg&ved=0CC8QsAQ](Images of dynamic vs. static stretches for kids)

- [http://www.nba.com/media/nbafit/medicine_ball_training.pdf](Medicine ball training for kids)

Assessment:
Students will demonstrate proper dynamic and static stretching and demonstrate correct form for lifting heavy objects (e.g., Stretch bands, varied sizes of medicine balls).

Differentiation: (Multiple means for students to access content and multiple modes for students to express understanding.)

Access (Resources and/or Process) | Expression (Products and/or Performance) |
---|---|
The teacher may provide multiple visual aids, teacher prompts and a variety of stretches per muscle group. [http://www.nba.com/media/nbafit/medicine_ball_training.pdf](Medicine ball training for kids) | Students may use additional visual aids that illustrate proper stretching alignment and lifting techniques

[https://www.google.com/search?q=Dynamic+vs.+static+stretches+for+kids&biw=1093&bih=514&tbm=isch&tbo=u&source=univ&sa=X&ei=gupcVOK8F4GtyATC34D4Cg&ved=0CC8QsAQ](Images of dynamic vs. static stretches for kids)
## Colorado Teacher-Authored Sample Instructional Unit

### Extensions for depth and complexity:

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>Students may work with a peer to provide support while performing proper stretching and lifting techniques</td>
</tr>
</tbody>
</table>

### Critical Content:

- Proper lifting form
- Correct body alignment
- Static stretches vs. Dynamic stretches

### Key Skills:

- Identify the proper form to lift heavy objects
- Identify the importance of correct body alignment for performing lower body stretches

### Critical Language:

Demonstrate, Comparison, Static Stretching, Dynamic Stretching, Lifting, Alignment, Form, Safety, Fitness, Warm-up, Cool-Down

### Learning Experience # 3

The teacher may introduce the 5 Health components of fitness so students can begin applying the components and drawing conclusions about their personal fitness.

### Generalization Connection(s):

Documentation and analysis of factors that influence fitness will establish an understanding of how the body functions

### Teacher Resources:

### Learning Experience # 4

The teacher may administer fitness testing (refer to teacher resources) so students can establish personal fitness goals based on healthy fitness zone results.

| Generalization Connection(s): | Documentation and comparison of personal performance results provide streamlined analysis of personal growth to promote lifelong fitness |
| Assessment: | Students will create three fitness goals (e.g. S.M.A.R.T goals) and complete the goal sheet for fitness testing. |
| Differentiation: | Access (Resources and/or Process) | Expression (Products and/or Performance) |
| (Multiple means for students to access content and multiple modes for students to express understanding.) | The teacher may do verbal checks for understanding | Students may verbally express their SMART goals to the teacher |
| | The teacher may provide a scribe | |
| | The teacher may allow extra time | |
### Colorado Teacher-Authored Sample Instructional Unit

#### Learning Experience # 5

The teacher may return to the FITT principle so students can connect the aspects of the principle to improving activity levels.

| Generalization Connection(s): | Recognition and demonstration of movements and activities enhances the ability to assess and analyze health related physical fitness |
| Teacher Resources: | ![FITT Principle](http://www.ode.state.or.us/teachlearn/subjects/pe/curriculum/fittprinciple.pdf)  
![FITT Activity Pyramid](http://vgutier3.weebly.com/kids-activity-pyramid.html)  
![Lesson plan for activity pyramid](http://www.betterlifeunlimited.com/files/kidshealth/Move%20And%20Groove%20As%20You%20Eat%20To%20Win.pdf) |
| Student Resources: | ![NASPE teacher toolkit monthly home activity guide](http://www.shapeamerica.org/publications/resources/teachingtools/teachertoolbox/)  
*PhysicalBestActivityGuide* by Lori Borsdorf and Boyd Boeyink (Activity Log page 57)  
![Word web template](http://www.eduplace.com/graphicorganizer/pdf/cluster.pdf) |
| Assessment: | Students will design a word web with the 4 major fitness factors: (FITT guidelines, Health-related components, Basic training principals and Skill-related components) and make two personal connections to each of these fitness factors. |
| Differentiation: | (Multiple means for students to access content and multiple modes for students to express understanding.)  
**Access (Resources and/or Process)**: The teacher may pre-fill forms  
**Expression (Products and/or Performance)**: Students may work with a partner to complete a word web |
| Extensions for depth and complexity: | N/A  
**Access (Resources and/or Process)**: Students may present their completed word web to peers  
**Expression (Products and/or Performance)**: Students may peer teach the goal setting process |
| Critical Content: | • F.I.T.T Principle  
• Activity Log |
| Key Skills: | • Develop personal fitness goals |

#### Critical Content:
- SMART Goals
- Fitness Testing

#### Critical Language:
- SMART (Specific, Measurable, Attainable, Relevant, Timely)  
- 5 HRF (Muscular Strength, Muscular Endurance, Flexibility, Cardiorespiratory, Body Composition) Goals, Reflection, Fitness Testing, progress

#### Extensions for depth and complexity:
- Access (Resources and/or Process)
- Expression (Products and/or Performance)

- N/A
### Critical Language:
FITT (Frequency, Intensity, Time, Type), Overload, Progression, Specificity, Heart rate, Target heart rate, Moderate, Vigorous

### Learning Experience # 6

The teacher may provide examples of healthy snacks, meals and appropriate water intake so students can determine nutritional fuel for optimal health and performance.

| Generalization Connection(s): | Recognition and demonstration of movements and activities enhances the ability to assess and analyze health related physical fitness |
| Teacher Resources: | [T-Chart](http://www.enchantedlearning.com/graphicorganizers/tchart/) with “Healthy Foods” on one side and “Unhealthy Foods” on the other side |
| | [Healthy food images](http://www.shutterstock.com/cat.mhtml?searchterm=healthy+food&search_group=&lang=en&search_source=search_form) |
| | [Unhealthy food images](http://www.shutterstock.com/cat.mhtml?searchterm=unhealthy+foods&search_group=&lang=en&search_source=search_form) |

| | N/A |
| | Students may work with a peer to discuss their daily intake choices |
| Extensions for depth and complexity: | Access (Resources and/or Process) |
| | [Food and fitness tracking website](http://www.myfitnesspal.com) |
| | Student may track their food and fitness on a website [Food and fitness tracking website](http://www.myfitnesspal.com) |

### Critical Content:
- Healthy Choices
- Nutrition
- Hydration & Dehydration
Colorado Teacher Authored Sample Instructional Unit

Key Skills:
- Record water intake
- Identify healthy choices for meals and snacks that help to improve physical performance

Critical Language:
Nutrition, Water, Hydration, Healthy Choices, Fuel your body, MyPlate, Dehydration

Learning Experience # 7
The teacher may model fitness challenges so students can begin applying knowledge of a variety of fitness concepts (e.g. cardio, flexibility, endurance, strength etc.)

Generalization Connection(s):
Recognition and demonstration of movements and activities enhances the ability to assess and analyze health related physical fitness. Documentation and analysis of factors that influence fitness will establish an understanding of how the body functions.

Teacher Resources:
http://www.edu.gov.mb.ca/k12/cur/physhlth/foundation/5-8/6-fitness.pdf (Sample lesson plan where students create fitness stations based on 5 components of HRF)

Student Resources:
http://www.getsweaty.com/ (Free student physical activity and nutrition website with fun challenges, information and activities)
http://www.nasa.gov/audience/foreducators/trainlikeanastronaut/home/index.html (NASA fun interactive student website to “train like an astronaut, includes strengthening HRF components in addition to dexterity, balance... also has educator resources)
http://www.edu.gov.mb.ca/k12/cur/physhlth/foundation/5-8/6-fitness.pdf (Sample lesson plan where students create fitness stations based on 5 components of HRF)

Assessment:
Students will work with a partner to develop a fitness station using an exercise that supports the development and improvement of a fitness area (e.g. cardio, flexibility, endurance, strength etc.). Students will move through each station to practice the fitness stations and journal notes of two exercises they can use for the improvement of their own fitness goals.

Differentiation:
(Multiple means for students to access content and multiple modes for students to express understanding.) N/A

Access (Resources and/or Process) | Expression (Products and/or Performance)
---|---
N/A | Students may use a scribe
Students may report answers verbally
Students may draw pictures of activities

Extensions for depth and complexity:
Access (Resources and/or Process) | Expression (Products and/or Performance)
---|---
N/A | Students may write one fitness goal in each fitness area (cardio, flexibility, endurance, strength) i.e. exit slip
### Critical Content:
- 5 Components of Health Related Fitness
- Nutrition and Hydration
- Goal Setting
- F.I.T.T. Principle
- Fitness Safety

### Key Skills:
- Demonstrate an activity for each component of fitness
- How to compare personal performance fitness goals
- Identify the health related component of fitness and their importance to overall health
- Explain the F.I.T.T. principle
- Identify the proper form to lift heavy objects

### Critical Language:
- FITT Principle, Cardiorespiratory Endurance, Muscle Strength, Muscle Endurance, Flexibility, Body Composition, Nutrition, Progression, Specificity, Safety, Fitness Testing
