BASED ON A CURRICULUM
OVERVIEW SAMPLE AUTHORED BY
Cheyenne Mountain School District
Annie Bryant-House
Garfield 16 School District
Robin McMillan

This unit was authored by a team of Colorado educators. The template provided one example of unit design that enabled teacher-authors to organize possible learning experiences, resources, differentiation, and assessments. The unit is intended to support teachers, schools, and districts as they make their own local decisions around the best instructional plans and practices for all students.

### Colorado 21st Century Skills

- **Critical Thinking and Reasoning:** Thinking Deeply, Thinking Differently
- **Information Literacy:** Untangling the Web
- **Collaboration:** Working Together, Learning Together
- **Self-Direction:** Own Your Learning
- **Invention:** Creating Solutions

### Intragned Curriculum Design

This intradisciplinary approach matches basic elements in each of the science strands – physical, life, earth systems sciences - forming overlaps in instruction of certain topics and concepts in an authentic integrated model.

**Critical Language:** includes the Academic and Technical vocabulary, semantics, and discourse which are particular to and necessary for accessing a given discipline.

**EXAMPLE:** A student in Language Arts can demonstrate the ability to apply and comprehend critical language through the following statement: "Mark Twain exposes the hypocrisy of slavery through the use of satire."

A student in ______________ can demonstrate the ability to apply and comprehend critical language through the following statement(s):

- Severe weather contributes to catastrophic events.
- Certain weather patterns go with specific seasons.
- The environment is impacted by temperature and weather.

**Academic Vocabulary:** analyze, interpret, evidence, scientific explanation, prediction

**Technical Vocabulary:** temperature, weather, seasons, severe, catastrophic, weather patterns, environment, organisms, impact, hemisphere
## Unit Description:
This unit focuses on the effects of weather and seasons with respect to organisms and their environment, including seasons, normal weather patterns, severe weather, and catastrophic events. Students will understand how survival is dependent upon changes in behavior and the environment. Beginning with tools to collect data on weather, across the unit students investigate weather and temperature, seasons, human and animal behavioral response to weather and seasons, and severe weather and catastrophic events. The unit culminates in a performance assessment that asks students to take the role of a weather forecaster and report on local weather within a given season.

## Considerations:
Teachers need to consider timing of the unit based on how often science is taught during a week and the length of time for each science block. Teachers need to consider that this will be the first time students have seen these concepts, so brainstorming background vocabulary will be helpful.

## Unit Generalizations
### Key Generalization:
Organisms go through physical changes and change their behavior in order to survive the Earth’s ever-changing weather and seasons

### Supporting Generalizations:
The changing seasons bring about different weather due to changes in the atmosphere
Catastrophic events are often caused by severe weather

## Performance Assessment: The capstone/summative assessment for this unit.

### Claims:
(Organization(s) to be mastered and demonstrated through the capstone assessment.)
Organisms go through physical changes and change their behavior in order to survive the earth’s ever-changing weather and seasons.

### Stimulus Material:
(Engaging scenario that includes role, audience, goal/outcome and explicitly connects the key generalization)
You are a Colorado weather forecaster and have been chosen to report on the effects of weather and seasons on a local environment. In your report you must include the season, the types of weather occurring within that season, the temperatures, the changes in the organisms (humans, animals, or plants) and their behavior, and the changes in the environment. You must also identify potential severe weather (e.g. hail, tornadoes, blizzards) and its effect on the local environment and organisms.

### Product/Evidence:
(Expected product from students)
Students will present their findings regarding the effects of weather and seasons on a local environment and its organisms. They must include potential severe weather (e.g. hail, tornadoes, blizzards, etc.) and its effect on the local environment and organisms. Students may use multiple modalities to demonstrate their understanding, including a written report, oral report as a forecaster, storyboard, Power Point, or a diorama with explanations.

### Differentiation:
(Multiple modes for student expression)
- The teacher may incorporate accommodations/modifications of IEP such as extended time, oral presentation, use of dictionaries, etc.
- The teacher may allow for one-on-one presentation, not in front of whole class.
- The teacher may provide some of the data in advance (students must still analyze the data).
- The teacher may provide a writing template for the report.
- The teacher may allow students to create a video through voice thread.
- To extend this work, students may select a non-local environment and research the seasons, weather (normal and severe), and the effects on that environment and organisms (e.g. Australia, Florida, Africa, etc.).
### Texts for independent reading or for class read aloud to support the content

**Teacher Resources:**
- [http://sciencespot.net/Pages/ISNinfo.html](http://sciencespot.net/Pages/ISNinfo.html) (Presentation used at the beginning of the year to introduce ISNs to students)

**Student Resources:**

**Assessment:** The student will be assessed within learning experiences

### Prior Knowledge and Experiences

Students must have an understanding of habitats, the difference between hot and cold temperatures, what a thermometer is used for, basic types of weather, the four seasons, and how organisms differ.

Vertical Articulation: This is the first time students will have seen these concepts.

### Learning Experiences # 1 – 4
### Instructional Timeframe: Weeks 1-2

**Learning Experience # 1**

The teacher may review/assess prior knowledge by checking understanding of the idea of temperature, how it relates to human behavior, and how tools (e.g., thermometer) are used to understand weather so that students can demonstrate their current level of understanding.

**Generalization Connection(s):**
Organisms go through physical changes and change their behavior in order to survive the Earth’s ever-changing weather and seasons.
The changing seasons bring about different weather due to changes in the atmosphere.
## Learning Experience # 2

The teacher may demonstrate how to document observational data so that students can begin recording their personal observations of weather and temperatures.

### Generalization Connection(s):
- Organisms go through physical changes and change their behavior in order to survive the Earth’s ever-changing weather and seasons.
- The changing seasons bring about different weather due to changes in the atmosphere.
### Teacher Resources:
- [http://www.printablepaper.net/category/graph](http://www.printablepaper.net/category/graph) (Printable graph paper)
- [http://homeschoolcreations.com/files/Temperatures_this_week.pdf](http://homeschoolcreations.com/files/Temperatures_this_week.pdf) (Printable thermometers for recording)

### Student Resources:
- [http://weather.weatherbug.com/CO/Rocky%20Ford-weather.html?zcode=z6286&zip=81067](http://weather.weatherbug.com/CO/Rocky%20Ford-weather.html?zcode=z6286&zip=81067) (Site providing local weather conditions – searchable for various locations)

### Assessment:
Students will create scientific notebook entries documenting (drawing) actual weather and temperatures daily for a designated period of time and writing about the weather they have depicted (i.e., short-even one word-entries about the weather/temperature they have documented).

### Differentiation:
(Multiple means for students to access content and multiple modes for student to express understanding.)

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>

<td><a href="http://weather.weatherbug.com/CO/Rocky%20Ford-weather.html?zcode=z6286&amp;zip=81067">http://weather.weatherbug.com/CO/Rocky%20Ford-weather.html?zcode=z6286&amp;zip=81067</a> (Site providing local weather conditions – searchable for various locations) The teacher may allow students to track daily temperatures for a different location</td>
<td>The student may report out to the class on the temperature changes in different locations</td>
</tr>
</tbody>
</table>

### Critical Content:
- Weather and temperature changes during the day
- Weather and temperature changes over a period of time.

### Key Skills:
- Record observations based on reading of the thermometer

### Critical Language:
- Temperature, thermometer, observations, record, weather, record, create, observe

### Learning Experience # 3
The teacher may provide opportunities to research past weather temperatures for a given location so that students can look for patterns in weather and temperatures across seasons.

### Generalization Connection(s):
- Organisms go through physical changes and change their behavior in order to survive the Earth’s ever-changing weather and seasons
- The changing seasons bring about different weather due to changes in the atmosphere
### Teacher Resources:
- [http://weather.org/weatherorg_records_and_averages.html](http://weather.org/weatherorg_records_and_averages.html) (Shows map of the world and can hyperlink to a certain location for weather)
- [www.almanac.com/weather/history](http://www.almanac.com/weather/history) (Almanac)
- [On the Same Day in March: a tour of the world’s weather – M. Singer](http://www.weather.com/video/nature-changing-around-us-35904) [lexile level AD540L](http://www.weather.com/video/nature-changing-around-us-35904) (Video showing changes in weather in various locations)

### Student Resources:
- [http://weather.org/weatherorg_records_and_averages.html](http://weather.org/weatherorg_records_and_averages.html) (Shows map of the world and can hyperlink to a certain location for weather)
- [http://www.weather.com/video/nature-changing-around-us-35904](http://www.weather.com/video/nature-changing-around-us-35904) (Video showing changes in weather in various locations)

### Assessment:
Students will produce a record of past temperatures for their local community for the previous month (e.g., science notebook addition, computer print-outs, etc.).

### Differentiation:
(Multiple means for students to access content and multiple modes for student to express understanding.)

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>The teacher may provide multiple sources for retrieving data (e.g. National weather service, National center for atmospheric research, etc.)</td>
<td>The student may color successive thermometers for the various recordings or orally discuss these with the teacher <a href="http://homeschoolcreations.com/files/Temperatures_this_week.pdf">http://homeschoolcreations.com/files/Temperatures_this_week.pdf</a> (Printable thermometers)</td>
</tr>
<tr>
<td>The teacher may allow students to work in pairs</td>
<td></td>
</tr>
</tbody>
</table>

### Extensions for depth and complexity:

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td><a href="http://weather.org/weatherorg_records_and_averages.html">http://weather.org/weatherorg_records_and_averages.html</a> (Site providing past weather conditions – searchable for various locations)</td>
<td>The student may track past temperatures in a different location</td>
</tr>
</tbody>
</table>

### Critical Content:
- Temperature changes over a period of time

### Key Skills:
- Researching and recording past temperatures in identified location

### Critical Language:
Temperature, thermometer, observations, record, research, weather, research, identify

### Learning Experience # 4

The teacher may direct students in the creation of graphs from selected temperature data so the students can begin exploring how to visually represent, interpret, and make predictions based on (temperature) data.

### Generalization Connection(s):
The changing seasons bring about different weather due to changes in the atmosphere

### Teacher Resources:
- [http://www.printablepaper.net/category/graph](http://www.printablepaper.net/category/graph) (Printable graph paper)
- [http://www.gobookee.org/temperature-graph-for-kids/](http://www.gobookee.org/temperature-graph-for-kids/) (Assists in creation of graphing collected temperature data)
- [http://nces.ed.gov/nceskids/createagraph/default.aspx](http://nces.ed.gov/nceskids/createagraph/default.aspx) (Online way to create different types of graphs)

### Student Resources:
### Assessment:
Students will create and interpret their graph by identifying patterns and make predictions (e.g. presenting findings to their peers via oral presentation, written communication, etc.)

### Differentiation:
(Multiple means for students to access content and multiple modes for student to express understanding.)

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>The teacher may provide graphing template</td>
<td>The student may demonstrate their understanding of patterns one on one with teacher</td>
</tr>
<tr>
<td>The teacher may allow students to work in pairs</td>
<td>The student may verbally answer question prompts to demonstrate knowledge</td>
</tr>
</tbody>
</table>

### Extensions for depth and complexity:

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>N/A</td>
<td>The student may graph and compare local weather findings to another location using the same periods</td>
</tr>
</tbody>
</table>

### Critical Content:
- Temperature changes over time
- Interpreting data
- Making predictions based on data
- Compare predictions to actual results

### Key Skills:
- Creating various forms of graphs
- Graphing temperature changes for an extended period of time
- Interpreting data
- Making predictions based on data

### Critical Language:
Temperature, data, bar graph, line graph, interpret, predict, compare, create, graph

---

**Learning Experiences # 5 – 6**
**Instructional Timeframe: Week 3**

### Learning Experience # 5
The teacher may provide different visual examples of weather so that students can begin identifying the relationship between different kinds of weather and seasons.

### Generalization Connection(s):
Organisms go through physical changes and change their behavior in order to survive the Earth’s ever-changing weather and seasons. The changing seasons bring about different weather due to changes in the atmosphere. Catastrophic events are often caused by severe weather.

### Teacher Resources:
- *Winter*- Saunders-Smith, G. [lexile level 425]
- *Spring*- Saunders-Smith, G. [lexile level 425]
- *Summer*- Saunders-Smith, G. [lexile level 425]
- *Autumn*- Saunders-Smith, G. [lexile level 425]

</table>

#### Critical Content:
- Seasons
- Weather and temperature relationships

#### Key Skills:
- Explain changes in seasons
- Compare and contrast weather in each season
- Explain relationships between seasons and weather

#### Critical Language:
- Seasons (winter, spring, summer, fall), weather (snow, rain, heat, wind, etc.), relationship, explain, compare, contrast
# Learning Experience # 6

The teacher may brainstorm with students the changes humans make related to season and weather to guide students’ thinking about how the changing weather affects them.

## Generalization Connection(s):
Organisms go through physical changes and change their behavior in order to survive the Earth’s ever-changing weather and seasons. The changing seasons bring about different weather due to changes in the atmosphere. Catastrophic events are often caused by severe weather.

## Teacher Resources:

<tr>
<td>The teacher may provide other locations to be used to demonstrate behavioral changes due to weather and season</td>
<td>The student may produce an end product (report, picture, diorama etc.) showing their findings</td>
</tr>
</tbody>
</table>

## Critical Content:
- Seasons
- Weather and temperature relationships
- Changes in human behavior dependent on seasons and weather

## Key Skills:
- Explain changes in seasons
- Compare and contrast weather in each season
- Explain relationships between seasons and weather

## Critical Language:
- Seasons (winter, spring, summer, fall), weather (snow, rain, heat, wind etc.), relationship, human behavior, explain, compare, contrast
### Learning Experience #7

The teacher may present students with information regarding organism behavior (e.g., migration, hibernation) and physical characteristics (e.g., shedding, dormancy) so that students can begin to identify how organisms adapt to weather/seasons.

<table>
<thead>
<tr>
<th>Generalization Connection(s):</th>
<th>Organisms go through physical changes and change their behavior in order to survive the Earth’s ever-changing weather and seasons. The changing seasons bring about different weather due to changes in the atmosphere. Catastrophic events are often caused by severe weather.</th>
</tr>
</thead>
</table>

### Teacher Resources:

- *If frogs made Weather* - M.D. Bauer
- *Sunny Sunday Drive* – J. Scott
  - [http://www.youtube.com/watch?v=vlc4FwsKDSg](http://www.youtube.com/watch?v=vlc4FwsKDSg) (Video on hibernation)
  - [http://dsc.discovery.com/tv-shows/curiosity/topics/10-ways-life-has-adapted-to-its-environment.htm](http://dsc.discovery.com/tv-shows/curiosity/topics/10-ways-life-has-adapted-to-its-environment.htm) (Information regarding different behavior and physical changes on organisms due to weather)
  - [http://education.nationalgeographic.com/education/mapping/interactive-map/?ar_a=1](http://education.nationalgeographic.com/education/mapping/interactive-map/?ar_a=1) (Map generator)

### Student Resources:

- [http://www.youtube.com/watch?v=vlc4FwsKDSg](http://www.youtube.com/watch?v=vlc4FwsKDSg) (Video on hibernation)

### Assessment:

Students will work in groups to role-play organisms’ behavior or physical changes by describing these adaptations through the creation of a scenario (i.e., I am a bear and winter is coming. I will...)

### Differentiation:

Access (Resources and/or Process)

- The teacher may provide question prompts for students
- The teacher may provide a scenario for each group of students
- The teacher may provide a partially completed scenario
- The teacher may allow students to match or draw pictures related to physical changes and other adaptations

Expression (Products and/or Performance)

- The student may demonstrate knowledge 1 on 1 with teacher
- The student may answer question prompts to demonstrate knowledge
- The student may create a Sequence board

### Extensions for depth and complexity:

Access (Resources and/or Process)

- The teacher may provide a story board
  - [http://www.printablepaper.net/category/storyboard](http://www.printablepaper.net/category/storyboard) (Storyboard graphic organizer)
- The teacher may provide a graphic organizer

Expression (Products and/or Performance)

- The student may write a short story and have a map accompany the story that shows the location of the den where it hibernates and the areas where it looks for food
- The student may compare behaviors of an organism to that of a human due to weather
## Critical Content:
- Physical changes in various organisms due to changes in weather or weather patterns
- Behavioral changes in various organisms due to changes in weather or weather patterns

## Key Skills:
- Explain the relationships between an organism’s behavior or physical changes due to weather patterns

## Critical Language:
Weather, temperature, compare, physical changes, behavior changes, patterns, explain, create

## Learning Experience # 8

The teacher may provide weather/season related scenarios so students can begin identifying similarities and differences with regards to how organisms adapt (e.g., snakes shed their skins, trees lose their leaves).

### Generalization Connection(s):  
Organisms go through physical changes and change their behavior in order to survive the Earth’s ever-changing weather and seasons.  
The changing seasons bring about different weather due to changes in the atmosphere.  
Catastrophic events are often caused by severe weather.

### Teacher Resources:
- *If frogs made Weather* - M.D. Bauer
- *Sunny Sunday Drive* – J. Scott
- Videos – migration, hibernation, dormancy, shedding  

### Student Resources:
- [http://www.brainpopjr.com/science/plants/plantadaptations/preview.weml](http://www.brainpopjr.com/science/plants/plantadaptations/preview.weml) (Students can manipulate online games)  

### Assessment:
Students will create a Venn diagram that compares and contrasts physical traits and adaptations to weather for a given number of organisms.  

### Differentiation:  
(Multiple means for students to access content and multiple modes for student to express understanding.)

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
</table>
| The teacher may adjust number of given animals for assessment  
The teacher may allow students to use pictures of animals instead of a Venn diagram  
The teacher may allow students to work in pairs/ small groups | The student may draw pictures of changes  
The student may cut and paste pictures of changes |

### Extensions for depth and complexity:

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
</table>
| The teacher may provide students with the opportunity to research other types of organisms and find ways in which they adapt to weather and seasons  
[http://www.ecokids.ca/PUB/eco_info/topics/climate/adaptations/index.cfm](http://www.ecokids.ca/PUB/eco_info/topics/climate/adaptations/index.cfm) Site for adaptations to climate) | The student may research and report on other types of organisms and find ways in which they adapt to weather and seasons and report the findings |
## Colorado Teacher Authored Sample Instructional Unit

### Critical Content:
- Physical changes in various organisms due to changes in weather or weather patterns
- Behavioral changes in various organisms due to changes in weather or weather patterns

### Key Skills:
- Compare and contrast the relationships between changes in organism behavior or physical changes due to weather patterns among various organisms.

### Critical Language:
Weather, temperature, compare, contrast, physical changes, behavior changes

## Learning Experiences # 9 – 12
### Instructional Timeframe: Weeks 4-5

#### Learning Experience # 9

The teacher may brainstorm with students specific examples of local severe weather so that students can categorize severe weather types by season.

#### Generalization Connection(s):
- Catastrophic events are often caused by severe weather

#### Teacher Resources:
- **Temperature** – R. Olien [lexile level 670]
- **Fuegos arrasados/Wildfires.** – M. Doeden [lexile level 460]
- **Inundaciones/Floods** – M. Doeden [lexile level 460]
- **Huracanes/Hurricanes** – M. Schuh [lexile level 450]
- **Tornados/Tornadoes** – M. Schuh [lexile level 450]
- **Tsunamis** – M. Schuh [lexile level 450]
- **Avalanches** – M. Schuh [lexile level 450]

- [http://www.seattleschools.org/modules/groups/homepagefiles/cms/1583136/File/Departmental%20Content/instructional%20services/science/materials/catastrophicevents_fl_e.pdf](http://www.seattleschools.org/modules/groups/homepagefiles/cms/1583136/File/Departmental%20Content/instructional%20services/science/materials/catastrophicevents_fl_e.pdf) (Hurricanes and tornadoes)
- [http://dsc.discovery.com/video-topics/other/extreme-weather.htm](http://dsc.discovery.com/video-topics/other/extreme-weather.htm) (Many weather related videos)
- [http://www.sciencekids.co.nz/videos/weather.html](http://www.sciencekids.co.nz/videos/weather.html) (Many weather related videos)

- [http://weatherthings.com/TeacherVideos.html](http://weatherthings.com/TeacherVideos.html) (Primary weather videos)

#### Student Resources:
- [http://dsc.discovery.com/video-topics/other/extreme-weather.htm](http://dsc.discovery.com/video-topics/other/extreme-weather.htm) (Many weather related videos)
- [http://www.sciencekids.co.nz/videos/weather.html](http://www.sciencekids.co.nz/videos/weather.html) (Many weather related videos)
- [http://science.discovery.com/video-topics/earth-science/extreme-weather.htm](http://science.discovery.com/video-topics/earth-science/extreme-weather.htm) (Many weather related videos)
- [http://weatherthings.com/TeacherVideos.html](http://weatherthings.com/TeacherVideos.html) (Primary weather videos)

#### Assessment:
Students will draw and write about various severe types of weather in their journals to document their differences.
### Colorado Teacher-Authored Sample Instructional Unit

#### Differentiation:
(Multiple means for students to access content and multiple modes for student to express understanding.)

#### Extensions for depth and complexity:

### Access (Resources and/or Process) | Expression (Products and/or Performance)
---|---
Teacher may provide simplified journal with fewer or no lines. Teacher may provide pictures of severe weather and cards with severe weather types written on them | The student may match cards with words or point to pictures as words are read to them

### Access (Resources and/or Process) | Expression (Products and/or Performance)
The teacher may provide opportunities for deeper exploration of one or more severe types of weather [http://www.weather.com/outlook/weatherbystate](http://www.weather.com/outlook/weatherbystate) (Site for tracking weather by state) | The student may select a certain severe weather, visit website at home, and report back new information on severe weather and seasons occurring outside of Colorado

### Critical Content:
- Severe weather (lightning storms, hail, hurricane, blizzard, thunderstorm, freeze, dust storms, etc.)

### Key Skills:
- Discuss types of severe weather
- Journal types of severe weather

### Critical Language:
Severe weather (lightning storms, hail, hurricane, blizzard, thunderstorm, freeze, dust storms), discuss, journal

### Learning Experience # 10
The teacher may provide different kinds of classroom labs so that students can explore examples of severe weather and catastrophic events (e.g., tornadoes in a bottle, flood table).

#### Generalization Connection(s):
Catastrophic events are often caused by severe weather

#### Teacher Resources:
- [www.sciencekids.co.nz/weather.html](http://www.sciencekids.co.nz/weather.html) (Website for teachers and kids to explore facts, take quizzes, experiment, play games, build lessons, etc.)
- [https://www.google.com/search?q=flood+table&tbm=isch&tbo=u&source=univ&sa=X&ei=qYQgU4GiLMLioATCpoKQBA&ved=0CEsQsAQ&biw=1366&bih=648](https://www.google.com/search?q=flood+table&tbm=isch&tbo=u&source=univ&sa=X&ei=qYQgU4GiLMLioATCpoKQBA&ved=0CEsQsAQ&biw=1366&bih=648) (Images of flood tables)
- [http://www.youtube.com/watch?v=PDjnIMGLUVE](http://www.youtube.com/watch?v=PDjnIMGLUVE) (You tube video on how to set up a flood table)
- [https://www.google.com/search?q=tornado+in+a+bottle&tbm=isch&tbo=u&source=univ&sa=X&ei=BoUgU7_TE4TmoATD_oKgBA&ved=0CCQQsAQ&biw=1366&bih=648](https://www.google.com/search?q=tornado+in+a+bottle&tbm=isch&tbo=u&source=univ&sa=X&ei=BoUgU7_TE4TmoATD_oKgBA&ved=0CCQQsAQ&biw=1366&bih=648) (Images of tornadoes in a bottle)

#### Student Resources:
- [www.sciencekids.co.nz/weather.html](http://www.sciencekids.co.nz/weather.html) (Website for teachers and kids to explore facts, take quizzes, experiment, play games, build lessons, etc.)

#### Assessment:
Students will describe, either orally or written, how catastrophic events are caused by severe weather.

#### Differentiation:
(Multiple means for students to access content and multiple modes for student to express understanding.)

#### Access (Resources and/or Process) | Expression (Products and/or Performance)
---|---
The teacher may provide a sentence starter The teacher may allow partner work | The student may work with a partner to describe their observations of the weather stations to a peer
**Colorado Teacher-Authored Sample Instructional Unit**

<table>
<thead>
<tr>
<th>Extensions for depth and complexity:</th>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>

</table>

**Critical Content:**

- Severe weather (lightning storms, hail, hurricane, thunderstorm, blizzard, freeze, dust storms)
- Catastrophic events (floods, drought, fire etc.)

**Key Skills:**

- Observe severe weather and catastrophic events
- Explain their observations

**Critical Language:**

Severe weather (lightning storms, hail, hurricane, thunderstorm, blizzard, freeze) catastrophic events (floods, drought, fire, etc.), observe, explain

---

**Learning Experience # 11**

The teacher may discuss local catastrophic events (Black Forest fire, flood, etc.) so that students can begin connecting these events with weather and with human and other organisms’ adaptations.

**Generalization Connection(s):**

Catastrophic events are often caused by severe weather

**Teacher Resources:**

- [http://www.dilleyisd.net/ourpages/auto/2012/9/30/52827076/Unit%204%20Lesson%20Plans.pdf](http://www.dilleyisd.net/ourpages/auto/2012/9/30/52827076/Unit%204%20Lesson%20Plans.pdf) (Lists of websites for different catastrophic events)

## Colorado Teacher-Authored Sample Instructional Unit

| 2nd Grade, Science | Unit Title: Weather and Seasons |

### Resources

- [http://www.ssec.si.edu/ms-teaching-resources](http://www.ssec.si.edu/ms-teaching-resources) (List of sites, says for middle school, but some sites would be appropriate for 2nd too.)
- [http://www.seattleschools.org/modules/groups/homepagefiles/cms/1583136/File/Departmental%20Content/instructional%20services/science/materials/catastrophicevents_fl_e.pdf](http://www.seattleschools.org/modules/groups/homepagefiles/cms/1583136/File/Departmental%20Content/instructional%20services/science/materials/catastrophicevents_fl_e.pdf) (Can be used as at home resource, guiding questions and activities)

### Assessment:
Students will use pictures and/or phrases to match severe weather to catastrophic events and the impact to organisms/humans.

### Differentiation:
(Multiple means for students to access content and multiple modes for student to express understanding.)

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Teacher may provide pictures of 2 or 3 types of catastrophic events and 2 or 3 personal adaptations (i.e., relocation, food, clothes) The teacher may provide pictures and videos of severe weather, and catastrophic weather <a href="http://www.sciencekids.co.nz/videos/weather.html">www.sciencekids.co.nz/videos/weather.html</a> (Website with videos of severe weather)</td>
<td>N/A</td>
</tr>
</tbody>
</table>

### Extensions for depth and complexity:

<table>
<thead>
<tr>
<th>Access (Resources and/or Process)</th>
<th>Expression (Products and/or Performance)</th>
</tr>
</thead>
<tbody>
<tr>
<td>The teacher may provide survival stories for kids around severe weather in the United States The teacher may provide students with the opportunity to identify different causes for catastrophic events <a href="http://www.nps.gov/yell/parkmgmt/fireecology.htm">http://www.nps.gov/yell/parkmgmt/fireecology.htm</a> (Information on the Yellowstone fire of 1988)</td>
<td>The student may explain how the people involved survived catastrophic events/severe weather The student may engage in reader’s theater to dramatize survival</td>
</tr>
</tbody>
</table>

### Critical Content:
- Relating human survival to severe weather and catastrophic events

### Key Skills:
- Describe how severe weather and catastrophic events affect human behavior

### Critical Language:
- Survival, catastrophic event, severe weather, human behavior, match, explain
