Critical Language: includes the Academic and Technical vocabulary, semantics, and discourse which are particular to and necessary for accessing a given discipline.

EXAMPLE: A student in Language Arts can demonstrate the ability to apply and comprehend critical language through the following statement: "Mark Twain exposes the hypocrisy of slavery through the use of satire."

A student in ____________ can demonstrate the ability to apply and comprehend critical language through the following statement(s):

In order to evaluate an argument effectively, one must determine the validity of reasoning and support for claims and counterclaims and identify any instances of fallacious reasoning.

Academic Vocabulary: points of view, fairness, justice, equality, equity, analysis, questioning, synthesis, sources, evidence, delineation, evaluation, researching, connections, arguments, perceptions, reasoning

Technical Vocabulary: Rhetoric/rhetorical techniques

Unit Description:
This four week unit immerses students in analyzing argumentative texts exploring issues under the broader topic of social justice. Students will learn the language of argument (claim, counterclaim, evidence, warrant) and strategies for analyzing and deconstructing arguments. Teachers may use formal and academic argument texts as well as speeches, advertisements, propaganda, visuals, etc. Teachers may also use pieces of literature – poetry, music, novels – that explore themes in justice / social justice. The unit culminates with students adopting the role of members on a newspaper editorial board and critiquing the effectiveness and quality of two arguments on a topic of student choice under the broader topic of "social justice."

This unit emphasizes reading and analyzing argument. Teachers may want to adjust the degree of choice that students for social justice topic choices. The intent of this unit is to give students the skills to deconstruct arguments so that students then may apply those skills in future units and in developing their own written arguments.

Colorado Teacher-Authored Sample Instructional Unit

**Stimulus Material:**
(Engaging scenario that includes role, audience, goal/outcome and explicitly connects the key generalization)

You have been selected to serve on an editorial board of a local newspaper for a special edition of the newspaper exploring relevant social issues in your community. The editorial board is tasked with finding arguments that are well-reasoned for potential inclusion in the paper. Your task is to critique two arguments on a social justice issue and determine the stronger argument. Your chosen arguments may be conflicting arguments. Alternatively, they may be arguments supporting similar positions on the issue and your task is to choose the best argument.

**Role:** Editorial board member of a local community newspaper

**Audience:** Fellow members of the Board.

**Format:** Written critique of two arguments and selection of strongest

**Topic:** Effectiveness and quality of argument

**Product/Evidence:**
(Expected product from students)

Students will evaluate two arguments to determine which writer makes the more convincing and effective argument. The critique that students will produce is, in essence, an argument regarding the strengths and weaknesses of the arguments they have studied.

**Differentiation:**
(Multiple modes for student expression)

Students may have the opportunity to create visual representations (infographics, Venn diagrams, graphic organizers) to support their analysis and argument.

Students may make a video in which they verbally present the analysis of the two texts in a mock TV op-ed piece.

# Prior Knowledge and Experiences

Students should have experience with close reading of texts – specifically, identifying main ideas, supporting evidence, and studying structure of a piece of writing. Students should have a basic knowledge of argument writing. Students should have some background in themes and topics of social justice, or justice, from studying previous pieces of literature or nonfiction texts.
## Learning Experience #1

### Task Description:
*The teacher may... so that students can...*

The teacher may provide students with texts (print/nonprint and fiction/nonfiction) so that students can begin to build a framework around the meaning/definitions of justice or social justice.

### Generalization Connection(s):
Arguments for change/justice increase their effectiveness and potential for impact through powerfully justified and reasoned positions. In order to evaluate the soundness of an argument, good readers/audiences look further than the main claims.

### Assessment:
Students will create a concept map for the unifying theme of the unit in which they branch out to show synonyms, antonyms, examples, images, etc.

### Differentiation:
(Multiple means for students to access content and multiple modes for student to express understanding.)

**Access (Resources and/or Process)**
- Teachers may use additional graphic representations of terminology (info-graphic, image)
- Teachers may use additional video and images to help clarify meaning of concepts.

**Expression (Products and/or Performance)**
- Students may use sentence stems to define important terms (justice, equality)

### Extensions for depth and complexity:

**Access (Resources and/or Process)**
- N/A

**Expression (Products and/or Performance)**
- Students may complete a journal entry discussing the presence of the theme in their own lives.

**Task Description:**
The teacher may present exemplary models of argument and the relationships between parts of an argument (using technical terminology) so that students can identify and explore elements of a strong argument. [Understanding text]

**Generalization Connection(s):**
The anticipation of opposing claims and their potential rationale can increase a speaker’s or writer’s ability to construct an effective argument. In order to evaluate the soundness of an argument, good readers/audiences look further than the main claims.

**Differentiation:**
(Multiple means for students to access content and multiple modes for student to express understanding.)

### Learning Experience # 12

#### Task Description:
*The teacher may... so that students can...*

The teacher may model the process for comparative analysis of two arguments so that student can begin to understand the value of and process for critiquing two arguments. [*Understanding text, responding to text, critiquing text, producing text*]

#### Generalization Connection(s):
Arguments, supported in an organized manner by sound reasoning and multiple examples of evidence, bring about changes in the attitudes, actions, and beliefs of audiences.  
In order to evaluate the soundness of an argument, good readers/audiences look further than the main claims.  
Writers attend to the conventions of language in order to establish credibility and more effectively persuade an audience.

## Learning Experience # 13

**Task Description:**

*The teacher may... so that students can...*

The teacher may model various methods for integrating and synthesizing source information (e.g. direct quotations, paraphrasing, and paragraphing) with accurate conventions and mechanics so that students can apply conventions to more effectively persuade an audience. 

[Understanding text, responding to text, critiquing text, producing text]

**Generalization Connection(s):**

Arguments, supported in an organized manner by sound reasoning and multiple examples of evidence, bring about changes in the attitudes, actions, and beliefs of audiences.

Writers attend to the conventions of language in order to establish credibility and more effectively persuade an audience.

The teacher may highlight or otherwise indicate sections that need revision.

**Expression (Products and/or Performance)**

Student may revise with guidance from the teacher.

**Extensions for depth and complexity:**

**Access (Resources and/or Process)**

The teacher may use strategic grouping of gifted students to check the work of their peers for accuracy of source integration. If he or she discovers errors in source integration, the gifted student will be responsible for re-teaching his or her peer.

**Expression (Products and/or Performance)**

Students may turn in a peer editing checklist that includes a reflection on errors that were corrected.
