BASED ON A CURRICULUM OVERVIEW SAMPLE AUTHORED BY
Lake County School District
  Lacey Dahl

East Grand School District
  Darcee Kissler

Woodland Park School District
  Erin Street

This unit was authored by a team of Colorado educators. The template provided one example of unit design that enabled teacher-authors to organize possible learning experiences, resources, differentiation, and assessments. The unit is intended to support teachers, schools, and districts as they make their own local decisions around the best instructional plans and practices for all students.

<td>How do assumptions shape peoples thinking? Why is it important to be open-minded? When are assumptions helpful?</td>
<td></td>
</tr>
</tbody>
</table>
**Critical Content:**
My students will **Know…**

- The advantages of compromises and negotiation (RWC10-GR.6-S.4-GLE.1-RA.3)
- The research process across all content areas. (RWC10-GR.6-S.4-GLE.1-N.1)
- Historians’ use of situational, contextual, and temporal evidence. (RWC10-GR.6-S.4-GLE.2-RA.3)
- Methods for assessing the credibility of a source or resource (RWC10-GR.6-S.4-GLE.2-EO.a-e)
- Tools to use in a small group to organize discussion (RWC10-GR.6-S.1-GLE.1-IQ.5)
- The value and use of electronic resources and hyper-text, quick search features to find information on unfamiliar topics. (RWC10-GR.6-S.2-GLE.3-RA.2.3)
- Steps to take to help monitor research for fairness and bias. (RWC10-GR.6-S.4-GLE.3-RA.3; N.1, 2)
- Strategies for individual, small group and large group projects (RWC10-GR.6-S.4-GLE.1-N.2; IQ.5)

**Key Skills:**
My students will be able to **(Do)…**

- Conduct a short research project (RWC10-GR.6-S.4-GLE.1-EO.a)
- Glean evidence from literary or informational text to support analysis, reflection and research. (RWC10-GR.6-S.4-GLE.1-EO.c)
- Work as an individual, small group, and large group (RWC10-GR.6-S.4-GLE.1-N2; IQ.5)
- Choose an appropriate question or issue to research. (RWC10-GR.6-S.4-GLE.1-N.3)
- Select an appropriate method to conduct research (RWC10-GR.6-S.4-GLE.1-RA.4)
- Utilize available resources including graphs, charts and other access features (RWC10-GR.6-S.4-GLE.1-IQ.1.2)
- Hold themselves and others accountable for sharing the work load (RWC10-GR.6-S.4-GLE.1-IQ.1.5)
- Compromise and negotiate in small and large groups (RWC10-GR.6-S.4-GLE.1-RA.3)
- Recognize that assumptions shape peoples thinking (RWC10-GR.6-S.4-GLE.1-IQ1)
- Integrate information presented in different media or formats (RWC10-S.2-GLE.2-EO.c.i)
- Trace and evaluate arguments (RWC10-S.2-GLE.2-EO.c.ii)

---

**Critical Language:** includes the Academic and Technical vocabulary, semantics, and discourse which are particular to and necessary for accessing a given discipline.

**EXAMPLE:** A student in Language Arts can demonstrate the ability to apply and comprehend critical language through the following statement: "Mark Twain exposes the hypocrisy of slavery through the use of satire."

**A student in ________ can demonstrate the ability to apply and comprehend critical language through the following statement(s):**

**Group research requires compromise, keeping an open mind, and an understanding of perspective to accomplish the collaborative goal.**

**Academic Vocabulary:**
Research, evaluate, collaborate, research tools, assumptions, compromise, contributing, reflection, interpret, cite, opinions, data, evaluate, assess, perspective, relevant, bias, prejudice, metacognition

**Technical Vocabulary:**
Bibliography, APA, MLA, editing process(es)
**Unit Description:**
In this 6-8 week unit, students will research and explore a variety of controversial topics and, through collaboration during the research process, begin to understand how biases and assumptions influence people’s perspectives. Students will work in collaborative groups throughout the research process and participate in discussions and debates to demonstrate their understanding of how bias and assumptions influence our perspectives on issues and, therefore, influence our arguments. The unit will culminate with teams of students participating in debates or mock trials in which they are asked whether a policy, a rule, or a practice is the right thing to do – a “just” or “unjust” action. Think: “Fracking on Trial” or “Hormones in Beef Cattle on Trial.”

**Considerations:**
Teachers may want to identify topics that are relevant in their community or issues about which students would find relevant in their lives. At the heart of the Key Generalization is personal assumptions and biases, so students should have the opportunity to reflect on their own biases and assumptions on topics of their own choice in specific disciplines / content areas.

**Unit Generalizations**

<table>
<thead>
<tr>
<th>Key Generalization</th>
<th>Supporting Generalizations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Recognizing personal assumptions and biases through research, discussion, and collaboration assist learners in becoming productive, open-minded citizens.</td>
<td>The collaborative process can contribute to just forms of communication by generating/respecting different opinions, cultivating individual self-reflection, and promoting group compromise.</td>
</tr>
</tbody>
</table>

**Performance Assessment: The capstone/summative assessment for this unit.**

<table>
<thead>
<tr>
<th>Claims: Recognizing personal assumptions and biases through research, discussion, and collaboration assist learners in becoming productive, open-minded citizens.</th>
</tr>
</thead>
</table>

**Stimulus Material:**
You and fellow members of your expert team have been asked to participate in a mock trial on whether a local policy, rule, or “way of doing” things (a “practice”) is the right thing to do. Is the policy, rule, or practice right? Fair? Just? You are asked to “take a stand” and debate an opposing expert team on the issue. You will need to work collaboratively with your teammates to reach decisions, research, and plan your side of the mock trial. You will also need to explore your own biases and assumptions on the topic so that you are considering different perspectives by understanding your own stance on the issue.

- **Role:** You are a member of a team of lawyers arguing for/against the “justness” of an issue.
- **Audience:** A judge and jury determining the “justness” of an issue.
- **Format:** Mock trial: opening / closing arguments of a trial.
- **Topic:** Issue in Social Studies / Civics, Science or Current Events (teacher / student determined options)

**Product/Evidence:** Students will participate in a debate regarding a controversial issue in social studies, science, or current events in which they demonstrate mastery over research and analysis of different biases and assumptions in the different arguments.
**Differentiation:**
(Multiple modes for student expression)

This Performance Assessment could culminate in different collaborative presentations:
Students may participate in debate.
- **Role:** You are a member of an Expert Panel asked to explore an issue relevant to your community
- **Audience:** Community
- **Format:** Debate in which you make an argument about the justness of the issue and address the biases/assumptions in the issue.
- **Topic:** Recognizing personal assumptions and biases through research, discussion, and collaboration assist learners in becoming productive, open-minded citizens.

Students may participate in a round table discussion on the controversial topic.

**Texts for independent reading or for class read aloud to support the content**

</tr>
</tbody>
</table>

### Prior Knowledge and Experiences

Students should know what a debate or trial is, know the difference between right and wrong actions, know how to type, know how to use search engines, know the difference between right and wrong, know how to work in groups, and have experience with argument writing and writing essays.

### Learning Experience # 1

The teacher may introduce a “controversial” topic (e.g., the use of hormones in cattle, genetically modified organisms) so that students can discuss and identify the issues of justice/injustice related to this topic.

| Generalization Connection(s): | Recognizing personal assumptions and biases through research, discussion, and collaboration assist learners in becoming productive, open-minded citizens. Sharing ideas in the collaborative process provides a meaningful way to challenge personal opinions through personal reflection and group insight/feedback. |
# Colorado Teacher-Authored Sample Instructional Unit

## Teacher Resources:

<table>
<thead>
<tr>
<th>Resource</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><a href="http://cee.nd.edu/curriculum/documents/media.pdf">http://cee.nd.edu/curriculum/documents/media.pdf</a></td>

</tr>
<tr>
<td><a href="http://go.hrw.com/resources/go_sc/hst/HSTSW041.PDF">http://go.hrw.com/resources/go_sc/hst/HSTSW041.PDF</a></td>
<td>Detecting bias in science</td>
</tr>
</tbody>
</table>

## Student Resources:

N/A

## Assessment:

Students may use a double entry journal format to capture the examples of justice/injustice in one column and explanations of why in the other. [http://www.adlit.org/strategies/22091/](http://www.adlit.org/strategies/22091/) (Double entry journal).

## Differentiation:

(Multiple means for students to access content and multiple modes for student to express understanding.)

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Teachers may provide pre-populated graphic organizer</td>
<td>Students may complete journal entry with partners</td>
</tr>
<tr>
<td>Teachers may create peer groups and allow for pair-share before completing the journal entry</td>
<td></td>
</tr>
</tbody>
</table>

## Extensions for depth and complexity:

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>Students may write a response after completing the graphic organizer raising questions or posing pros/cons</td>
</tr>
</tbody>
</table>

## Critical Content:

- Historians’ use of situational, contextual, and temporal evidence
- Steps to take to help monitor research for fairness and bias
- Strategies for individual, small group and large group projects

## Key Skills:

- Work as an individual, small group, and large group
- Choose an appropriate question or issue to research
- Compromise and negotiate in small and large groups
- Recognize that assumptions shape peoples thinking

## Critical Language:

Assumption, bias, perspective / point of view, prejudice, reflection, scenario, stereotype

---

### Learning Experience # 2

The teacher may present research and position statements related to a controversial topic (see Learning Experience # 1) so that students can begin to distinguish the difference between biased and unbiased information, as well as assumptions in people’s perspectives. *[Understanding text, responding to text, critiquing text]*

## Generalization Connection(s):

Recognizing personal assumptions and biases through research, discussion, and collaboration assist learners in becoming productive, open-minded citizens.
### Teacher Resources:
- [http://www.scotdec.org.uk/aadamsbairns/files/activities/unit1/activity1.2.1.html](http://www.scotdec.org.uk/aadamsbairns/files/activities/unit1/activity1.2.1.html) (Source reliability)

- [http://www.babycenter.com/0_bovine-growth-hormone-and-milk-what-you-need-to-know_64389.bc](http://www.babycenter.com/0_bovine-growth-hormone-and-milk-what-you-need-to-know_64389.bc) (Milk with b; is it safe for human babies?)

### Assessment:
Students will compare their initial assumptions about the topic and their thoughts after research. Students will examine the biases in the different articles. The graphic organizers below may be used for both student responses.
- [http://exitticket.org/](http://exitticket.org/) (Online exit ticket)

### Differentiation:
(Multiple means for students to access content and multiple modes for student to express understanding.)
- **Access (Resources and/or Process):** Teachers may provide pre-populated graphic organizers. Teachers may allow peer response groups to support reading
- **Expression (Products and/or Performance):** Students may complete graphic organizer with partners

### Extensions for depth and complexity:
**Access (Resources and/or Process):**

**Expression (Products and/or Performance):**

N/A

### Critical Content:
- Differentiate between bias and assumption
- Steps to take to help monitor research for fairness and bias
- The advantages of compromises and negotiation
- Methods for assessing the credibility of a source or resource
- Tools to use in a small group to organize discussion

### Key Skills:
- Work as an individual, small group, and large group
- Choose an appropriate question or issue to research
- Utilize available resources including graphs, charts and other access features
- Hold themselves and others accountable for sharing the work load
- Recognize that assumptions shape peoples thinking
- Trace and evaluate arguments (RWC10-S.2-GLE.2-EO.c.ii)

### Critical Language:
Assumption, bias, stereotypes, reflection, discrimination, socioeconomic, assess, evaluate
## Learning Experience # 3

The teacher may introduce/utilize a school-related controversy (e.g., school uniforms, school bullying policy, food in classrooms) so that students can begin collaboratively exploring and identifying the “sides” and perspectives related to this topic.

### Generalization Connection(s):

The collaborative process can contribute to just forms of communication by generating/respecting different opinions, cultivating individual self-reflection, and promoting group compromise. Sharing ideas in the collaborative process provides a meaningful way to challenge personal opinions through personal reflection and group insight/feedback.

### Critical Content:

- The advantages of compromises and negotiation
- Tools to use in a small group to organize discussion
- Strategies for an individual, small group and large group projects

### Key Skills:

- Trace and evaluate arguments
- Compromise and negotiate in small and large groups
- Hold themselves and others accountable for sharing the work load
- Work as an individual, small group and large group
Colorado Teacher-Authored Sample Instructional Unit

Critical Language: Compromise, reflection, opinions, evaluate, assess, bias, contributing, cooperative, metacognition

Learning Experience # 4

The teacher may use examples of productive group work and group roles so that students can begin to understand the relationship between collaborative (research) processes and effective group functioning.

Generalization Connection(s):

- Recognizing personal assumptions and biases through research, discussion, and collaboration assist learners in becoming productive, open-minded citizens
- Utilizing research tools enables learners to conduct organized, cohesive research projects through the use of multiple resources, different perspectives, and relevant data

• Steps to take to help monitor research for fairness and bias  
• Strategies for individual, small group and large group projects |
| **Key Skills:** | • Conduct a short research project  
• Work as an individual, small group, and large group  
• Choose an appropriate question or issue to research  
• Select an appropriate method to conduct research  
• Hold themselves and others accountable for sharing the work load  
• Compromise and negotiate in small and large groups  
• Recognize that assumptions shape peoples thinking |
| **Critical Language:** | Research, research tools, data, credibility, source, citation |

### Learning Experience # 5

The teacher may facilitate a debate and consensus building activity (e.g., a Structured Academic Controversy) around the school controversy so that students can experience and determine a process for (orally) presenting, valuing, and respecting opinions in a negotiation process. *[Understanding text, responding to text, critiquing text]*

**Generalization Connection(s):**

The collaborative process can contribute to just forms of communication by generating/respecting different opinions, cultivating individual self-reflection, and promoting group compromise. Sharing ideas in the collaborative process provides a meaningful way to challenge personal opinions through personal reflection and group insight/feedback.

**Teacher Resources:**

- [http://teachinghistory.org/system/files/SAC-Handouts_12.pdf](http://teachinghistory.org/system/files/SAC-Handouts_12.pdf) (Provides an example of a Structured Academic Controversy that can be used in the classroom.)
- [http://teachinghistory.org/teaching-materials/teaching-guides/21731](http://teachinghistory.org/teaching-materials/teaching-guides/21731) (Provides rubrics, handouts and lesson plans that can be helpful when facilitating a Structured Academic Controversy in the classroom. These resources cater to high schools but can easily be adapted for middle school.
## Critical Content:

- The advantages of compromises and negotiation
- The research process across all content areas
- Tools to use in a small group to organize discussion
- Steps to take to help monitor research for fairness and bias
- Strategies for individual, small group and large group projects

## Key Skills:

- Conduct a short research project
- Work as an individual, small group, and large group
- Choose an appropriate question or issue to research
- Select an appropriate method to conduct research
- Hold themselves and others accountable for sharing the work load
- Compromise and negotiate in small and large groups
- Recognize that assumptions shape peoples thinking

## Critical Language:

- Compromise, reflection, opinions, evaluate, assess, bias, contributing, cooperative, metacognition

## Learning Experience #6

**The teacher may brainstorm a specific controversial topic relevant to Colorado communities (e.g., hydraulic fracturing/fracking) so that students can begin identifying different perspectives on the topic.**

### Generalization Connection(s):

Recognizing personal assumptions and biases through research, discussion, and collaboration assist learners in becoming productive, open-minded citizens

Utilizing research tools enables learners to conduct organized, cohesive research projects through the use of multiple resources, different perspectives, and relevant data

### Teacher Resources:

### Student Resources:

- [https://owl.english.purdue.edu/owl/resource/747/08/](https://owl.english.purdue.edu/owl/resource/747/08/) (Citing resources)
- [http://www.cleanvideosearch.com/media/action/yt/watch?v=FLZ-ne0csto](http://www.cleanvideosearch.com/media/action/yt/watch?v=FLZ-ne0csto) (Evaluating credibility of websites)

### Assessment:

Students will complete a KWL on the topic and generate questions to explore. [http://www.readwritethink.org/classroom-resources/printouts/chart-a-30226.html](http://www.readwritethink.org/classroom-resources/printouts/chart-a-30226.html) (KWL Chart from readwritethink.org)

### Differentiation:

## Colorado Teacher-Authored Sample Instructional Unit

**Critical Content:**
- Methods for assessing the credibility of a source or resource
- Steps to take to help monitor research for fairness and bias
- The value and use of electronic resources and hyper-text, quick search features to find information on unfamiliar topics

**Key Skills:**
- Conduct a short research project
- Work as an individual, small group, and large group
- Choose an appropriate question or issue to research
- Select an appropriate method to conduct research
- Hold themselves and others accountable for sharing the work load
- Compromise and negotiate in small and large groups
- Recognize that assumptions shape peoples thinking

**Critical Language:**
Research, research tools, data, credibility, source, citation

---

### Learning Experience # 7

The teacher may provide criteria and materials for evaluating the reliability of print and internet resources so that students can effectively assess biases/assumptions and distinguish between “more reliable” and “less reliable” resources. [Understanding text, responding to text, critiquing text]

**Generalization Connection(s):**
Recognizing personal assumptions and biases through research, discussion, and collaboration assist learners in becoming productive, open-minded citizens
Utilizing research tools enables learners to conduct organized, cohesive research projects through the use of multiple resources, different perspectives, and relevant data

**Teacher Resources:**
- [http://www.readwritethink.org/classroom-resources/lesson-plans/research-building-blocks-examining-149.html](http://www.readwritethink.org/classroom-resources/lesson-plans/research-building-blocks-examining-149.html) (Students first look at examples of a website that offers relevant resources, as well as a website with less useful resources.)
- [http://libguides.sunysuffolk.edu/evaluatingsites](http://libguides.sunysuffolk.edu/evaluatingsites) (Evaluating websites)

**Student Resources:**
**Colorado Teacher Authored Sample Instructional Unit**

| Differentiation: | Access (Resources and/or Process) | Expression (Products and/or Performance) |
| (Multiple means for students to access content and multiple modes for student to express understanding.) | Teachers may provide pre-populated evaluation sheet Teachers may set up partners / small groups for completing the evaluation sheet | Students may complete the evaluation sheet with partners |
| Extensions for depth and complexity: | Access (Resources and/or Process) | Expression (Products and/or Performance) |
| N/A | N/A |
| Critical Content: | • Steps to take to help monitor research for fairness and bias • Strategies for individual, small group and large group projects |
| Key Skills: | • Glean evidence from literary or informational text to support analysis, reflection and research • Work as an individual, small group, and large group • Recognize that assumptions shape peoples thinking • Trace and evaluate arguments |
| Critical Language: | Research, research tools, data, credibility, source, citation |

### Learning Experience # 8

The teacher may utilize diverse texts (e.g., video clips, media reports, articles) about hydraulic fracturing so students can use informational texts to gather evidence on the specifics of fracking processes in relation to natural gas/fossil fuel extraction (the Science of fracking). *[Understanding text, responding to text, critiquing text]*

### Generalization Connection(s):

- Recognizing personal assumptions and biases through research, discussion, and collaboration assist learners in becoming productive, open-minded citizens
- The collaborative process can contribute to just forms of communication by generating/respecting different opinions, cultivating individual self-reflection, and promoting group compromise
- Sharing ideas in the collaborative process provides a meaningful way to challenge personal opinions through personal reflection and group insight/feedback
- Utilizing research tools enables learners to conduct organized, cohesive research projects through the use of multiple resources, different perspectives, and relevant data

### Teacher Resources:

### Critical Content:
- The research process across all content areas
- The advantages of compromises and negotiation
- The research process across all content areas
- Tools to use in a small group to organize discussion
- Steps to take to help monitor research for fairness and bias
- Strategies for individual, small group and large group projects

### Key Skills:
- Conduct a short research project
- Glean evidence from literary or informational text to support analysis, reflection and research
- Work as an individual, small group, and large group
- Choose an appropriate question or issue to research
- Utilize available resources including graphs, charts and other access features
- Hold themselves and others accountable for sharing the work load
- Compromise and negotiate in small and large groups

### Assessment:
Students will summarize science readings to check for understanding of central and supporting ideas.

### Student Resources:
- [http://www.ie.unc.edu/PDF/news_related/murdoch_slides.pdf](http://www.ie.unc.edu/PDF/news_related/murdoch_slides.pdf) (Fracking slides)

### Student Resources:
- [http://www.cleanvideosearch.com/media/action/yt/watch?videoid=L6c-5DIWCKs](http://www.cleanvideosearch.com/media/action/yt/watch?videoid=L6c-5DIWCKs) (Video of a mock trial by students)

### Assessment:
- Students will participate in a final debate/mock trial where students research and successfully argue a perspective they have researched. The assessments during this Learning Experience will be in teacher – student conferences during the research and writing process. ([Conferring with students from Carl Anderson](#))

### Differentiation:
- Access (Resources and/or Process)
- Expression (Products and/or Performance)
### Colorado Teacher Authored Sample Instructional Unit

#### 6th Grade, Reading, Writing, and Communicating

**Unit Title:** Take a Stand

#### (Multiple means for students to access content and multiple modes for student to express understanding.)

Teachers may partner up student with other peers during research and debate. Teachers may determine roles appropriate for students’ capability. Teachers may provide question stems for researching.[http://teachersites.schoolworld.com/webpages/hultenius/files/dok_question_stems.pdf](http://teachersites.schoolworld.com/webpages/hultenius/files/dok_question_stems.pdf) (Question stems from DOK to capture higher level thinking)

[https://tpri.wikispaces.com/file/view/05-2Bloom-16-17+Stems+for+Instruction.pdf](https://tpri.wikispaces.com/file/view/05-2Bloom-16-17+Stems+for+Instruction.pdf) (Question stems from Blooms to capture higher level thinking)

#### Extensions for depth and complexity:

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Teachers may encourage students to argue a counter-argument contrary to their beliefs. Teachers may guide student to find expert sources for information on topics such peer-reviewed journals. Teachers may provide question stems for researching.<a href="http://teachersites.schoolworld.com/webpages/hultenius/files/dok_question_stems.pdf">http://teachersites.schoolworld.com/webpages/hultenius/files/dok_question_stems.pdf</a> (Question stems from DOK to capture higher level thinking)](<a href="https://tpri.wikispaces.com/file/view/05-2Bloom-16-17+Stems+for+Instruction.pdf">https://tpri.wikispaces.com/file/view/05-2Bloom-16-17+Stems+for+Instruction.pdf</a>) (Question stems from Blooms to capture higher level thinking)</td>
<td>Students may argue and research a counter-argument contrary to their beliefs. Students may serve as experts on the debate panel or mock trial</td>
</tr>
</tbody>
</table>

#### Critical Content:

- The research process across all content areas
- The advantages of compromises and negotiation
- The research process across all content areas
- Tools to use in a small group to organize discussion
- Steps to take to help monitor research for fairness and bias
- Strategies for individual, small group and large group projects

#### Key Skills:

- Conduct a short research project
- Glean evidence from literary or informational text to support analysis, reflection and research
<table>
<thead>
<tr>
<th>Critical Language:</th>
<th>Research, research tools, evaluate, compromise contributing, cite evaluate, assess, bias, relevant, perspective, prejudice</th>
</tr>
</thead>
</table>

- Work as an individual, small group, and large group
- Choose an appropriate question or issue to research
- Select an appropriate method to conduct research
- Utilize available resources including graphs, charts and other access features
- Hold themselves and others accountable for sharing the work load
- Compromise and negotiate in small and large groups
- Recognize that assumptions shape peoples thinking
- Integrate information presented in different media or formats
- Trace and evaluate arguments
